
Contents

Part I Biofortification for Health and Nutrition

- 1 Biofortification: Introduction, Approaches, Limitations, and Challenges** 3
Ummed Singh, C S Praharaj, S.K. Chaturvedi,
and Abhishek Bohra
- 2 Global Poverty, Hunger, and Malnutrition:
A Situational Analysis** 19
Purushottam Sharma, Sudhakar Dwivedi, and Deepak Singh
- 3 Zinc in Crops and Human Health** 31
Soumitra Das and Andrew Green
- 4 Food Legumes for Nutritional Security
and Health Benefits** 41
N P Singh and Aditya Pratap
- 5 Biofortification of Food Legumes and Bioavailability
of Nutrients** 51
Jagdish Singh
- 6 Nutritional Benefits of Winter Pulses with Special
Emphasis on Peas and Rajmash** 61
A.K. Parihar, Abhishek Bohra, and G.P. Dixit
- 7 Nutritional Benefits of Pigeonpea** 73
I.P. Singh

Part II Biofortification Through Biotechnology and Breeding Tools

- 8 Enriching Nutrient Density in Staple Crops Using
Modern “-Omics” Tools** 85
Abhishek Bohra, Uday Chand Jha, and Sushil Kumar
- 9 Transgenic Strategies Towards Nutritional Enrichment
of Crops** 105
A. Das, S. Thakur, K.R. Soren, S. Datta, and N P Singh

10 Genomics-Enabled Breeding for Enhancing Micronutrients in Crops	115
K.R. Soren, P.S. Shanmugavadeivel, Priyanka Gangwar, Pallavi Singh, A. Das, and N P Singh	
11 Zinc Transporter: Mechanism for Improving Zn Availability	129
Lalit Kumar, Nand Lal Meena, and Ummed Singh	
12 Biofortification Through Breeding Interventions in Lentil	147
Jitendra Kumar, Rohit Kant, Syed Mohd Quatadah, Shiv Kumar, and Ashutosh Sarker	

Part III Biofortification with Improved Agronomy

13 Soil Factors Associated with Micronutrient Acquisition in Crops- Biofortification Perspective	159
Anil Kumar, Anil K. Choudhary, Vijay Pooniya, Vinod K. Suri, and Ummed Singh	
14 Nutrient Mining: Addressing the Challenges to Soil Resources and Food Security	177
Kaushik Majumdar, Saroj Kumar Sanyal, Sudarshan Kumar Dutta, T. Satyanarayana, and V.K. Singh	
15 Improving Protein Density in Food Legumes Through Agronomic Interventions	199
C S Praharaj, Ummed Singh, S S Singh, and Narendra Kumar	
16 Micronutrient Deficiencies in Humans and Animals: Strategies for Their Improvement	217
Anshu Rahal and Yashbir Singh Shivay	
17 Micronutrient Fertilizers for Zinc and Iron Enrichment in Major Food Crops: A Practicable Strategy	229
Yashbir Singh Shivay, Rajendra Prasad, and Ummed Singh	
18 Soil Test Crop Response: Concepts and Components for Nutrient Use Efficiency Enhancement	237
S.R. Singh	

Part IV Biofortification Through Soil-Plant Interactions

19 Biofortification with Microorganisms: Present Status and Future Challenges	249
Radha Prasanna, Lata Nain, Anuj Rana, and Yashbir Singh Shivay	

20	Plant Growth Promoting Rhizobacteria in Nutrient Enrichment: Current Perspectives	263
	Poonam Sharma, K.C. Kumawat, and Sabhjeet Kaur	
21	Role of Phytosiderophores in Acquisition of Iron and Other Micronutrients in Food Legumes	291
	Lalit Kumar, Nand Lal Meena, and Ummed Singh	
22	Selenium Bioavailability Through Microbes	303
	Santhappan Paulraj and M. Senthil Kumar	
23	Physiological Processes Toward Movement of Micronutrients from Soil to Seeds in Biofortification Perspectives	317
	P.S. Basu	
 Part V Biofortification for Value Addition and Novelty		
24	Antinutrients Restraining Biofortification	333
	R.P. Srivastava	
25	Nutritional Enhancers/Promoters in Biofortification	349
	Nand Lal Meena, Om Prakash Gupta, and Susheel Kumar Sharma	
26	High Beta-Carotene Rice in Asia: Techniques and Implications	359
	S.K. Dash, K.K. Sahoo, K. Chattopadhyay, L. Behera, S.K. Pradhan, K.A. Molla, and S.D. Mohapatra	
27	Biofortified Wheat for Mitigating Malnutrition	375
	Hari Ram, Satpal Singh, Neha Gupta, and Balwinder Kumar	
28	Specialty Corn for Nutritional Security and Dietary Diversification	387
	C.M. Parihar, Bhupender Kumar, S.L. Jat, A.K. Singh, M.L. Jat, V. Chaudhary, and Sain Dass	
29	Biofortification of Pearl Millet for Nutritional Enrichment	399
	Meenakshi Chaudhary and D. Singh	
30	Biofortification for Nutrient-Rich Millets	409
	A.C. Shivran	
31	Pre- and Post-harvest Management of Physical and Nutritional Quality of Pulses	421
	Aditya Pratap, Suhel Mehandi, Vankat Raman Pandey, Nupur Malviya, and P.K. Katiyar	
32	Enriched Potato for Mitigating Hidden Hunger	433
	Rajiv and Prashant Govindrao Kawar	

**Part VI Biofortification with Futuristic Challenges
and Approaches**

- 33 Nutri-farms for Mitigating Malnutrition in India 461**
Purushottam, S.K. Singh, and Riyaj Uddeen
- 34 Biofortification: Pathway Ahead and Future Challenges 479**
S S Singh, K.K. Hazra, C S Praharaj, and Ummed Singh

Biofortification of Food Crops

Singh, U.; Praharaj, C.S.; Singh, S.S.; Singh, N.P. (Eds.)

2016, XIV, 492 p. 63 illus., 54 illus. in color., Hardcover

ISBN: 978-81-322-2714-4
