

Contents

1 Targeted Therapies in Brain Tumours: An Overview	1
Shane M. Crilly and Philip J. O'Halloran	
2 Targeting Chemotherapy Resistance in Glioblastoma Through Modulation of ABC Transporters.....	25
Amanda Tivnan	
3 Resistance of Glioblastomas to Radiation Therapy	55
Han Shen and Eric Hau	
4 The Blood-Brain Barrier in Glioblastoma: Pathology and Therapeutic Implications.....	69
John Kealy and Matthew Campbell	
5 Resistance of Brain Tumours to Small-Molecule-Targeted Therapies: Lessons from Various Cancer Types	89
Fiona O'Neill	
6 Drug Repurposing to Circumvent Chemotherapy Resistance in Brain Tumours	107
Richard Hill, Samantha A. Murray, Zaynah Maherally, Samantha C. Higgins, and Geoffrey J. Pilkington	
7 Small-Molecule Inhibitors in Glioblastoma: Key Pathways and Resistance Mechanisms.....	145
Jenny L. Pokorny, Gaspar J. Kitange, and Daniel J. Ma	
8 Imaging Targeted Therapy Response and Resistance in Glioblastoma	175
Kate Connor, Monika A. Jarzabek, Kieron White, Andreas H. Jacobs, and Annette T. Byrne	
9 Drug Resistance in Malignant Meningiomas	199
Kyle A. Smith, Chris Miller, Domenico Gattozzi, and Roukoz B. Chamoun	

10	Recurrence of Low-Grade Glioma: Have the Targeted Therapies Improved for Better Outcomes?	219
	Zaitun Zakaria	
11	Host–Tumor Interactions in Brain Cancer Metastasis Leading to Drug Resistance	237
	Robert R. Langley and Isaiah J. Fidler	
	Index.....	255

Resistance to Targeted Therapies Against Adult Brain
Cancers

Tivnan, A. (Ed.)

2016, XVI, 260 p. 19 illus., 16 illus. in color., Hardcover

ISBN: 978-3-319-46504-3
