Part I The Importance of Health Insurance

1	Defining Health Insurance	3
1.1	Healthcare Finance	3
1.1.1	Defining Healthcare Finance	3
1.1.2	Demand and Supply of Healthcare Finance	6
1.1.3	The Subjectivity of Healthcare Finance	8
1.1.4	Alternative Forms of Healthcare Finance	11
1.2	The Growth of Health Insurance	12
1.2.1	Diverse Beginnings of Health Insurance	13
1.2.2	Policy and the Growth of Health Insurance	16
1.2.3	Professionalizing Health Insurance	19
1.3	The Health Insurance Literatures	20
1.3.1	Health Insurance Policy	20
1.3.2	Health Economics	22
1.3.3	Risk Management and Insurance	24
1.3.4	Health Services Research	26
	References	29
2	Insuring Health Capital	33
2.1	The Economic Value of Health	33
2.1.1	Consuming and Investing in Health	33
2.1.2	Health Investments	35
2.1.3	The Health Capital Model	36
2.2	Risk Aversion and Health Risks	37
2.2.1	Changes in Health Capital	37
2.2.2	Valuing Health Capital	38
2.2.3	Health Risk Aversion	40
2.2.4	Health Insurance Choices	42

2.3	Financial Intermediation of Healthcare Spending	44
2.3.1	Insuring Health Indirectly	44
2.3.2	Monetizing the Value of Health	46
2.3.3	Challenges in Monetizing Health Capital	47
2.3.4	Health Insurance Pricing	49
2.3.5	Scale and Scope in Third-Party Payment	51
	References.	53
3	The Scope of Health Insurance	55
3.1	Measuring the Degree of Protection	55
3.1.1	Defining Quantity	55
3.1.2	Measuring Quality.	58
3.1.3	Determining Prices	62
3.2	Optimizing Health Insurance	63
3.2.1	Health Insurance Trade-offs	63
3.2.2	Optimal Health Insurance as a Benchmark	66
3.2.3	Determining the Optimal Policy	67
3.3	Constraints on the Scope of Insurance	70
3.3.1	Insurer Constraints	70
3.3.2	Asymmetry of Information	71
3.3.3	Moral Hazard	73
3.3.4	Adverse Selection	75
3.3.5	Other Economic Externalities	77
3.3.6	Irrationality of Consumers and Producers	80
	References.	81

Part II Health Insurance Markets

4	Demand for Health Insurance	87
4.1	Health Insurance Demand Functions.	87
4.1.1	The Demand Side of Markets	87
4.1.2	Demand as a Function of Price	89
4.1.3	Constrained Willingness to Pay	91
4.1.4	Diminishing Marginal Benefit of Health Insurance	94
4.1.5	Different Types of Demand Functions.	95
4.2	Individual Demand	96
4.2.1	Direct Purchase of Insurance.	96
4.2.2	Explaining Individual Demand	98
4.2.3	The Services Individuals Purchase	100
4.3	Group Demand	102
4.3.1	Employer-Provided Coverage	103
4.3.2	Explaining Employer-Provided Coverage	105
4.3.3	Social Insurance	108
4.3.4	Explaining Social Insurance	110
	References.	113

5 Producing Health Insurance	117
5.1 Health Insurance Supply Functions.	117
5.1.1 The Supply Side of Markets	117
5.1.2 Supply as a Function of Price	119
5.1.3 Production of Health Insurance	120
5.1.4 Bundling Versus Disintermediation	122
5.2 Health Insurance Companies.	124
5.2.1 Organizational Forms	124
5.2.2 Markets for Health Insurance Companies	126
5.2.3 Diversity of Health Insurance Companies	127
5.2.4 Competition and Partnerships	129
5.3 Healthcare Providers as Insurers	130
5.3.1 Providers' Provision of Financial Intermediation.	130
5.3.2 Direct Contracting Versus Third-Party Payment	133
5.3.3 Features and Drawbacks of Provider-Supplied Insurance.	135

5.4.1 Health Insurance as an Instrumental Good	136
5.4.2 Self-insurance by Governments and Employers	137
5.4.3 Features and Drawbacks of Self-insurance	140
References.	142
6 Matching Supply and Demand	145
6.1 Equilibrium Health Insurance	145
6.1.1 Economics of Equilibrium.	145
6.1.2 Optimality Under Equilibrium.	148
6.1.3 Health Insurance Subsidies and Taxes.	150
6.2 Health Insurance Choices	152
6.2.1 Individual Choices	152
6.2.2 Employer Choices	153
6.2.3 Government Choices	155
6.3 The Uninsured	158
6.3.1 Defining the Uninsured	158
6.3.2 Explaining the Uninsured	159
6.3.3 Alternatives to Health Insurance	162
6.3.4 Consequences of Uninsurance.	164
References.	168

Part III Health Insurance Policy

7 Group Purchasing	175
7.1 Group Pricing	175
7.1.1 Actuarially Fair Group Insurance	175
7.1.2 The Role of Community Rating	176
7.1.3 Taxation and Regulation Considerations	177

7.2	Outsourcing Versus Insourcing Decisions.	179
7.2.1	Provider-Based Insourcing	179
7.2.2	Employers and Outsourcing	183
7.2.3	Governments, Outsourcing, and Insourcing	184
7.2.4	Healthcare Reimbursement as a Public Good	186
7.3	Growth in Public Group Insurance	188
7.3.1	New Public Programs—Pre-ACA	188
7.3.2	Non Policy-Based Shifts to Public Insurance	190
7.3.3	New Public Programs—The ACA.	191
7.3.4	Public Group Insurance Internationally	194
	References.	197
8	The Role of Government	201
8.1	Second-Best Health Insurance	201
8.1.1	Beneficent Social Planner	201
8.1.2	Feasibility and Second-Best Solutions.	203
8.1.3	Addressing Market Failures.	206
8.2	Features and Limitations of Public Policy	208
8.2.1	Policy and Regulatory Tools.	208
8.2.2	Measuring Crowd Out and Deadweight Loss	211
8.3	Health Insurance Policy Options.	213
8.3.1	Universal Coverage.	213
8.3.2	Single Payer Approaches.	216
8.3.3	A Range of Policy Options.	220
8.4	The Meaning of Public Health Insurance	224
8.4.1	Federal Group Purchasing.	224
8.4.2	Diversity and Homogenization	227
	References.	229
9	Public Policy Choices	235
9.1	The Economics of Value	235
9.1.1	Defining Value	235
9.1.2	Variation in the Value of Health Insurance	238
9.1.3	Improving Value.	239
9.2	Expansion and Reduction	242
9.2.1	Defining Expansion and Reduction	242
9.2.2	Value Through Expansion and Reduction	243
9.3	Ongoing Health Insurance Challenges	246
9.3.1	Analytic Challenges	246
9.3.2	The Limits of Health Insurance.	247
9.3.3	Public Choices	252

9.4	The Future of Health Insurance	253
9.4.1	The Risk Management Menu	253
9.4.2	Health Insurance as an Entrée.	255
9.4.3	Unpicked Fruit	257
9.4.4	Better Meals, Better Lives.	258
	References.	260
Index	263

What Is Health Insurance (Good) For?

An Examination of Who Gets It, Who Pays for It, and
How to Improve It

Lieberthal, R.
