

# Preface

It is our great pleasure to present the proceedings of the 9th International Workshop on Multiple Access Communications (MACOM) that was held in Aalborg during November 21–22, 2016. Previous editions were organized in Helsinki (2015), Halmstad (2014), Vilnius (2013), Maynooth (2012), Trento (2011), Barcelona (2010), Dresden (2009), and Saint-Petersburg (2008).

Our gratitude goes to the Technical Program Committee and external reviewers for their efforts in selecting ten high-quality contributions (out of 12 submitted) to be presented and discussed in the workshop.

The contributions gathered in this proceedings volume describe the latest advancements in the field of multiple access communications.

Finally, we would like to take this opportunity to express our gratitude to all the participants, together with the local organizers, who helped to make MACOM 2016 a very successful event.
