

Contents

- 1 The Emerging Nature of Psychology of Technology 1**
 - 1.1 An Introduction to Psychology of Technology 1
 - 1.2 Defining Technology..... 3
 - 1.2.1 Science and Technology 5
 - 1.3 Philosophy of Technology 7
 - 1.4 Psychology as a Science 20
 - 1.5 On Relating Psychology with Technology 23
 - 1.5.1 Psychology in Technology 23
 - 1.5.2 Psychology and Technology 23
 - 1.5.3 Psychology of Technology..... 25
 - 1.6 The Goals of Psychology of Technology 26
 - 1.7 Conceptual Framework for Psychology of Technology
in the Context of the Interaction Between Technology,
Biology, and Behavior..... 29
 - 1.8 Methods of Research in Psychology of Technology..... 31
 - 1.8.1 Experiments in Psychology of Technology 33
 - 1.8.2 Use of Descriptive Methods in the Study
of Psychology of Technology: Observation and Surveys 34
 - 1.8.3 Employing Simulation 36
 - 1.8.4 Application of Methods Used in Neurosciences..... 36
 - 1.9 Ethics in Research on Psychology of Technology 38
 - Chapter Summary 41
 - Suggestions for Further Reading 42
- 2 Technology, Psychology, and Evolution 43**
 - 2.1 Could We Have Remained a Tech-Devoid Society?
The Evolution of Technology 44
 - 2.1.1 Technology and Animal Behavior 45
 - 2.1.2 The Cognitive Shaping of Technology:
Area Restricted Search..... 47

2.2	Beyond Darwin and Its Implications for Cognition and Behavior	53
2.2.1	Significance of Exaptations and Spandrels	54
2.3	Could Technology Have Developed in Any Other Way: The Human Body.....	58
2.3.1	Measuring the Human Body: Anthropometry	60
2.3.2	Basic Principles of Anthropometry.....	65
2.4	Ergonomics	68
2.4.1	How Does Ergonomics Work?.....	69
2.4.2	Ergonomics and Prevention Through Design	70
2.5	Applications of Anthropometry	72
2.5.1	Anthropometry and Workspace Design	73
2.5.2	Anthropometrics and Chair Design	74
2.5.3	Anthropometry and Space Station Design.....	75
2.5.4	Anthropometrics and Designing for the Aged	76
2.5.5	Use of Anthropometrics in Rehabilitation	77
2.5.6	Workplaces for Women Workers	78
2.6	When Anthropometrics Is Neglected.....	79
2.7	Going Beyond Anthropometrics	79
2.8	Mapping the Body and Technology: The Unique Role of Psychology of Technology	81
	Chapter Summary	83
	Suggestions for Further Reading	83
3	Technology and Sensory, Perceptual, and Cognitive Processes.....	85
3.1	The Human Sensory System and Its Neurological Basis.....	88
3.1.1	The Visual System and Vision	89
3.1.2	The Human Visual Cortex.....	90
3.1.3	The Auditory System and Audition	93
3.1.4	The Human Auditory Cortex	95
3.1.5	Psychoacoustics	97
3.2	Cognition.....	102
3.2.1	Improving Our Ability to Collectively Improve Ourselves.....	102
3.2.2	Cognitive Foraging: The Evolution of Cognitive Structures and Functions.....	103
3.2.3	Schumpeter's Gale: Creative Destruction and Leapfrog Technology	106
3.3	The Cognitive Architecture.....	109
3.3.1	The Cognitive Pyramid	110
3.3.2	Visual and Auditory Perceptual Processes.....	116
3.3.3	Visual and Auditory Displays: Using the Laws of Perceptual organization	116
3.3.4	Visual Displays	117
3.3.5	Auditory Displays	119
3.3.6	Sonification	121

3.3.7	Ecological Validity and Auditory Displays	122
3.3.8	Acousmatization of Sound	122
3.4	Multisensory Integration in Sensation and Perception	124
3.4.1	Integration of Cognition	124
3.4.2	Technology and Multisensory Integration	125
3.4.3	Technology and the Audiovisual Asynchrony	126
3.4.4	Everyday Listening and Acoustic Ecology: Soundscape Mapping	127
3.5	Augmenting Cognition	129
3.5.1	Is Augmentation Possible? Synaptic Plasticity	129
3.6	Brain–Computer Interfaces	130
3.6.1	Convergent Cognitive Enhancement	133
	Chapter Summary	136
	Suggestions for Further Reading	137
4	Technology and Motor Behavior: The Cinderella of Modern Psychology	139
4.1	The Importance of Motor Behavior	139
4.2	Technology and the Nonexecutive Functions of Our Body	143
4.2.1	The Muscle Fibers	143
4.2.2	The Motor Unit	144
4.2.3	Areas of the Spinal Cord and the Brain	144
4.3	Role of Dopamine in Motor Behavior	145
4.4	The Psychology of Movement	146
4.4.1	Motor Development	146
4.4.2	Motor Learning	146
4.4.3	Motor Control	147
4.5	Systems of Motor Control	149
4.5.1	Open Loop Motor Control System	149
4.5.2	Closed Loop Motor Control System	149
4.5.3	Helping People in the Use of Prostheses	150
4.5.4	Intermittent Motor Control Systems	154
4.5.5	Lessons from Dancing	155
4.5.6	Lessons from Sport	157
4.5.7	Lessons from Developmental Psychology	159
4.6	Motor Imagery	161
4.7	Application of Principles of Motor Behavior in Medicine	163
4.8	Fitts' Law: Time Taken to Reach Targets	164
4.8.1	Validity of Fitts' Law	166
4.8.2	Use of Fitts' Law in the Design of Technology	167
4.9	Human–Computer Interface (HCI)	167
4.9.1	Applications of Fitts' Law for Mobiles and Tablets	169
4.9.2	Designing Devices for the Differently Abled	170
4.10	Brain–Computer Interface	172
4.10.1	Types of BCI	173

4.10.2	Electrocorticography (ECoG).....	174
4.10.3	Modus Operandi of a BCI.....	175
4.10.4	BCI and Fitts' Law.....	176
4.10.5	Commercially Manufactured BCI.....	176
4.11	New Directions in BCI.....	178
4.11.1	Neuro-gaming.....	178
4.11.2	The Double Bind: OPTT (Optimizing Participation Through Technology) Comes to the Rescue.....	179
4.11.3	Shared Control Techniques.....	180
4.12	The Eye as a Pointing Device.....	181
4.13	Augmenting Motor Functions in Humans.....	182
4.13.1	Exoskeletons.....	183
4.13.2	Noninvasive Brain Stimulation (NIBS) Techniques.....	185
	Summary.....	186
	Suggested Readings.....	186
5	Behavior in the Virtual Environment.....	187
5.1	Instant Messaging.....	193
5.1.1	Why Do People Text? Texters Versus Talkers.....	194
5.1.2	Effects of Texting.....	196
5.2	Mobile Apps and Their Use.....	199
5.2.1	Developing a Mobile App.....	201
5.3	Online Communication and Use of Social Network Sites.....	203
5.3.1	Effects of the Internet and Computer Technology on Children.....	205
5.3.2	Computer Use by Older Adults.....	207
5.4	Computers and Multitasking.....	210
5.4.1	Multitasking.....	210
5.4.2	Training at Multitasking.....	213
5.5	Pathological Media Use and PIU.....	213
5.5.1	Problematic Internet Use.....	215
5.5.2	Cyber bullying.....	216
5.5.3	Technostress.....	219
5.5.4	Technology Overload.....	219
5.6	Video Gaming.....	220
5.6.1	Effects of Gaming.....	223
5.6.2	Cognitive Gains.....	223
5.6.3	Motivational Benefits.....	224
5.6.4	Emotional Benefits.....	225
5.6.5	Social Benefits.....	225
5.7	Virtual Reality.....	226
5.7.1	The Turing Test.....	227
5.7.2	Avatars and Agents.....	228
5.8	The Technoself.....	231

5.9	Robots and Sociable Robots	232
5.9.1	Turkle's Second Self.....	236
5.10	Moving On? From Avatars and Agents to Immersive Virtual Environment Technology	239
5.11	Applications of IVET and Other Virtual Reality Technologies	242
5.11.1	Social Psychology	242
5.11.2	Education.....	243
5.11.3	Serious Games in Health and Education	244
5.11.4	Teachable Agents and the Protégé Effect.....	244
5.11.5	Therapy.....	245
5.11.6	Industry.....	247
5.11.7	Limits of Virtual Reality.....	248
	Summary	250
	Suggestions for Further Reading	251
6	Technology and Hedonism	253
6.1	Economics and Hedonomics.....	257
6.2	Cognition Versus Emotion	258
6.3	From Ergonomics to Hedonomics	261
6.4	Hedonomics and Its Importance	265
6.4.1	Time Perception.....	265
6.4.2	Broaden and Build Theory	266
6.4.3	Marketing of Products	268
6.5	Hedonomics and Hedonic Design.....	269
6.6	Achieving Hedonic Design	269
6.6.1	The Technology Acceptance Model.....	271
6.6.2	The Role of Arousal	273
6.6.3	Designing for Flow	274
6.6.4	Levels of Designing.....	277
6.7	On Designing the All-in-One Product	281
6.7.1	The Affective-User Design Model	282
6.8	On Measuring Affective Responses to Objects	283
6.8.1	The Semantic Differential Technique.....	283
6.8.2	Semistructured Interviews	283
6.8.3	Kansei/Kenzei Engineering	284
6.8.4	Citarasa Engineering	285
6.9	Choosing Technology: Problems with Affective Design.....	285
6.9.1	Personality Aspect of Designs.....	287
6.9.2	More Choice or Less Choice	289
6.10	Hedonomics and Cognitive Biases	290
6.10.1	Prospect Theory.....	291
6.10.2	Attribution Theory.....	292
6.10.3	Projection Bias	294
6.10.4	Medium Maximization.....	295

6.11	Applications of Hedonomics.....	296
6.11.1	e-Consumer Behavior.....	296
6.11.2	Online Gaming.....	298
6.11.3	Online Music Services.....	300
6.11.4	Technology for the Differently Abled.....	301
6.12	A Caveat.....	301
	Summary.....	303
	Suggestions for Further Reading.....	304
7	Psychology of Technology in the Twenty-First Century.....	305
7.1	Technology as an Intervention.....	307
7.2	Where Is the User in User Technology?.....	311
7.2.1	Opaque and Transparent Technologies.....	318
7.3	The Interdisciplinary Focus of Psychology of Technology.....	319
7.3.1	Sociology of Technology and Psychology of Technology.....	319
7.3.2	Convergent Technologies and Psychology of Technology.....	322
7.3.3	The Internet of Things (IoT) and Psychology of Technology.....	324
7.4	Psychology, Technology, and Ethics.....	325
7.5	Technology, Psychology, and Culture.....	332
	Chapter Summary.....	335
	Suggestions for Further Reading.....	335
	References.....	337
	Index.....	373

Psychology of Technology

Kool, V.; Agrawal, R.

2016, XXIV, 384 p. 30 illus., 24 illus. in color., Hardcover

ISBN: 978-3-319-45332-3
