

Preface

The Second International Conference on Technologies and Innovation (CITI 2016) was held during November 23–25 2016, in Guayaquil, Ecuador. The CITI series of conferences aims to provide an international framework and meeting point for professionals who are mainly devoted to research, development, innovation, and university teaching in the field of computer science and technology applied to any important field of innovation. CITI 2016 was organized as a knowledge-exchange conference consisting of several contributions about current innovative technology. These proposals deal with the most important aspects and future prospects from an academic, innovative, and scientific perspective. The goal of the conference was the feasibility of investigating advanced and innovative methods and techniques and their application in different domains in the field of computer science and information systems that represent innovation in current society.

We would like to express our gratitude to all the authors who submitted papers to CITI 2016, and our congratulations to those whose papers were accepted. There were 65 submissions this year. Each submission was reviewed by at least three Program Committee (PC) members. Only the papers with an average score of ≥ 1.0 were considered for final inclusion, and almost all accepted papers had positive reviews or at least one review with a score of 2 (accept) or higher. Finally, the PC decided to accept 21 full papers.

We would also like to thank the PC members, who agreed to review the manuscripts in a timely manner and provided valuable feedback to the authors.

November 2016
