

Contents

1	Introduction	1
2	Slice Regular Functions: Algebra	7
2.1	Definition and Main Results	7
2.2	The Representation Formula	11
2.3	Multiplication of Slice Regular Functions	17
2.4	Quaternionic Intrinsic Functions	22
2.5	Composition of Power Series	24
3	Slice Regular Functions: Analysis	31
3.1	Some Integral Formulas	31
3.2	Riemann Mapping Theorem	38
3.3	Zeros of Slice Regular Functions	40
3.4	Modulus of a Slice Regular Function and Ehrenpreis–Malgrange Lemma	45
3.5	Cartan Theorem	52
4	Slice Regular Infinite Products	55
4.1	Infinite Products of Quaternions	55
4.2	Infinite Products of Functions	59
4.3	Weierstrass Factorization Theorem	64
4.4	Blaschke Products	73
5	Growth of Entire Slice Regular Functions	77
5.1	Growth Scale	77
5.2	Jensen Theorem	84
5.3	Carathéodory Theorem	89
5.4	Growth of the \star -Product of Entire Slice Regular Functions	98
5.5	Almost Universal Entire Functions	101
5.6	Entire Slice Regular Functions of Exponential Type	106
	References	109
	Index	117
