

Table of Contents

Introduction - The World, Man’s Greatest Illusion 9

Part I Epistemologically Different Worlds 23

1 Principles Concerning the Existence and the Interactions of Objects 25

2 Principles Concerning the Brain/Body and the Corresponding I
(the Self/Mind) 37

3 Epistemologically Different Worlds (EDWs) 56

**Part II Applications: Philosophy, Cognitive (Neuro)science,
Biology, and Physics** 69

4 EDWs and the Philosophy of Mind 71

4.1. Descartes’ dualism 71

4.2. Levels and reduction vs. emergence 75

4.3. Qualia, Kant and the I 85

5 EDWs and Cognitive Science 90

5.1. Computationalism 90

5.2. The dynamical system approach 95

5.3. Dichotomies concerning the notion of mental representation and
Processing 98

5.4. The EDWs perspective and some key elements in cognitive
science 100

6 EDWs and Cognitive Neuroscience 107

6.1. A general view of cognitive neuroscience 108

6.2. Optimism in cognitive neuroscience 122

6.3. Skepticism in cognitive neuroscience 125

6.4. Localization and the binding problem 127

6.5. Cognitive neuroscience: science, or ‘new engineering’? 133

7 EDWs and Biology 138

8	EDWs and Physics	146
	8.1. Introduction.....	146
	8.2. EDWs and the special theory of relativity	149
	8.3. EDWs and the general theory of relativity	158
	8.4. EDWs and quantum mechanics.....	161
	8.5. The relationship between Einstein's theory of relativity and quantum mechanics.....	180
	Conclusion.....	185
	Glossary.....	187
	Bibliography	189

Illusions of Human Thinking
On Concepts of Mind, Reality, and Universe in
Psychology, Neuroscience, and Physics

Vacariu, G.

2016, VIII, 188 p. 10 illus., Softcover

ISBN: 978-3-658-10443-6
