

# Contents

## **Part I The Field of Phylogeographic Research on Seaweeds**

- 1 Seaweed Phylogeography from 1994 to 2014: An Overview . . . . . 3**  
Zi-Min Hu, De-Lin Duan and Juan Lopez-Bautista
- 2 Paradigm Shifts in the Phylogeographic Analysis of Seaweeds . . . . 23**  
W. Stewart Grant
- 3 The Dynamic Biogeography of the Anthropocene: The Speed  
of Recent Range Shifts in Seaweeds . . . . . 63**  
Sandra C. Straub, Mads Solgaard Thomsen and Thomas Wernberg

## **Part II Seaweed at Sea: Floating as a Dispersal Mechanism**

- 4 Float and Raft: Role of Buoyant Seaweeds  
in the Phylogeography and Genetic Structure  
of Non-buoyant Associated Flora . . . . . 97**  
Erasmo C. Macaya, Boris López, Fadia Tala, Florence Tellier  
and Martin Thiel
- 5 Change in Southern Hemisphere Intertidal Communities  
Through Climate Cycles: The Role of Dispersing Algae . . . . . 131**  
Ceridwen I. Fraser

## **Part III Invasive Seaweeds**

- 6 Non-native Seaweeds Drive Changes in Marine Coastal  
Communities Around the World . . . . . 147**  
Mads Solgaard Thomsen, Thomas Wernberg, Paul M. South  
and David R. Schiel

- 7 Towards an Integrative Phylogeography of Invasive Marine Seaweeds, Based on Multiple Lines of Evidence. . . . . 187**  
 Marianela Zanolle and Nikos Andreakis

#### **Part IV Comparative Phylogeography of Seaweeds**

- 8 Phylogeography of Tropical Pacific Marine Algae . . . . . 211**  
 Alison R. Sherwood and Giuseppe C. Zuccarello
- 9 Evolution and Biogeography of Laminariales Kelps. . . . . 227**  
 Hiroshi Kawai, Takeaki Hanyuda and Shinya Uwai
- 10 Phylogeography of Seaweeds in the South East Pacific: Complex Evolutionary Processes Along a Latitudinal Gradient . . . 251**  
 Marie-Laure Guillemin, Myriam Valero, Florence Tellier, Erasmo C. Macaya, Christophe Destombe and Sylvain Faugeton
- 11 Climate Oscillations, Range Shifts and Phylogeographic Patterns of North Atlantic Fucaceae . . . . . 279**  
 João Neiva, Ester A. Serrão, Jorge Assis, Gareth A. Pearson, James A. Coyer, Jeanine L. Olsen, Galice Hoarau and Myriam Valero
- 12 Survival in Glacial Refugia Versus Postglacial Dispersal in the North Atlantic: The Cases of Red Seaweeds. . . . . 309**  
 Jing-Jing Li, Zi-Min Hu and De-Lin Duan
- 13 Comparative Population Genetics of Red Alga Occupying Different Salinity Conditions. . . . . 331**  
 Helena Korpelainen
- 14 Phylogeography of Macroalgal Species Distributed in Brackish Water: *Ulva prolifera* (Ulvophyceae) and *Pyropia tenera* (Bangioophyceae). . . . . 345**  
 Satoshi Shimada, Kensuke Ichihara, Yuka Masakiyo, Riko Kawaguchi and Norio Kikuchi

#### **Part V Troubleshooting New Genomic Approaches for Seaweeds**

- 15 DNA Extraction Techniques for Genomic Analyses of Macroalgae . . . . . 363**  
 Laura J. Wilson, Xénia A. Weber, Tania M. King and Ceridwen I. Fraser

- Index . . . . . 387**

Seaweed Phylogeography

Adaptation and Evolution of Seaweeds under  
Environmental Change

Hu, Z.-M.; Fraser, C. (Eds.)

2016, XIV, 395 p. 72 illus., 24 illus. in color., Hardcover

ISBN: 978-94-017-7532-8
