

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	The Concept of a Differential Equation	1
1.2	Elementary Methods of Solving Differential Equations	5
1.2.1	Equations with Separable Variables	5
1.2.2	Homogeneous Equations	7
1.2.3	First-Order Linear Differential Equations	7
1.2.4	Exact Differential Equations	8
1.2.5	Riccati Equations	9
1.2.6	Lagrange Equations	9
1.2.7	Clairaut Equations	10
1.2.8	Higher Order ODEs Explicitly Solvable	11
1.3	Mathematical Models Described by Differential Equations	12
1.3.1	Radioactive Decay	12
1.3.2	Population Growth Models	13
1.3.3	Epidemic Models	14
1.3.4	The Harmonic Oscillator	14
1.3.5	The Motion of a Particle in a Conservative Field	15
1.3.6	The Schrödinger Equation	16
1.3.7	Oscillatory Electrical Circuits	17
1.3.8	Solitons	17
1.3.9	Bipartite Biological Systems	20
1.3.10	Chemical Reactions	21
1.4	Integral Inequalities	22
<b>2</b>	<b>Existence and Uniqueness for the Cauchy Problem</b>	<b>29</b>
2.1	Existence and Uniqueness for First-Order ODEs	29
2.2	Existence and Uniqueness for Systems of First-Order ODEs	32
2.3	Existence and Uniqueness for Higher Order ODEs	35
2.4	Peano's Existence Theorem	36
2.5	Global Existence and Uniqueness	40

2.6	Continuous Dependence on Initial Conditions and Parameters . . . .	54
2.7	Differential Inclusions. . . . .	58
<b>3</b>	<b>Systems of Linear Differential Equations. . . . .</b>	<b>79</b>
3.1	Notation and Some General Results . . . . .	79
3.2	Homogeneous Systems of Linear Differential Equations. . . . .	81
3.3	Nonhomogeneous Systems of Linear Differential Equations. . . . .	85
3.4	Higher Order Linear Differential Equations . . . . .	86
3.5	Higher Order Linear Differential Equations with Constant Coefficients. . . . .	89
3.5.1	The Harmonic Oscillator. . . . .	94
3.6	Linear Differential Systems with Constant Coefficients. . . . .	96
3.7	Differentiability in Initial Data . . . . .	102
3.8	Distribution Solutions of Linear Differential Equations. . . . .	106
<b>4</b>	<b>Stability Theory. . . . .</b>	<b>123</b>
4.1	The Concept of Stability. . . . .	123
4.2	Stability of Linear Differential Systems . . . . .	127
4.3	Stability of Perturbed Linear Systems. . . . .	130
4.4	The Lyapunov Function Technique . . . . .	134
4.5	Stability of Control Systems. . . . .	143
4.6	Stability of Dissipative Systems . . . . .	147
<b>5</b>	<b>Prime Integrals and First-Order Partial Differential Equations. . . . .</b>	<b>161</b>
5.1	Prime Integrals of Autonomous Differential Systems . . . . .	161
5.1.1	Hamiltonian Systems. . . . .	165
5.2	Prime Integrals of Non-autonomous Differential Systems. . . . .	168
5.3	First-Order Quasilinear Partial Differential Equations . . . . .	170
5.3.1	The Cauchy Problem. . . . .	172
5.4	Conservation Laws . . . . .	175
5.5	Nonlinear Partial Differential Equations . . . . .	182
5.6	Hamilton–Jacobi Equations. . . . .	190
	<b>Appendix . . . . .</b>	<b>201</b>
	<b>References . . . . .</b>	<b>219</b>
	<b>Index . . . . .</b>	<b>221</b>
