1	Telecommunication Standards and Growth: Evolutionary Process	1
1.1	Mobile Wireless Generations	2
1.1.1	Zero Generation (0G): PTT, MTS, IMTS, AMTS, OLT and MTD	4
1.1.2	First Generation (1G): AMPS, NMT, RTMI, TACS and NTT	4
1.1.3	Second Generation (2G): CdmaOne, TDMA and GSM	5
1.1.4	General Packet Radio System—GPRS (2.5G)	6
1.1.5	Enhanced Data Rates for GSM Evolution—EDGE (2.75G)	6
1.1.6	CDMA2000, WCDMA, TD-SCDMA, HSPA and WiMAX (3G)	7
1.1.7	LTE (IMT Advanced) and WiMAX 2: 4G Networks	8
1.2	Telecommunication Standards Development Through Partnerships	9
1.2.1	3GPP (3rd Generation Partnership Project)	9
1.2.2	3GPP2 (3rd Generation Partnership Project 2)	10
1.3	Key Indicators of Telecom Growth World Wide	11
1.3.1	ITU's Grouping of Regions in the World	11
1.3.2	Global Telecom Statistics	12
1.4	Telecom Opportunities—Mapping the World Countries	13
1.5	Concluding Remarks	16
	References	16

2	Telecom Players, Regulatory Bodies, International Organizations and Regional Telecom Statistics: Global Overview	19
2.1	China	20
2.1.1	Regulatory and Government Bodies: MII, MIIT and TAB	20
2.1.2	Mobile Operators: China Mobile, China Unicom and China Telecom	20
2.2	India	21
2.2.1	Regulatory and Government Bodies: DOT, TRAI and TDSAT	21
2.2.2	Mobile Operators: Incumbents and Private Players	22
2.3	USA	22
2.3.1	Regulatory Body: FCC	23
2.3.2	Mobile Operators: AT&T, Verizon, Sprint and T-Mobile	23
2.4	Russia	24
2.4.1	Regulatory Body: Minkomsvyaz	24
2.4.2	Mobile Operators: MTS, Megafon, Vimplecom and Tele2	24
2.5	Indonesia	25
2.5.1	Regulatory and Government Body: BRTI and MCIT	25
2.5.2	Mobile Operators: Telkomsel, XL Axiata and Indosat	25
2.6	International Organizations in Telecom Sector	26
2.6.1	International Telecommunication Union (ITU)	26
2.6.2	European Union (EU)	27
2.6.3	World Trade Organization (WTO)	28
2.6.4	European Telecommunications Standards Institute (ETSI)	29
2.6.5	International Organization for Standardization (ISO)	30
2.6.6	GSM Association (GSMA)	31
2.7	Top Telecom Firms in Terms of Brand Value	31
2.8	Telecom Growth Rate Statistics	34
2.8.1	Growth Rate Statistics of Top Regions in Mobile Subscriptions	34
2.8.2	Growth Rate Statistics of Top Regions in Fixed-Line Telephony Subscriptions	37
2.9	Concluding Remarks	38
	References	39

3 Telecom Evolution and Role of Regulatory Bodies:

The Indian Perspective	41
3.1 National Telecom Policy 1994 (NTP-94).	42
3.2 Role of Regulatory Body (TRAI)	42
3.2.1 Mandatory Functions	43
3.2.2 Recommendatory Functions	44
3.3 New Telecom Policy 1999 (NTP-99)	45
3.3.1 NTP 1999 Recommendations	45
3.3.2 Impact of NTP 1999	45
3.4 Establishment of Telecom Disputes Settlement and Appellate Tribunal (TDSAT)	46
3.5 Wireless Local Loop (WLL)	46
3.6 Unified Licensing Regime	47
3.7 Broadband Policy, Plan and Growth Rate Statistics	49
3.7.1 Broadband Policy 2004	49
3.7.2 Broadband Plan 2010	50
3.7.3 Wireless Broadband Statistics	51
3.8 Mobile Number Portability	52
3.8.1 Key Aspects for MNP Construction	52
3.8.2 Imperatives for MNP Adoption	52
3.9 National Telecom Policy 2012	53
3.10 Growth of Indian Telecom Sector: Trends	54
3.11 Timeline of Major Events in Indian Telecom Sector	57
3.12 Concluding Remarks	59
References	59

4 Introduction to Spectrum Management	61
4.1 Spectrum Management in India	61
4.1.1 Role of Wireless Planning and Coordination Wing	62
4.1.2 National Frequency Allocation Plan (NFAP) and Its Importance	62
4.1.3 Policies of the Indian Government	64
4.1.4 Nomenclature for Spectrum Allocation	65
4.2 Improving Spectrum Efficiency and Management	66
4.2.1 Spectrum Refarming	66
4.2.2 Secondary Spectrum Markets	67
4.3 Spectrum Auctioning in India (Sivasankari et al. 2008)	69
4.4 Spectrum Assigning Methodologies	70
4.4.1 First-Come, First-Served Basis	71
4.4.2 Auction/Bidding Methodology	71
4.4.3 Beauty Contest Methodology	71
4.5 3G Spectrum Auctioning and Allocation Process	72
4.5.1 3G Spectrum Auction Design	74

4.6	Spectrum Allocation and Pricing—UK	76
4.7	Spectrum Management in Australia	76
4.8	Concluding Remarks	78
	References	78
5	Overview of Fourth-Generation Mobile Technology	81
5.1	Technologies and Standards for 4G	82
5.1.1	High-Speed Packet Access Evolved (HSPA+)	82
5.1.2	Worldwide Interoperability for Microwave Access (WiMAX)	83
5.1.3	Long-Term Evolution (LTE)	84
5.2	Technology Ecosystem	85
5.2.1	Worldwide Interoperability for Microwave Access (WiMAX)	85
5.2.2	High-Speed Packet Access Evolved (HSPA+)	86
5.2.3	Long-Term Evolution (LTE)	88
5.2.4	Device Ecosystem for LTE	88
5.3	Security Concerns	90
5.4	4G in India	91
5.4.1	Auction of BWA Spectrum in 2010	91
5.4.2	Auction of Spectrum in November 2012 in 1800 MHz Band.	92
5.4.3	Auction of Spectrum in February 2014 in 1800 MHz Band.	93
5.4.4	Auction of Spectrum in March 2015 in 1800 MHz Band.	93
5.5	Future Ahead.	93
5.6	Concluding Remarks	96
	References	97
6	Mobile Virtual Network Operators (MVNOs): An Emerging Business Model	99
6.1	MVNO Business Models.	100
6.1.1	Infrastructure-Based Classification	100
6.1.2	Strategy-Based Classification	102
6.2	Global Overview	103
6.2.1	USA.	103
6.2.2	United Kingdom	104
6.2.3	Finland	104
6.2.4	Denmark	105
6.2.5	Hong Kong	105
6.2.6	Spain	106
6.2.7	Japan	106
6.2.8	Norway.	106

6.3	Inferences	106
6.3.1	Key Prime Movers for MVNO Entry	107
6.3.2	Regulatory Stance on MVNO Entry	107
6.3.3	Infrastructure Requirements for MVNO.	107
6.3.4	Strategy, Acquisitions and Consumer Welfare	108
6.3.5	Advantages for MVNOs	108
6.3.6	Challenges for MVNOs.	108
6.3.7	MVNO–MNO Relationship and Agreements	109
6.3.8	Final Remarks	109
6.4	Indian Context	110
6.4.1	Stakeholder Perspective.	110
6.4.2	Metros	111
6.4.3	Rural Areas	112
6.4.4	Analysis of the Need for and Timing of Entry Factors in Metros and Rural Areas.	113
6.5	Concluding Remarks	116
	References	117
7	Costing and Pricing Mechanism of Telecom Services	119
7.1	Various Costing Principles and Its Applications	121
7.1.1	Fully Allocated Cost (FAC) Approach	124
7.1.2	Activity-Based Costing (ABC) Approach	124
7.1.3	Marginal Costing	125
7.1.4	Ramsey Rule	125
7.1.5	Current Cost Accounting (CCA).	126
7.1.6	Long-Run Incremental Cost (LRIC)	126
7.1.7	Top-Down Methodology	127
7.1.8	Bottom-Up Methodology.	127
7.2	Various Components of Cost.	128
7.2.1	Cost of Capital.	128
7.2.2	Depreciation	131
7.2.3	Operating Expenditure	131
7.2.4	Tax	131
7.2.5	Non-core Revenue Adjustment.	132
7.3	Pricing Approaches in the Telecom Sector.	132
7.3.1	Cost Plus Pricing	132
7.3.2	Subsidy-Based Pricing	133
7.3.3	Demand-Based Pricing	133
7.3.4	Price Floor and Ceiling.	133
7.4	Tariff Regulation of Telecom Services	134
7.4.1	Rate-of-Return (ROR) Approach	135
7.4.2	Price Cap Approach	136
7.4.3	Forbearance or Light-Touch Regulation.	137

7.5	Price Setting by TRAI—Few Examples	138
7.5.1	Landline and Wireless Call Tariff Under the Forbearance Regime	139
7.5.2	Costing of Interconnection Usage Charges—Using FAC and LRIC Approaches.	141
7.5.3	Tariff Fixation for International Private Leased Circuits (IPLC)—FAC with Historical Costs—Top-Down Approach	142
7.5.4	Tariff Fixation for Domestic Leased Line (DLC)—Current Cost—Bottom-Up Approach	143
7.5.5	Costing of Telecom Services—TRAI Moving Towards FLLRIC.	146
7.6	Concluding Remarks	147
	References	148
8	Telecom Value Chain and Telecom Markets—Enterprise, Retail and Application Development	151
8.1	Value Chains Versus Supply Chains.	152
8.1.1	The Telecommunications Value Chain	152
8.2	Enterprise Market.	155
8.2.1	NLD Market Share.	156
8.2.2	ILD Market Share	156
8.2.3	ISP Market Share.	157
8.3	Growth of Enterprise Services	158
8.4	Kinds of Enterprise Services	159
8.4.1	IPLC	159
8.4.2	DLC.	159
8.4.3	MPLS.	159
