

Contents

1	Introduction	1
1.1	Why Drill Wells?	1
1.2	The Basics of Well Drilling and Cementing	2
1.3	The Importance of Well Cement Integrity	4
1.4	Cement Chemistry	5
1.5	Summary and Discussion	6
	References	7
2	Properties of Well Cement	9
2.1	Properties of the Cement Slurry	10
2.2	From Slurry to Solid: Cement Hardening	14
2.3	Properties of Hardened Cement	16
2.4	Summary and Discussion	22
	References	22
3	Fluid Flow and Displacement in the Annulus	25
3.1	Forces Acting on Mud During Mud Displacement	29
3.2	Kinematic Model of Annular Cementing	29
3.3	Effect of Eccentric Annulus	32
3.4	Effect of Borehole Shape	41
3.5	Lost Circulation	52
3.6	Effect of Well Inclination	53
3.7	Example Case History: Primary Cementing in a Horizontal Well	55
3.8	Effect of Flow Regime	56
3.9	Effect of Pipe Movement	58
3.10	Models of Cement Flow in the Annulus	59
3.11	Summary and Discussion	60
	References	61

4 Heterogeneities in Cement	63
4.1 Large-Scale Channels/Pockets.	64
4.2 Enhanced Cement Porosity	64
4.3 Cement Slurry Settling	66
4.4 Interface Defects.	66
4.5 Measurements of Cement Bonding Quality	69
4.6 Operation-Induced Damage.	71
4.7 Summary and Discussion	71
References.	72
5 Formation Stresses, Casing Pressure, and Annular Cement	75
5.1 Initial Stresses in Annular Cement	78
5.2 Effect of Casing Pressure Increase on Annular Cement	80
5.3 Effect of Casing Pressure Decrease on Annular Cement.	82
5.4 Effect of an Uncemented Channel on Stresses in Annular Cement Caused by Casing Pressure Changes	84
5.5 Effect of Formation Stress Changes on Annular Cement	85
5.6 From Stresses to Well Integrity: Microannulus, Cracks, and Permeability Hysteresis	86
5.7 Summary and Discussion	88
References.	90
6 Thermal Stresses in Annular Cement	93
6.1 Effect of Casing Temperature Increase on Well Cement.	94
6.2 Effect of Casing Temperature Decrease on Well Cement	98
6.3 Effect of Eccentric Casing Positioning	99
6.4 Summary and Discussion	100
References.	101
7 Knowledge Gaps and Outstanding Issues	103
References.	105
Index	107

Physics and Mechanics of Primary Well Cementing

Lavrov, A.; Torsæter, M.

2016, VIII, 108 p. 62 illus., 9 illus. in color., Softcover

ISBN: 978-3-319-43164-2
