4	The Rest of the Zoo	53
4.1	Monopole Networks	53
4.1.1	Evolution of Local Monopoles	57
4.1.2	Evolution of Global Monopoles	59
4.2	Monopoles Attached to One String	62
4.2.1	Local Case	64
4.2.2	Global Case	66
4.3	Monopoles Attached to More than One String	69
4.4	Semilocal Strings	72
4.4.1	The VOS Model for Semilocal Strings	73
4.4.2	Comparing to Simulations	75
	References	77
5	Model Extensions	79
5.1	Superconducting Strings	79
5.1.1	Averaged Equations	82
5.1.2	No Charge Losses	84
5.1.3	Macroscopic Charge Losses	88
5.2	Wiggly Strings	91
5.2.1	Averaged Evolution and Energy Transfers	95
5.2.2	The Tensionless Limit	99
5.2.3	The Linear Limit	101
5.3	Towards Cosmic Superstrings	104
	References	106
6	Defects in Condensed Matter	107
6.1	Motivation	107
6.2	The VOS Model Revisited	109
6.2.1	The Condensed-Matter Context	111
6.2.2	The Relativistic Regime	113
6.3	Summary: VOS in a Nutshell	114
