

# Contents

<b>1</b>	<b>Green Chemistry and Sustainability</b> . . . . .	<b>1</b>
	David J.C. Constable	
<b>2</b>	<b>Sustainable Production of Omega-3 Eicosapentaenoic Acid by Fermentation of Metabolically Engineered <i>Yarrowia lipolytica</i></b> . . . . .	<b>17</b>
	Dongming Xie, Edward Miller, Bjorn Tyreus, Ethel N. Jackson and Quinn Zhu	
<b>3</b>	<b>Toward Fermentative Production of Succinic Acid, Adipic Acid, and Caprolactam: An Industrial Perspective</b> . . . . .	<b>35</b>
	Liang Wu	
<b>4</b>	<b>Specialty Enzymes for Chemical Needs</b> . . . . .	<b>61</b>
	Dunming Zhu and Ling Hua	
<b>5</b>	<b>Characterization and Engineering of Seaweed Degrading Enzymes for Biofuels and Biochemicals Production</b> . . . . .	<b>99</b>
	Eva Garcia-Ruiz, Ahmet Badur, Christopher V. Rao and Huimin Zhao	
<b>6</b>	<b>Ex Vivo Enzymatic Conversion of Non-food Cellulose Biomass to Starch</b> . . . . .	<b>129</b>
	Chun You and Y.H. Percival Zhang	
<b>7</b>	<b>Biorefinery of Lignocellulosics for Biofuels and Biochemicals</b> . . . . .	<b>143</b>
	Mingyu Wang and Jin Hou	
<b>8</b>	<b>Biofuels Production from Renewable Feedstocks</b> . . . . .	<b>193</b>
	Jerald A. Lalman, Wudneh A. Shewa, Joe Gallagher and Sreenivas Ravella	
<b>9</b>	<b>Lignin: A Platform for Renewable Aromatic Polymeric Materials</b> . . . . .	<b>221</b>
	Jairo H. Lora	

<b>10</b>	<b>Green Processes for Lignin Conversion</b> . . . . .	263
	Fanny Monteil-Rivera	
<b>11</b>	<b>Production of Sialic Acid and Its Derivatives by Metabolic Engineering of <i>Escherichia coli</i></b> . . . . .	301
	Baixue Lin and Yong Tao	
<b>12</b>	<b>Phenolics Value Chain and L-Lactic Acid Bioproduction from Agricultural Biomass</b> . . . . .	319
	Krista L. Morley and Peter C.K. Lau	
<b>13</b>	<b>Regional Pillars of Competitiveness in Chemurgy and Green Chemistry</b> . . . . .	349
	Manfred Kircher	

Quality Living Through Chemurgy and Green Chemistry

C.K. Lau, P. (Ed.)

2016, XX, 369 p. 95 illus., 52 illus. in color., Hardcover

ISBN: 978-3-662-53702-2
