

Contents

1	Cellular Redox Homeostasis as Central Modulator in Plant Stress Response	1
	C. Paciolla, A. Paradiso and M.C. de Pinto	
2	Plant Cell Redox Homeostasis and Reactive Oxygen Species	25
	A. Trchounian, M. Petrosyan and N. Sahakyan	
3	Redox Balance in Chloroplasts as a Modulator of Environmental Stress Responses: The Role of Ascorbate Peroxidase and Nudix Hydrolase in <i>Arabidopsis</i>	51
	T. Ishikawa, T. Maruta, T. Ogawa, K. Yoshimura and S. Shigeoka	
4	Physiological Processes Contributing to the Synthesis of Ascorbic Acid in Plants	71
	C.G. Bartoli, M.E. Senn and G.E. Gergoff Grozeff	
5	Redox State in Plant Mitochondria and its Role in Stress Tolerance	93
	N.V. Bykova and A.U. Igamberdiev	
6	Oxidative Stress and its Role in Peroxisome Homeostasis in Plants	117
	T. Su, Q. Shao, P. Wang and C. Ma	
7	Glutathione-Related Enzyme System: Glutathione Reductase (GR), Glutathione Transferases (GSTs) and Glutathione Peroxidases (GPXs)	137
	J. Csiszár, E. Horváth, K. Bela and Á. Gallé	
8	Glutathione Metabolism in Plants Under Metal and Metalloid Stress and its Impact on the Cellular Redox Homoeostasis	159
	Luis E. Hernández, A. González, A. Navazas, Á. Barón-Sola, F. Martínez, A. Cuypers and C. Ortega-Villasante	

9	Glutathione and Related Enzymes in Response to Abiotic Stress	183
	I. Štolfa, D. Špoljarić Maronić, T. Žuna Pfeiffer and Z. Lončarić	
10	The Function of Cellular Redox Homeostasis and Reactive Oxygen Species (ROS) in Plants Tolerance to Abiotic Stresses	213
	Qinghua Shi and Biao Gong	
11	Abiotic Stress-Induced Redox Changes and Programmed Cell Death in Plants—A Path to Survival or Death?	233
	S.R. Kumar, G. Mohanapriya and R. Sathishkumar	
12	The Role of ROS and Redox Signaling During the Initial Cellular Response to Abiotic Stress	253
	Jos H.M. Schippers and R. Schmidt	
13	The Cadmium-Binding Thioredoxin <i>O</i> Acts as an Upstream Regulator of the Redox Plant Homeostasis	275
	Moêz Smiri, Sami Boussami, Takwa Missaoui and Amor Hafiane	
14	Arsenic Tolerance in Plants: Cellular Maneuvering Through Sulfur Metabolites	297
	D. Talukdar	
15	Regulation of Stomatal Responses to Abiotic and Biotic Stresses by Redox State	331
	Y. Murata, S. Munemasa and I.C. Mori	
16	The Antioxidant Power of Arginine/Nitric Oxide Attenuates Damage Induced by Methyl Viologen Herbicides in Plant Cells	349
	N. Correa-Aragunde, P. Negri, F. Del Castello, N. Foresi, J.C. Polacco and L. Lamattina	
17	Protein S-Nitrosylation and S-Glutathionylation as Regulators of Redox Homeostasis During Abiotic Stress Response	365
	J.C. Begara-Morales, B. Sánchez-Calvo, M. Chaki, R. Valderrama, C. Mata-Pérez, F.J. Corpas and J.B. Barroso	

Redox State as a Central Regulator of Plant-Cell Stress
Responses

Gupta, D.K.; Palma, J.M.; Corpas, F.J. (Eds.)

2016, XI, 386 p. 60 illus., 48 illus. in color., Hardcover

ISBN: 978-3-319-44080-4
