

# Preface

I would like to thank my mother Gisela, my brothers Christian and Markus, and my sister Stephanie, for their support and encouragement over the years.

Furthermore, I would like to thank:

- my advisor Prof. Dr. Harald von Korflesch, for giving me the freedom to be creative within my thesis and supporting me with fruitful feedback where necessary,
- my co-advisor Prof. Dr. Susan Williams, for her support and helping me to become a better qualitative researcher,
- my good friend Prof. Dr. Mario Schaarschmidt, for his critical, but always constructive feedback on my work. But mostly for his friendship over the last 15 years,
- my fellow PhD students and colleagues, for our talks and discussions.
