

# Contents

## Full Papers

Metabolic Pathways as Temporal Logic Programs . . . . .	3
<i>Jean-Marc Alliot, Martín Diéguez, and Luis Fariñas del Cerro</i>	
On Decidability of a Logic of Gossips. . . . .	18
<i>Krzysztof R. Apt and Dominik Wojtczak</i>	
Hilbert-Style Axiomatization for Hybrid XPath with Data . . . . .	34
<i>Carlos Areces and Raul Fervari</i>	
Approximate Unification in the Description Logic $\mathcal{FL}_0$ . . . . .	49
<i>Franz Baader, Pavlos Marantidis, and Alexander Okhotin</i>	
Inconsistency-Tolerant Query Answering: Rationality Properties and Computational Complexity Analysis . . . . .	64
<i>Jean François Baget, Salem Benferhat, Zied Bouraoui, Madalina Croitoru, Marie-Laure Mugnier, Odile Papini, Swan Rocher, and Karim Tabia</i>	
Temporal Here and There . . . . .	81
<i>Philippe Balbiani and Martín Diéguez</i>	
On Logics of Group Belief in Structured Coalitions. . . . .	97
<i>Philippe Balbiani, David Pearce, and Levan Uridia</i>	
A Three-Value Abstraction Technique for the Verification of Epistemic Properties in Multi-agent Systems . . . . .	112
<i>Francesco Belardinelli and Alessio Lomuscio</i>	
A Relaxation of Internal Conflict and Defence in Weighted Argumentation Frameworks . . . . .	127
<i>Stefano Bistarelli, Fabio Rossi, and Francesco Santini</i>	
Decidability and Expressivity of Ockhamist Propositional Dynamic Logics. . .	144
<i>Joseph Boudou and Emiliano Lorini</i>	
On the Expressiveness of Temporal Equilibrium Logic . . . . .	159
<i>Laura Bozzelli and David Pearce</i>	
Introducing Role Defeasibility in Description Logics . . . . .	174
<i>Katarina Britz and Ivan Varzinczak</i>	

Opposition Frameworks . . . . .	190
<i>Cosmina Croitoru and Kurt Mehlhorn</i>	
Prompt Interval Temporal Logic . . . . .	207
<i>Dario Della Monica, Angelo Montanari, Aniello Murano, and Pietro Sala</i>	
Exploiting Contextual Knowledge for Hybrid Classification of Visual Objects . . . . .	223
<i>Thomas Eiter and Tobias Kaminski</i>	
Reasoning About Justified Belief Based on the Fusion of Evidence. . . . .	240
<i>Tuan-Fang Fan and Churn-Jung Liao</i>	
Writing Declarative Specifications for Clauses . . . . .	256
<i>Martin Gebser, Tomi Janhunen, Roland Kaminski, Torsten Schaub, and Shahab Tasharrofi</i>	
Standard Sequent Calculi for Lewis' Logics of Counterfactuals. . . . .	272
<i>Marianna Girlando, Björn Lellmann, Nicola Olivetti, and Gian Luca Pozzato</i>	
Incremental Computation of Deterministic Extensions for Dynamic Argumentation Frameworks . . . . .	288
<i>Sergio Greco and Francesco Parisi</i>	
Revising Possibilistic Knowledge Bases via Compatibility Degrees . . . . .	305
<i>Yifan Jin, Kewen Wang, Zhe Wang, and Zhiqiang Zhuang</i>	
Proving Craig and Lyndon Interpolation Using Labelled Sequent Calculi . . . .	320
<i>Roman Kuznets</i>	
Efficient Reasoning for Inconsistent Horn Formulae . . . . .	336
<i>Joao Marques-Silva, Alexey Ignatiev, Carlos Mencía, and Rafael Peñaloza</i>	
Information Flow Under Budget Constraints. . . . .	353
<i>Pavel Naumov and Jia Tao</i>	
A Tool for Probabilistic Reasoning Based on Logic Programming and First-Order Theories Under Stable Model Semantics . . . . .	369
<i>Matthias Nickles</i>	
Pakota: A System for Enforcement in Abstract Argumentation . . . . .	385
<i>Andreas Niskanen, Johannes P. Wallner, and Matti Järvisalo</i>	
Kinetic Consistency and Relevance in Belief Revision. . . . .	401
<i>Pavlos Peppas and Mary-Anne Williams</i>	

DRAT Proofs for XOR Reasoning . . . . .	415
<i>Tobias Philipp and Adrián Rebola-Pardo</i>	
Understanding the Abstract Dialectical Framework . . . . .	430
<i>Sylvia Polberg</i>	
Extensional Semantics for Higher-Order Logic Programs with Negation. . . . .	447
<i>Panos Rondogiannis and Ioanna Symeonidou</i>	
Reactive Policies with Planning for Action Languages. . . . .	463
<i>Zeynep G. Saribatur and Thomas Eiter</i>	
Correct Grounded Reasoning with Presumptive Arguments . . . . .	481
<i>Bart Verheij</i>	
Characterizability in Horn Belief Revision . . . . .	497
<i>Jon Yaggie and György Turán</i>	
<b>Short Papers</b>	
Formalizing Goal Serializability for Evaluation of Planning Features . . . . .	515
<i>Reza Basseada and Michael Kifer</i>	
Rule-based Stream Reasoning for Intelligent Administration of Content-Centric Networks . . . . .	522
<i>Harald Beck, Bruno Bierbaumer, Minh Dao-Tran, Thomas Eiter, Hermann Hellwagner, and Konstantin Schekotihin</i>	
Inconsistency Management in Reactive Multi-context Systems . . . . .	529
<i>Gerhard Brewka, Stefan Ellmauthaler, Ricardo Gonçalves, Matthias Knorr, João Leite, and Jörg Pührer</i>	
Iteratively-Supported Formulas and Strongly Supported Models for Kleene Answer Set Programs (Extended Abstract) . . . . .	536
<i>Patrick Doherty, Jonas Kvarnström, and Andrzej Szalas</i>	
Forgetting in ASP: The Forgotten Properties. . . . .	543
<i>Ricardo Gonçalves, Matthias Knorr, and João Leite</i>	
On Hierarchical Task Networks . . . . .	551
<i>Andreas Herzig, Laurent Perrussel, and Zhanhao Xiao</i>	
Refinement of Intentions . . . . .	558
<i>Andreas Herzig, Laurent Perrussel, Zhanhao Xiao, and Dongmo Zhang</i>	
GenB: A General Solver for AGM Revision. . . . .	564
<i>Aaron Hunter and Eric Tsang</i>	

A Two-Phase Dialogue Game for Skeptical Preferred Semantics . . . . . 570  
*Zohreh Shams and Nir Oren*

Measuring Inconsistency in Answer Set Programs . . . . . 577  
*Markus Ulbricht, Matthias Thimm, and Gerhard Brewka*

**Author Index** . . . . . 585

Logics in Artificial Intelligence

15th European Conference, JELIA 2016, Larnaca,

Cyprus, November 9-11, 2016, Proceedings

Michael, L.; Kakas, A. (Eds.)

2016, XXII, 586 p. 70 illus., Softcover

ISBN: 978-3-319-48757-1
