

Contents

1	Introduction	1
	References	6
2	Basic Theory of FEL	9
2.1	Energy Exchange Equation	9
2.2	Phase Evolution Equation	11
2.3	Resonance Condition and Pendulum Equation	12
2.4	Equations for Harmonic Generation Seeded FEL Schemes	13
2.4.1	HGHG-FEL	14
2.4.2	EEHG-FEL	16
	References	17
3	Theoretical Studies on Novel High-Gain Seeded FEL Schemes	19
3.1	The Electron Beam Phase Space Manipulation Technique	19
3.2	Pre-density Modulation of the Electron Beam for Enhancing Seeded FELs	27
3.3	The Echo-Enabled Staged Harmonic Generation	31
3.3.1	Analytical Calculations	32
3.3.2	Hard X-Ray FEL Based on the EESHG Scheme	34
3.4	Phase-Merging Enhanced Harmonic Generation	35
3.4.1	Principles of PEHG	36
3.4.2	Three-Dimensional Manipulation for Realizing the Phase Merging Effect	42
3.4.3	Generation of Soft X-Ray Radiation Based on a Single Stage PEHG	44
3.5	Generating Stable Attosecond X-Ray Pulse Trains with a Mode-Locked Seeded FEL	46
3.5.1	Mode-Locking of a Seeded FEL	47
3.5.2	Generation of Intense APTs	50
3.6	Chirped Pulse Amplification of a Seeded FEL	54
3.6.1	Chirped Pulse Amplification in a Seeded FEL	55
3.6.2	Start-to-End Simulations Based on the SDUV-FEL	57

3.7	Slippage Effect on Energy Modulation in Seeded FELs	61
3.7.1	Energy Modulation with Slippage Effect.	63
3.7.2	HGHG and EEHG with Short Seed Laser Pulses.	67
3.7.3	3D Simulations for SXFEL.	70
3.7.4	Slippage-Boosted by a Sub-harmonic Modulator	72
	References	74
4	Experimental Studies on Novel High-Gain Seeded FEL Schemes . . .	77
4.1	Introduction of the SDUV-FEL	77
4.2	Measurement of the Slice Energy Spread of Electron Beam via CHG	80
4.2.1	CHG Based Energy Spread Measurement Method	81
4.2.2	Experimental Results at the SDUV-FEL.	84
4.3	Experimental Studies of the EEHG	90
4.3.1	Energy Chirp Effects on HGHG and EEHG	90
4.3.2	Design Studies for the EEHG Experiment at the SDUV-FEL	92
4.3.3	Experimental Results of EEHG Lasing at the SDUV-FEL	93
4.4	Experimental Studies of the Cascaded HGHG	96
4.4.1	Design Studies for the Cascaded HGHG Experiment at the SDUV-FEL	96
4.4.2	Experimental Results of the Cascaded HGHG Experiment at the SDUV-FEL.	103
	References	105
5	Conclusions and Prospects	107

Theoretical and Experimental Studies on Novel
High-Gain Seeded Free-Electron Laser Schemes

Feng, C.

2016, XII, 108 p. 87 illus., Hardcover
