

Contents

1	Introduction to Sequences and Series	1
1.1	Sequences and Series	3
1.2	Arithmetic Progression	8
1.3	Geometric Progression	17
1.4	Finding the n^{th} Term of a Sequence or Series	23
1.4.1	Finding the n^{th} Term of a Fibonacci Type Sequence	23
1.4.2	Finding Recurrent Formula for a Known Sequence	29
1.4.3	Other Sequences	34
1.5	Summation Formulas Known to Ancient Babylonians and Greeks	46
2	Further Study of Sequences and Series	65
2.1	Methods of Finding Partial and Infinite Sums	66
2.2	Trigonometric Series	92
2.3	Using Mathematical Induction for Sequences and Series	96
2.4	Problems on the Properties of Arithmetic and Geometric Sequences	101
2.5	Miscellaneous Problems on Sequences and Series	109
3	Series Convergence Theorems and Applications	123
3.1	Numerical Series	124
3.1.1	Necessary and Sufficient Convergence Conditions	125
3.1.2	Nonnegative Numerical Series	126
3.1.3	Alternating Series	140
3.2	Functional Series	151
3.2.1	Power Series	153
3.2.2	Taylor and Maclaurin Series	157
3.3	Methods of Finding Sums for Infinite Series	166
3.3.1	Using Method of Partial Sums	166
3.3.2	Using Power Series of Elementary Functions	168

3.3.3	Method of Differentiation and Integration of Series	173
3.3.4	Abel's Method	177
3.4	Using Series for Approximation	179
3.4.1	An Approximation of an Irrational Number	180
3.4.2	An Approximation of Integrals	181
3.4.3	Integration of Differential Equations	183
3.5	Generating Functions	185
4	Real-Life Applications of Geometric and Arithmetic Sequences	191
4.1	Mini-Project 1: Radioactive Decay and its Applications	194
4.2	Mini-Project 2: Patients and Injections	198
4.3	Mini-Project 3: Investing Money	201
4.3.1	Simple and Compound Interest	201
4.3.2	Saving Money by Periodic Deposits. Future Value of an Annuity	202
4.4	Mini-Project 4: Thinking of Buying a House?	206
4.4.1	Present Value. Debt Payment Schedules	206
4.4.2	Present Value of an Annuity. Mortgage Payment	209
4.5	Mini-Project 5: Loan Amortization	213
4.5.1	Paying Off an Outstanding Credit Card Debt	213
4.5.2	Using a Computer to Build an Amortization Table	217
4.5.3	Using a Graphing Calculator for Financial Estimates	222
5	Homework	227
	Appendix 1 MAPLE Program for Fibonacci Application	271
	Appendix 2 Method of Differences	273
	References	277
	Index	279

Methods of Solving Sequence and Series Problems

Grigorieva, E.

2016, XX, 281 p. 46 illus., 25 illus. in color., Hardcover

ISBN: 978-3-319-45685-0

A product of Birkhäuser Basel
