

Preface

This volume contains the papers presented at NSS 2016: The 10th International Conference on Network and System Security held during September 28–30, 2016, in Taipei, Taiwan. NSS 2016 was organized and supported by the Chinese Cryptology and Information Security Association (CCISA), Taiwan. Since its inauguration in 2007, NSS has become a highly successful series of annual international gatherings, for academic and industrial researchers and practitioners to exchange ideas in the area of network and system security. Previous editions of NSS were held in: New York, USA (2015); Xi'an, China (2014); Madrid, Spain (2013); Wu Yi Shan, China (2012); Milan, Italy (2011); Melbourne, Australia; (2010); Gold Coast, Australia (2009); Shanghai, China (2008); and Dalian, China (2007).

The conference received 105 submissions. Each submission was carefully reviewed by at least three committee members. The Program Committee decided to accept 31 full papers and four short papers. We would like to thank all authors who submitted their papers to NSS 2016, and the conference attendees for their interest and support, which made the conference possible. We further thank the Organizing Committee for their time and efforts; their support allowed us to focus on the paper selection process. We thank the Program Committee members and the external reviewers for their hard work in reviewing the submissions; the conference would not have been possible without their expert reviews.

We also thank the invited speakers for enriching the program with their presentations. We thank Prof. Yang Xiang, Chair of the NSS Steering Committee, for his advice throughout the conference preparation process. We also thank Prof. Yeh Kuo-Hui for the contributions to the local arrangements, which helped make this conference happen in Taipei. Last but not least, we thank EasyChair for making the entire process of the conference convenient.

We hope you find these proceedings educational and enjoyable!
