# Contents

**1 Finance System and Policy Review of Chinese Rural Compulsory Education** . . . . . 1
1.1 Development of Compulsory Education in China . . . . . 2
1.1.1 Development of Compulsory Education . . . . . 2
1.1.2 Increase in Expenditure for Compulsory Education . . . . . 3
1.2 Transformation in Compulsory Education Financing System in China . . . . . 6
1.2.1 Decentralized Financing and Decentralized Management . . . . . 7
1.2.2 The New Problem of the System of Decentralized Financing and Decentralized Management Due to Tax Sharing Reform . . . . . 8
1.2.3 Rural Tax-Fee Reform and the County-Centered System . . . . . 9
1.2.4 Fund Guarantee Mechanism for Rural Compulsory Education . . . . . 10
1.3 Key Compulsory Education Projects in China . . . . . 12
1.3.1 National Compulsory Education Project in Poverty-Stricken Regions . . . . . 12
1.3.2 Project of Dilapidated School Building Renovation for Primary and Junior Secondary Schools . . . . . 14
1.3.3 Rural Boarding Schools Project . . . . . 14
1.3.4 Two Exemption and One Subsidy Policy . . . . . 14
1.3.5 Project of Distance Education in Rural Primary and Junior Secondary Schools . . . . . 15
1.4 Main Challenges in Compulsory Education Finance in China . . . 16
1.4.1 The Inadequacy of Total Expenditures for Rural Compulsory Education Has not Been Resolved . . . . . 16
1.4.2 Teacher Quality and Teacher Training Are Crucial for Further Development of Rural Compulsory Education . . . . . 17

1.4.3 Adequacy of Non-personnel Expenditures Needs Improvement and Growth Mechanisms Needs Perfecting . . . . . 17
1.4.4 The Standard of Living Subsidy for Poor Boarding Students Is Relatively Low and Expenditure Guarantee Needs to Be Further Strengthened . . . . . 17
1.4.5 The Resources Allocation Between Urban and Rural Areas Is not Balanced and Per-Student Expenditures for Rural Schools Are Much Lower . . . . . 18
1.4.6 Differences of Expenditures Per Student in Rural Primary and Junior Secondary Schools Are Comparatively Big Between Regions . . . . . 18
1.4.7 The Long-Term Physical Facilities Guarantee Mechanism for Rural Primary and Junior Secondary Schools Needs Further Improvement . . . . . 19
1.4.8 Crowding-Out Effect of Multi-level Governments . . . . . 19

**2 Study on Non-personnel Expenditure Standards for Rural Compulsory Education** . . . . . 21
2.1 Non-personnel Expenditure Standards for Rural Compulsory Education: Concept, Status Quo, and the Approaches . . . . . 22
2.1.1 The Definition of Non-personnel Expenditures for Primary and Junior Secondary School . . . . . 22
2.1.2 Status Quo of Non-personnel Expenditures for Primary and Junior Secondary Schools in China . . . . . 24
2.1.3 Principles to Determine Non-personnel Expenditure Standards for Primary and Junior Secondary Schools . . . . 31
2.1.4 The Approaches to Non-personnel Expenditure Standards for Primary and Junior Secondary Schools . . . . 32
2.2 The Item-Specific Integration Approach to Non-personnel Expenditure Standards for Rural Compulsory Education . . . . . 35
2.2.1 Introduction to the Approach . . . . . 35
2.2.2 Calculation Process and Conclusions . . . . . 38
2.2.3 Conclusion . . . . . 45
2.3 Cost Function Approach to Non-personnel Expenditure for Primary and Junior Secondary Schools . . . . . 45
2.3.1 Research Methods and Data . . . . . 45
2.3.2 Estimated Results . . . . . 50
2.3.3 Use Cost Function to Calculate Non-personnel Expenditures . . . . . 53
2.3.4 Conclusion . . . . . 55
Appendix 1: Calculation of Non-personnel Expenditure Standards for Rural Compulsory Education . . . . . 55

Appendix 2: Material Consumption Ration Per Student Issued by National Education Commission in 1993 . . . . . 65
References . . . . . 66

**3 Progress and Countermeasures of Student Assistance Policy in Compulsory Education** . . . . . 67
3.1 Formation and Development of Student Assistance Policy in Compulsory Education . . . . . 67
3.1.1 Initial Stage: 1986–1996 . . . . . 68
3.1.2 Slowly Developing Stage: 1997–2002 . . . . . 69
3.1.3 Rapidly Developing Stage: 2003–2008 . . . . . 70
3.2 Analysis of the TEOS Policy for the Current Situation . . . . . 73
3.2.1 Policy Analysis of Exemptions from Tuition and Miscellaneous Fees and Free Textbooks in the Current Situation . . . . . 73
3.2.2 Current Situation of the Living Subsidy Policy for Indigent Boarding Students . . . . . 87
3.3 Problems and Countermeasures of the TEOS Policy . . . . . 95
3.3.1 Problems and Countermeasures of the Miscellaneous Fee Exemption Policy . . . . . 95
3.3.2 Problems and Countermeasures of the Free Textbook Policy . . . . . 96
3.3.3 Problems and Countermeasures of the Living Subsidy Policy for Indigent Boarding Students . . . . . 97
3.4 Study on the Boarding Student Living Costs . . . . . 98
3.4.1 Study Based on Sample School Student Data . . . . . 99
3.4.2 Study Based on Household Survey Data in Rong'an, Guangxi . . . . . 100
3.5 Conclusions . . . . . 102
Appendix 1: Percentage of Students Receiving Miscellaneous Fee Exemptions to Total Students (Based on Data from School Questionnaires, %) . . . . . 103
Appendix 2: Percentage of Students Receiving Free Textbooks to Total Students (Based on Data of School Questionnaires, %) . . . . . 104
Appendix 3: Percentage of Students Receiving Free Textbooks to Total Students in Spring 2007 (Based on Data of Student Questionnaires, %) . . . . . 105
Appendix 4: Percentage of Boarding Students Receiving Living Subsidies to Total Students (Based on Data of School Questionnaires, %) . . . . . 106
Appendix 5: Percentage of Boarding Students Receiving Living Subsides to Total Boarding Students (Based on School Questionnaire, %) . . . . . 107

**4 Study of Equity in Compulsory Education Finance** . . . . . 109
4.1 The Method to Measure the Education or Educational Resources Received by Students . . . . . 110
4.2 The Data Source . . . . . 111
4.3 The Method to Measure the Equity . . . . . 111
4.3.1 Horizontal Equity. . . . . 112
4.3.2 Financial Neutrality . . . . . 113
4.3.3 Vertical Equity . . . . . 113
4.4 The Analysis of Horizontal Equity: Gini Coefficient. . . . . 114
4.4.1 The Gini Coefficient for Education Revenue and Its Decomposition . . . . . 115
4.4.2 The Gini Coefficient for Regular Expenditures . . . . . 118
4.4.3 The Gini Coefficient for Physical Facilities . . . . . 124
4.5 The Analysis of Horizontal Equity: Theil Coefficient . . . . . 126
4.5.1 Theil Coefficients for Regular Expenditures and Physical Facilities . . . . . 126
4.5.2 The Decomposition of the Theil Coefficient: Intra-county and Inter-county. . . . . 127
4.6 Financial Neutrality: The Relationship of Inter-county and Intra-county Inequity with GDP and Recurrent Fiscal Revenue . . . . . 131
4.6.1 The Relationship of Inter-county Inequity with Per Capita GDP and Per Capita General Fiscal Revenue . . . . . 136
4.6.2 The Relationship of the Intra-county Inequity of Regular Expenditure to Per Capita GDP and Fiscal General Revenue . . . . . 139
4.7 Vertical Equity: Is the Difference Between Rural and Urban Areas Really Small? . . . . . 141
4.7.1 Education Revenue and Fiscal Appropriation. . . . . 142
4.7.2 Regular Expenditure. . . . . 143
4.7.3 Physical Facilities . . . . . 145
4.8 Conclusions and Policy Suggestions . . . . . 147
4.8.1 Conclusions . . . . . 147
4.8.2 Policy Suggestions . . . . . 148
Appendix: Methodology for Measuring the Degree of Equity . . . . . 150
References . . . . . 154

**5 Rural Compulsory Education Finance Monitoring and Evaluation System** . . . . . 157
5.1 The Framework of a Monitoring and Evaluation System for Compulsory Education Finance. . . . . 158
5.2 Rural Compulsory Education Finance Monitoring System . . . . . 159
5.2.1 Principles . . . . . 160

5.2.2 Executive Bodies . . . 161
5.2.3 Monitoring Contents and Indicator System . . . 161
5.2.4 Accountability and Intervening of Monitoring Results . . . 169
5.3 Rural Compulsory Education Finance Evaluation System . . . 170
5.3.1 Executive Body . . . 171
5.3.2 Evaluation Contents and Indicators . . . 172
5.4 Micro-Foundation of Monitoring and Evaluation System: School Budget . . . 179
5.4.1 Research Design . . . 180
5.4.2 Findings . . . 181
5.4.3 Conclusions and Policy Suggestions . . . 183
Reference . . . 184

**6 International Experience** . . . 185
6.1 Non-personnel Expenditures in Compulsory Education and Benchmark Standards: International Experience . . . 185
6.1.1 Defining Non-personnel Expenditure in Education . . . 185
6.1.2 How Much Is Spent on NPE? . . . 187
6.1.3 Measuring Schools' Physical Resources and the Equity of Their Distribution . . . 189
6.1.4 The Importance of Non-personnel Expenditure and Learning Resources for Student Attainment in Developing Countries . . . 192
6.1.5 Benchmark Standards for Non-personnel Expenditure and Schools' Physical Resources . . . 195
6.1.6 Using Research Evidence to Establish a Financial Standard for Basic Education: Indonesia . . . 202
6.1.7 Desirable Characteristics of a School Funding Formula . . . 205
6.1.8 Conclusion: Suggestions, Drawing on International Experience, for the Development of a Benchmark Standard for NPE in China . . . 206
6.2 Financial Disparities and Intergovernmental Grants in Primary and Secondary Education: An International Review . . . 209
6.2.1 Reducing Financial Disparities in Primary and Secondary Education . . . 209
6.2.2 Changes in the Financing of Primary and Secondary Education by Government Level . . . 223
References . . . 230

**Appendix: Sampling and Samples Distribution** . . . 233
