## Lexicon and morphology

Emotion Lexicon and Its Application: A Study Based on Written Texts. . . . .	3
<i>Jia-Fei Hong</i>	
A Study on Semantic Word-Formation Rules of Chinese Nouns from the Perspective of Generative Lexicon Theory: ——A Case Study of Undirected Disyllable Compounds. . . . .	18
<i>Xiao Wang, Shiyong Kang, Baorong He, and Dian Zhang</i>	
Polysemous Words Definition in the Dictionary and Word Sense Annotation . . . . .	31
<i>Jing Wang, Zhiying Liu, and Honfei Jiang</i>	
The Motivated Topicalization and Referentiality of the Compound Noun in Chinese . . . . .	40
<i>Jinghan Zeng and Yulin Yuan</i>	
An Analysis of Definitions of Poly-meaning Sports' Entries Based on Generative Lexicon Theory . . . . .	51
<i>Haixia Feng and Wanjing Meng</i>	
A Finer-Grained Classification of the Morpheme <i>Ke</i> in the “ <i>Ke</i> + <i>X</i> ” Adjectives. . . . .	58
<i>Fei Qi</i>	
Classifiers in Singapore Mandarin Chinese: A Corpus-Based Study. . . . .	65
<i>Xuelian Yuan and Jingxia Lin</i>	
The “ <i>v</i> + <i>n</i> ” Compound Nouns in Chinese: from the Perspective of Generative Lexicon Theory . . . . .	76
<i>Yaxi Jin</i>	
A Study on the Referents of Chinese Imposters . . . . .	91
<i>Fengcun An, Lei Zhao, and Gong Cheng</i>	
Quantitative Relation of the Length and the Count of Senses for Chinese Polysyllabic Words . . . . .	101
<i>Wei Huangfu and Bing Qiu</i>	
Polarity of Chinese Emotion Words: The Construction of a Polarity Database Based on Singapore Chinese Speakers . . . . .	110
<i>Chin Loong Ng, Jingxia Lin, and Yao Yao</i>	

A Structural and Prosodic Analysis of Trisyllabic New Words . . . . .	120
<i>Jianfei Luo</i>	
On the Notion of “Syntactic Word”: Its Origin and Evolution. . . . .	128
<i>Huibin Zhuang, Baopeng Ma, Shaoshuai Shen, and Peicui Zhang</i>	
<b>The syntax-semantics interface</b>	
The Formation of the “NP1 <sub>exp</sub> +V+NP2” Construction in Chinese . . . . .	139
<i>Mengbin Liu</i>	
Chinese Word Order Analysis Based on Binary Dependency Relationships . . .	149
<i>Yan He and Yang Liu</i>	
From Form to Meaning and to Concept . . . . .	159
<i>Hsin-I Hsieh</i>	
A Corpus-Based Analysis of Syntactic-Semantic Relations Between Adjectival Objects and Nouns in Mandarin Chinese . . . . .	173
<i>Lin Li and Pengyuan Liu</i>	
A Corpus-Based Study on the Structure of V in “进行[Jin4xing2]+V” in Modern Chinese . . . . .	187
<i>Yujie Liu and Pengyuan Liu</i>	
A Study on Causative Meaning of Verb-Resultative Construction in Mandarin Chinese Based on the Generative Lexicon Theory. . . . .	199
<i>Yiqiao Xia and Daqin Li</i>	
Lexical Semantic Constraints on the Syntactic Realization of Semantic Role Possessor . . . . .	214
<i>Shiyong Kang, Minghai Zhou, and Qianqian Zhang</i>	
Research on Collocation Extraction Based on Syntactic and Semantic Dependency Analysis . . . . .	223
<i>Shijun Liu, Yanqiu Shao, Lijuan Zheng, and Yu Ding</i>	
Comitative Relational Nouns and Relativization of Comitative Case in Mandarin . . . . .	233
<i>Xin Kou</i>	
A Corpus-Based Study on Pseudo-Ditransitive Verbs in Mandarin Chinese. . .	241
<i>Pei-Jung Kuo</i>	

**Corpus and resource**

Construction of the Dynamic Word Structural Mode Knowledge Base for the International Chinese Teaching. . . . .	251
<i>Dongdong Guo, Shuqin Zhu, Weiming Peng, Jihua Song, and Yinbing Zhang</i>	
EVALution-MAN2.0: Expand the Evaluation Dataset for Vector Space Models. . . . .	261
<i>Hongchao Liu and Chu-Ren Huang</i>	
Constructing the Verb Sub-library in the Electronic Dictionary of <i>NIGEN DABHVR ASAR</i> . . . . .	269
<i>Dabhurbayar and Xiaojuan</i>	
The Construction Scheme of a Graded Spoken Interaction Corpus for Mandarin Chinese . . . . .	280
<i>Yuelong Wang</i>	
Study on Modality Annotation Framework of Modern Chinese. . . . .	291
<i>Kunli Zhang, Lingling Mu, Hongying Zan, Yingjie Han, and Zhifang Sui</i>	
The Construction of Sentence-Based Diagrammatic Treebank. . . . .	306
<i>Tianbao Song, Weiming Peng, Jihua Song, Dongdong Guo, and Jing He</i>	
Dictionary as Corpus: A Study Case to Reveal the Statistical Trend of Polysyllablization of Chinese Vocabulary. . . . .	315
<i>Bing Qiu</i>	
Yet Another Resource to Sketch Word Behavior in Chinese Variation. . . . .	325
<i>Meng-Hsien Shih and Shu-Kai Hsieh</i>	

**Natural language processing**

Integrating Character Representations into Chinese Word Embedding . . . . .	335
<i>Xingyuan Chen, Peng Jin, Diana McCarthy, and John Carroll</i>	
Parallel Corpus-Based Bilingual Co-Training for Relation Classification. . . . .	350
<i>Haotian Hui, Yanqun Li, Longhua Qian, and Guodong Zhou</i>	
Named Entity Recognition for Chinese Novels in the Ming-Qing Dynasties . . .	362
<i>Yunfei Long, Dan Xiong, Qin Lu, Minglei Li, and Chu-Ren Huang</i>	
Chinese Text Proofreading Model of Integration of Error Detection and Error Correction . . . . .	376
<i>Yizhuo Sun, Yangsen Zhang, and Yanhua Zhang</i>	

A Sentence Segmentation Method for Ancient Chinese Texts Based on NNLM . . . . .	387
<i>Boli Wang, Xiaodong Shi, Zhixing Tan, Yidong Chen, and Weili Wang</i>	
A Stack LSTM Transition-Based Dependency Parser with Context Enhancement and K-best Decoding . . . . .	397
<i>Fuxiang Wu, Minghui Dong, Zhengchen Zhang, and Fugen Zhou</i>	
An Analysis of the Relation Between Similarity Positions and Attributes of Concepts by Distance Geometry . . . . .	405
<i>Hui Liu and Jianyong Duan</i>	
Computation of Word Similarity Based on the Information Content of Sememes and PageRank Algorithm . . . . .	416
<i>Hao Li, Lingling Mu, and Hongying Zan</i>	
Joint Event Co-Reference Resolution and Temporal Relation Identification . . . . .	426
<i>Jiayue Teng, Peifeng Li, Qiaoming Zhu, and Weiyi Ge</i>	
Automatic Classification of Classical Chinese Lyrics and Songs . . . . .	434
<i>Yuchen Zhu, Tianqi Qi, and Xinning Dong</i>	
Clustering of News Topics Integrating the Relationship Among News Elements . . . . .	441
<i>Jiaying Hou, Zhengtao Yu, Xudong Hong, and Feng Li</i>	
<b>Case study of lexical semantics</b>	
Manifestation of Certainty in Semantics: The Case of <i>Yídìng</i> , <i>Kěndìng</i> and <i>Dǔdìng</i> in Mandarin Chinese . . . . .	451
<i>Jiun-Shiung Wu</i>	
On the Intersubjectivity of Sentence Final Particle- <i>Ne</i> : –A Case Study Between Degree Modifiers and SFP- <i>Ne</i> . . . . .	464
<i>Yifan He</i>	
When Degree Meets Evaluativity: a Multidimensional Semantics for the Ad-Adjectival Modifier <i>Hǎo</i> ‘Well’ in Mandarin Chinese . . . . .	472
<i>Qiongpeng Luo and Yuan Wang</i>	
Verbal Plurality of Frequency Adverbs in Mandarin Chinese: The Case of <i>Cháng</i> and <i>Chángcháng</i> . . . . .	483
<i>Hua-Hung Yuan and Daniel Kwang Guan Chan</i>	
On the Distributive Nature of Adverbial <i>quan</i> in Mandarin Chinese . . . . .	497
<i>Lucia M. Toveni and Yan Li</i>	

The Use of “Ná” and “Hold” Verbs by Bilingual PreSchool Children in Singapore. . . . .	512
<i>Ying Tong Yap and Helena Hong Gao</i>	
The Polysemy of the Chinese Action Verb “Dǎ” and Its Implications in Child Language Acquisition . . . . .	524
<i>Hui Er Sak and Helena Hong Gao</i>	
A Metaphorical and Cognitive Study on Idioms with “Ru”. . . . .	534
<i>Zhimin Wang, Lei Wang, and Shiwen Yu</i>	
Semantic Development: From Hand Act to Speech Act — Metaphors and Different Image Schemas . . . . .	546
<i>Minli Zhou</i>	
Computer Semantic Identification of the Adverb “Dou”. . . . .	557
<i>Yong Lu and Pengyuan Liu</i>	
“净” (Jing) and “都” (Dōu), Which One Has Exclusiveness? . . . . .	577
<i>Qiang Li</i>	
Constructional Coercion in the Evolution of Contemporary Chinese Morphemes—Taking “Fen”(分) as an Example. . . . .	588
<i>Xiaoping Zhang</i>	
Applying Chinese Word Sketch Engine to Distinguish Commonly Confused Words . . . . .	600
<i>Yang Wu and Shan Wang</i>	
Domain Restrictor <i>Chúfēi</i> and Relevant Constructions . . . . .	620
<i>Lei Zhang</i>	
A Corpus-Based Study on Near-Synonymous Manner Adverbs: “yiran” and “duanran” . . . . .	630
<i>Helena Yan Ping Lau and Sophia Yat Mei Lee</i>	
The Lexicalization of the Word “Jinqing” (尽情) in Chinese . . . . .	643
<i>Xiujuan Chen, Qing Wang, and Gaowu Wang</i>	
On the Case of Zheyangzi in Mandarin Words of Taiwan and Mainland China . . . . .	650
<i>Xiaolong LU</i>	
<i>Dou</i> in Kaifeng Dialect . . . . .	660
<i>Shaoshuai Shen, Bing Lu, and Huibin Zhuang</i>	
About “好说歹说[haoshuodaishuo]” . . . . .	668
<i>Bin Liu</i>	

On the Semantic Patterns and Features of “Shao” Serving as Adverbial in Imperative Sentences . . . . .	676
<i>Pu Li</i>	

### **Extended study and application**

The MFCC Vowel Space of [ɿ] in Grammatical and Lexical Word in Standard Chinese. . . . .	687
<i>Yu Chen, Ju Zhang, Huixia Wang, Jin Zhang, Yanting Chen, Hua Lin, and Jianwu Dang</i>	

On the Lexical Characteristics of Deception . . . . .	700
<i>Qi Su</i>	

An Empirical Study of Gender-Related Differences in Topics Selection Based on We-Media Corpus . . . . .	708
<i>Yubo Wang</i>	

The Interaction of Semantic and Orthographic Processing During Chinese Sinograms Recognition: An ERP Study . . . . .	717
<i>Hao Zhang, Fei Chen, Nan Yan, Lan Wang, I-Fan Su, and Manwa L. Ng</i>	

Study on the Effectiveness of the Regulations for Chinese Words with Variant Forms Based on a Long-Span Diachronic Corpus . . . . .	728
<i>Gaoqi Rao, Meng Dai, and Endong Xun</i>	

Motion Constructions in Singapore Mandarin Chinese: A Typological Perspective . . . . .	743
<i>Yong Kang Khoo and Jingxia Lin</i>	

The Source of Implicit Negation in Mandarin Chinese Yes-no Questions . . . .	751
<i>Daniel Kwang Guan Chan</i>	

Study in Words and Characters Use and Contents of the Opening Addresses by Chinese University Presidents . . . . .	763
<i>Xinyuan Zhang and Pengyuan Liu</i>
