

Contents

1	Introduction	1
2	L_∞-algebras	3
2.1	Generalizing differential graded Lie algebras	3
2.2	L_∞ -algebras as coalgebras with differentials	6
2.3	Morphisms of L_∞ -algebras	17
2.4	Representations of L_∞ -algebras	23
2.5	Lie m-algebras	25
3	Observables of pre-n-plectic manifolds	29
3.1	Generalizing symplectic manifolds	29
4	Symmetries of pre-n-plectic manifolds	34
4.1	Weakly Hamiltonian group actions	34
4.2	Strongly Hamiltonian group actions	36
A	Universal coalgebra properties	47
