1	Introduction to Neural Networks	1
1.1	Natural and Artificial Neural Networks	2
1.2	Models of Computation	3
1.3	Networks of Neurons	7
1.4	Associative Memory Networks	12
1.5	Hopfield Neural Networks	14
1.6	Cohen–Grossberg Neural Networks	22
1.7	Property of Neural Network	26
1.8	Information Processing Capacity of Dynamical Systems	27
1.9	Stability of Dynamical Neural Networks	28
1.10	Delay Effects on Dynamical Neural Networks	30
1.11	Features of LMI-Based Stability Results	31
1.12	Summary	33
	References	33
2	Preliminaries on Dynamical Systems and Stability Theory	37
2.1	Overview of Dynamical Systems	37
2.2	Definition of Dynamical System and Its Qualitative Analysis	41
2.3	Lyapunov Stability of Dynamical Systems	44
2.4	Stability Theory	47
2.5	Applications of Dynamical Systems Theory	61
2.6	Notations and Discussions on Some Stability Problems	63
	2.6.1 Notations and Preliminaries	64
	2.6.2 Discussions on Some Stability Definitions	72
2.7	Summary	85
	References	86

3	Survey of Dynamics of Cohen–Grossberg-Type RNNs	91
3.1	Introduction	91
3.2	Main Research Directions of Stability of RNNs	95
3.2.1	Development of Neuronal Activation Functions	95
3.2.2	Evolution of Uncertainties in Interconnection Matrix	98
3.2.3	Evolution of Time Delays	100
3.2.4	Relations Between Equilibrium and Activation Functions	101
3.2.5	Different Construction Methods of Lyapunov Functions	102
3.2.6	Expression Forms of Stability Criteria	108
3.2.7	Domain of Attraction	109
3.2.8	Different Kinds of Neural Network Models	110
3.3	Stability Analysis for Cohen–Grossberg-Type RNNs	112
3.3.1	Stability on Hopfield-Type RNNs	112
3.3.2	Stability on Cohen–Grossberg-Type RNNs	113
3.3.3	The Case with Nonnegative Equilibria	121
3.3.4	Stability via M-Matrix or Algebraic Inequality Methods	131
3.3.5	Stability via Matrix Inequalities or Mixed Methods	143
3.3.6	Topics on Robust Stability of RNNs	148
3.3.7	Other Topics on Stability Results of RNNs	150
3.3.8	Qualitative Evaluation on the Stability Results of RNNs	151
3.4	Necessary and Sufficient Conditions for RNNs	153
3.5	Summary	159
	References	159
4	Delay-Partitioning-Method Based Stability Results for RNNs	173
4.1	Introduction	173
4.2	Problem Formulation	175
4.3	GAS Criteria with Single Weighting-Delay	178
4.3.1	Weighting-Delay-Independent Stability Criterion	178
4.3.2	Weighting-Delay-Dependent Stability Criterion	184
4.4	GAS Criteria with Multiple Weighting-Delays	189
4.5	Implementation of Optimal Weighting-Delay Parameters	195
4.5.1	The Single Weighting-Delay Case	195
4.5.2	The Multiple Weighting-Delays Case	196
4.6	Illustrative Examples	196
4.7	Summary	202
	References	202

5	Stability Criteria for RNNs Based on Secondary Delay Partitioning	205
5.1	Introduction	205
5.2	Problem Formulation and Preliminaries	207
5.3	Global Asymptotical Stability Result	210
5.4	Illustrative Example	220
5.5	Summary	222
	References	222
6	LMI-Based Stability Criteria for Static Neural Networks	225
6.1	Introduction	225
6.2	Problem Formulation	226
6.3	Main Results	227
6.4	Illustrative Example	235
6.5	Summary	236
	References	236
7	Multiple Stability for Discontinuous RNNs	239
7.1	Introduction	239
7.2	Problem Formulations and Preliminaries	241
7.3	Main Results	243
7.4	Illustrative Examples	252
7.5	Summary	255
	References	256
8	LMI-based Passivity Criteria for RNNs with Delays	259
8.1	Introduction	259
8.2	Problem Formulation	261
8.3	Passivity for RNNs Without Uncertainty	262
8.4	Passivity for RNNs with Uncertainty	269
8.5	Illustrative Examples	272
8.6	Summary	274
	References	275
9	Dissipativity and Invariant Sets for Neural Networks with Delay	277
9.1	Delay-Dependent Dissipativity Conditions for Delayed RNNs	277
9.1.1	Introduction	277
9.1.2	Problem Formulation	279
9.1.3	θ -dissipativity Result	281

9.2	Positive Invariant Sets and Attractive Sets of DNN	288
9.2.1	Introduction	288
9.2.2	Problem Formulation and Preliminaries	289
9.2.3	Invariant Set Results	291
9.3	Attracting and Invariant Sets of CGNN with Delays	300
9.3.1	Introduction	300
9.3.2	Problem Formulation and Preliminaries	301
9.3.3	Invariant Set Result.	304
9.4	Summary	307
	References.	307
10	Synchronization Stability in Complex Neural Networks	311
10.1	Introduction	311
10.2	Problem Formulation and Preliminaries	313
10.3	Synchronization Results.	317
10.4	Illustrative Example	324
10.5	Summary	329
	References.	329
11	Stabilization of Stochastic RNNs with Stochastic Delays	333
11.1	Introduction	333
11.2	Problem Formulation and Preliminaries	335
11.3	Stabilization Result	339
11.4	Illustrative Examples	354
11.5	Summary	358
	References.	358
12	Adaptive Synchronization of Complex Neural Networks	361
12.1	Introduction	361
12.2	Problem Formulation and Preliminaries	363
12.3	Adaptive Synchronization Scheme	367
12.4	Illustrative Example	373
12.5	Summary	379
	References.	380
Index	385

Qualitative Analysis and Control of Complex Neural
Networks with Delays

Wang, Z.; Liu, Z.; Zheng, C.

2016, XIV, 388 p. 32 illus., 7 illus. in color., Hardcover

ISBN: 978-3-662-47483-9
