

Contents

1	Introduction	1
1.1	Uncertain Differential Equation	1
1.2	Uncertain Differential Equation with Jumps	2
1.3	Multi-Dimensional Uncertain Differential Equation	3
1.4	High-Order Uncertain Differential Equation	3
2	Uncertain Variable	5
2.1	Uncertain Measure	5
2.2	Uncertain Variable	8
2.3	Uncertainty Distribution	10
2.4	Inverse Uncertainty Distribution	13
2.5	Expected Value	16
2.6	Variance	18
3	Uncertain Process	21
3.1	Uncertain Process	21
3.2	Extreme Value	23
3.3	Time Integral	25
4	Contour Process	29
4.1	Contour Process	29
4.2	Inverse Uncertainty Distribution	31
4.3	Extreme Value	32
4.4	Time Integral	34
4.5	Monotone Function	35
5	Uncertain Calculus	39
5.1	Canonical Liu Process	39
5.2	Liu Integral	41
5.3	Liu Process	44

6	Uncertain Differential Equation	49
6.1	Uncertain Differential Equation	49
6.2	Analytic Methods	52
6.3	Yao–Chen Formula	59
6.4	Numerical Methods	62
6.5	Existence and Uniqueness Theorem	64
6.6	Stability Theorems	67
6.7	Liu’s Stock Model	81
6.8	Yao’s Stock Model	86
7	Uncertain Calculus with Renewal Process	95
7.1	Renewal Process	95
7.2	Yao Integral	97
7.3	Yao Process	100
8	Uncertain Differential Equation with Jumps	105
8.1	Uncertain Differential Equation with Jumps	105
8.2	Existence and Uniqueness Theorem	109
8.3	Stability Theorems	111
8.4	Yu’s Stock Model	118
9	Multi-Dimensional Uncertain Differential Equation	123
9.1	Multi-Dimensional Canonical Liu Process	123
9.2	Multi-Dimensional Liu Integral	125
9.3	Multi-Dimensional Liu Process	129
9.4	Multi-Dimensional Uncertain Differential Equation	133
10	High-Order Uncertain Differential Equation	141
10.1	High-Order Uncertain Differential Equation	141
10.2	Equivalent Transformation	142
10.3	Yao Formula	144
10.4	Numerical Method	147
10.5	Existence and Uniqueness Theorem	150
	References	153
	Index	157
