

# Contents

- 1 The Air Transport System . . . . . 1**
  - 1.1 Introduction . . . . . 1
  - 1.2 Passenger Expectations . . . . . 3
  - 1.3 Transport and Mobility . . . . . 4
  - 1.4 The Air Transport System Today . . . . . 6
  - 1.5 Current Challenges of the Air Transport System . . . . . 9
  - 1.6 A Systematic Description of Air Transport . . . . . 10
  - 1.7 Air Transport System Performances . . . . . 14
  - References. . . . . 16
  
- 2 Historical Development of Air Transport . . . . . 19**
  - 2.1 The Dream of Flying. . . . . 19
  - 2.2 Physics Based Approach . . . . . 20
  - 2.3 The Technically Based Approach . . . . . 22
  - 2.4 The Beginning of Civil Air Transportation . . . . . 25
  - 2.5 The Jet Age . . . . . 30
  - 2.6 Development of Civil Transport Operation  
(Airlines and Airports). . . . . 34
    - 2.6.1 Airlines . . . . . 34
    - 2.6.2 Development of Airports . . . . . 35
  - References. . . . . 37
  
- 3 Market Aspects . . . . . 39**
  - 3.1 The Strategic Importance of Aerospace . . . . . 39
    - 3.1.1 From a US Monopoly Status to a Duopoly  
Situation . . . . . 41
  - 3.2 Specific Aspects of Aeronautics . . . . . 44
    - 3.2.1 WTO Role and Activities. . . . . 45

3.3	The Instruments for Market Predictions (Market Forecast Methods) . . . . .	47
3.3.1	Top-Down Approach . . . . .	48
3.3.2	Bottom-Up Approach . . . . .	50
3.3.3	Scenario Techniques for Risk Assessment . . . . .	54
3.4	Passenger Aircraft Market . . . . .	57
3.5	Air Cargo Market . . . . .	59
3.5.1	Cargo Operators . . . . .	59
3.5.2	Freight Market Forecast . . . . .	61
3.5.3	Changes in the Aircraft Market . . . . .	63
3.6	Cost and Commonality Aspects . . . . .	64
3.6.1	Life Cycle Cost . . . . .	64
3.6.2	Family Concepts and Commonality Aspects . . . . .	67
3.6.3	Cross Crew Qualification . . . . .	69
	References . . . . .	70
<b>4</b>	<b>The Regulatory Framework of the Air Transportation System . . .</b>	<b>73</b>
4.1	The Freedom of the Air . . . . .	73
4.2	Regulations for Transportation . . . . .	74
4.3	International and National Organizations . . . . .	75
4.3.1	The International Civil Aviation Organization—ICAO . . . . .	76
4.3.2	National and European Regulatory Organizations . . . .	76
4.3.3	Air Navigation Services . . . . .	81
4.3.4	The International Air Transport Association . . . . .	82
4.4	Aviation Safety . . . . .	83
4.4.1	Aviation Safety Philosophy . . . . .	83
4.4.2	Establishing Aircraft Airworthiness . . . . .	88
4.4.3	Standards for Safe Aircraft Operations . . . . .	94
4.4.4	Operational Safety Aspects . . . . .	97
4.5	Security Aspects of Air Transportation . . . . .	104
	References . . . . .	106
<b>5</b>	<b>Aircraft Characteristics . . . . .</b>	<b>107</b>
5.1	Classification of Flight Vehicles . . . . .	107
5.2	Cabin Design, Focus for the Airlines . . . . .	109
5.2.1	Transportation Task Requires Volume and Space . . . .	109
5.2.2	Cabin Design . . . . .	113
5.2.3	Fuselage Cross Section, Floor Area (2-D Aspects) . . .	116
5.2.4	Cabin Layout for Several Comfort Standards (3-D Cabin) . . . . .	120
5.2.5	Aircraft Cabin Systems . . . . .	122

5.3	Basics of Flight Physics. . . . .	125
5.3.1	ICAO Standard Atmosphere. . . . .	126
5.3.2	Aircraft Forces: Lift, Weight, Drag, Thrust. . . . .	128
5.3.3	Lift. . . . .	129
5.3.4	Drag. . . . .	132
5.3.5	Aerodynamic Efficiency. . . . .	133
5.3.6	Aircraft Mass Breakdown. . . . .	134
5.3.7	Thrust Requirements. . . . .	137
5.3.8	Aircraft Stability and Control. . . . .	141
5.4	Structure, Mass and Balance. . . . .	143
5.4.1	Structural Components. . . . .	143
5.4.2	Mass Breakdown. . . . .	145
5.4.3	Payload—Range Diagram. . . . .	145
5.4.4	Weight and Balance. . . . .	147
5.5	Flight Performance and Mission. . . . .	147
5.5.1	Flight Envelope. . . . .	147
5.5.2	Definition of Speed. . . . .	149
5.5.3	Flight Mission. . . . .	150
5.5.4	Take-off and Landing. . . . .	151
5.5.5	Cruise Performance. . . . .	152
	References. . . . .	155
<b>6</b>	<b>Aircraft Manufacturer. . . . .</b>	<b>157</b>
6.1	Role of Aircraft Manufacturer. . . . .	158
6.1.1	Industry Mergers. . . . .	159
6.1.2	Market Duopoly “Airbus Versus Boeing”. . . . .	160
6.2	Industrial Organization. . . . .	163
6.3	Development Process (From Idea to Product). . . . .	165
6.3.1	Product Definition. . . . .	166
6.3.2	Aircraft Program Decision Point “Go Ahead”. . . . .	168
6.3.3	Product Development. . . . .	170
6.3.4	Production Phase. . . . .	173
6.4	Production Process and Work Share. . . . .	173
6.5	Cash Flow and Manufacturing Cost. . . . .	176
6.5.1	Cash Flow Calculation. . . . .	177
6.6	Engine Manufacturer. . . . .	180
6.7	Supply Chain. . . . .	182
6.8	Offset Agreements. . . . .	184
	References. . . . .	185
<b>7</b>	<b>Airlines. . . . .</b>	<b>187</b>
7.1	Overview. . . . .	187
7.2	Airline Types. . . . .	189
7.2.1	National or Flag Carrier. . . . .	191

7.2.2	Charter Carrier . . . . .	193
7.2.3	Low Cost Carrier . . . . .	193
7.2.4	Alliances . . . . .	196
7.2.5	Air Cargo Provider . . . . .	199
7.3	Network Management . . . . .	202
7.3.1	Traffic Flows and Networks . . . . .	202
7.3.2	Flight Planning . . . . .	206
7.3.3	Flight Plan Utilization and Ticket Pricing . . . . .	208
7.4	Fleet Strategy and Aircraft Selection . . . . .	211
7.5	Flight Operations . . . . .	213
7.5.1	Stations . . . . .	213
7.5.2	Passenger Services, Sales and Special Services . . . . .	214
7.5.3	Aircraft Handling—Turnaround . . . . .	215
7.5.4	Cargo and Baggage Handling . . . . .	217
7.6	Aircraft Maintenance . . . . .	217
7.6.1	Maintenance, Repair, Overhaul . . . . .	217
7.6.2	Maintenance Management and Organization . . . . .	218
7.7	Airline Organization . . . . .	221
	References . . . . .	222
<b>8</b>	<b>Airport and Infrastructure . . . . .</b>	<b>225</b>
8.1	Role of Airport . . . . .	225
8.1.1	Location of the Airport . . . . .	227
8.1.2	Intermodality Aspects . . . . .	227
8.1.3	Classification of Airports . . . . .	228
8.1.4	Important Airport Elements and Characteristics . . . . .	229
8.1.5	Airport as Economy Driver . . . . .	230
8.2	Regulatory Issues, Safety and Security . . . . .	232
8.3	Regulatory Issues . . . . .	232
8.3.1	Airport Safety and Security . . . . .	232
8.4	Airport Operation and Services . . . . .	233
8.4.1	Aircraft Handling Process at the Airport . . . . .	234
8.4.2	Definition of Major Airport Elements and Services . . . . .	236
8.4.3	Turnaround Process . . . . .	240
8.4.4	Airport Check-in . . . . .	243
8.4.5	Baggage Handling at the Airport . . . . .	244
8.4.6	Freight Handling . . . . .	244
8.4.7	Fuel and Energy Needs . . . . .	246
8.4.8	Business Aspects . . . . .	247
8.5	Airport Planning—Infrastructure . . . . .	248
8.5.1	Airport Planning Process . . . . .	249
8.5.2	Terminal Layout . . . . .	251

8.5.3	Runways, Taxiways and Aircraft Geometry	
	Codes . . . . .	255
8.5.4	Planning of Baggage and Cargo Handling . . . . .	260
8.5.5	Specific Critical Airport Elements . . . . .	263
	References. . . . .	268

<b>10</b>	<b>Environmental Aspects of Air Transport . . . . .</b>	<b>311</b>
10.1	Introduction . . . . .	312
10.2	Air Transport Emissions Impact on the Climate . . . . .	313
	10.2.1 Aircraft Emissions . . . . .	316
	10.2.2 Physical Principles of the Atmosphere. . . . .	318
	10.2.3 Emission Impact Assessment in Air Transport . . . . .	326
	10.2.4 Measures for Emission Reductions . . . . .	330
10.3	Noise and Sound of Air Transport . . . . .	332
	10.3.1 Some Basics of Medical Noise Impacts . . . . .	332
	10.3.2 Basics of Noise and Aeroacoustics . . . . .	334
	10.3.3 Noise Requirements for Aircraft . . . . .	337
	10.3.4 Aircraft Noise Sources and Potential	
	for Reduction . . . . .	340
	References. . . . .	344

<b>11 Challenges and Competition of Air Transport . . . . .</b>	<b>347</b>
11.1 Global Challenges for Air Transport 2050 . . . . .	348
11.2 Future Energy Provision and Alternative Fuels for Air Transport . . . . .	351
11.3 Competitive and Multimodal Air Transport . . . . .	358
11.4 Technology Trends . . . . .	364
11.4.1 Technology Perspectives in Aircraft Design . . . . .	365
11.4.2 Perspectives in Air Traffic Management . . . . .	370
11.4.3 Perspectives in Airport Operations . . . . .	371
11.5 Integrated Approaches Towards Future Air Transport . . . . .	373
11.6 Compliance Achievement with Flightpath 2050 . . . . .	374
