Contents

1 Introduction 1
1.1 Introduction 1
1.2 Models of Ordered Random Variables 1
1.2.1 Order Statistics 1
1.2.2 Order Statistics with Non-integral Sample Size 2
1.2.3 Sequential Order Statistics 2
1.2.4 Record Values 3
1.2.5 k–Record Values 4
1.2.6 Pfeifer's Record Values 4
1.2.7 k_n–Records from Non-identical Distributions 5

2 Order Statistics 7
2.1 Introduction 7
2.2 Joint Distribution of Order Statistics 7
2.3 Marginal Distribution of a Single Order Statistics 8
2.4 Joint Distribution of Two Order Statistics 12
2.5 Distribution of Range and Other Measures 16
2.6 Conditional Distributions of Order Statistics 19
2.7 Order Statistics as Markov Chain 26
2.8 Moments of Order Statistics 29
2.9 Recurrence Relations and Identities for Moments of Order Statistics 35
2.9.1 Distribution Free Relations Among Moments of Order Statistics 36
2.9.2 Some Identities for Moments of Order Statistics 43
2.9.3 Distribution Specific Relationships for Moments of Order Statistics 48
2.9.4 Exponential Distribution 52
2.9.5 The Weibull Distribution 54

2.9.6 The Logistic Distribution . . . 57
2.9.7 The Inverse Weibull Distribution . . . 61
2.10 Relations for Moments of Order Statistics for Special Class of Distributions . . . 69
2.11 Reversed Order Statistics . . . 73

3 Record Values . . . 77
3.1 Introduction . . . 77
3.2 Marginal and Joint Distribution of Upper Record Values . . . 78
3.3 Conditional Distributions of Record Values . . . 85
3.4 Record Values as Markov Chain . . . 87
3.5 The K-Upper Record Values . . . 89
3.6 Moments of Record Values . . . 93
3.7 Recurrence Relations for Moments of Record Values . . . 102
3.7.1 The Uniform Distribution . . . 107
3.7.2 Power Function Distribution . . . 109
3.7.3 The Burr Distribution . . . 112
3.7.4 The Exponential Distribution . . . 115
3.7.5 The Weibull Distribution . . . 117
3.7.6 The Frechet Distribution . . . 119
3.7.7 The Gumbel Distribution . . . 121

4 The Generalized Order Statistics . . . 125
4.1 Introduction . . . 125
4.2 Joint Distribution of GOS . . . 125
4.3 Special Cases of GOS . . . 126
4.4 Some Notations . . . 129
4.5 Joint Marginal Distribution of r GOS . . . 129
4.6 Marginal Distribution of a Single GOS . . . 131
4.7 Joint Distribution of Two GOS . . . 133
4.8 Distribution Function of GOS and Its Properties . . . 141
4.9 GOS as Markov Chain . . . 144
4.10 Moments of GOS . . . 146
4.11 Recurrence Relations for Moments of GOS . . . 152
4.11.1 Exponential Distribution . . . 159
4.11.2 The Rayleigh Distribution . . . 161
4.11.3 Weibull Distribution . . . 162
4.11.4 Power Function Distribution . . . 164
4.11.5 Marshall-Olkin-Weibull Distribution . . . 166
4.11.6 The Kumaraswamy Distribution . . . 169
4.12 Relation for Moments of GOS for Special Class of Distributions . . . 173

5 Dual Generalized Order Statistics 177
5.1 Introduction 177
5.2 Joint Distribution of Dual GOS 177
5.3 Special Cases of Dual GOS 179
5.4 Some Notations for Dual GOS 180
5.5 Joint Marginal Distribution of r Dual GOS 181
5.6 Marginal Distribution of a Single Dual GOS 183
5.7 Joint Distribution of Two Dual GOS 185
5.8 Conditional Distributions for Dual GOS 190
5.9 Lower Record Values 193
5.10 Distribution Function of Dual GOS and Its Properties 197
5.11 Moments of Dual GOS 200
5.12 Recurrence Relations for Moments of Dual GOS 206
5.12.1 Reflected Exponential Distribution 211
5.12.2 The Inverse Rayleigh Distribution 213
5.12.3 The Inverse Weibull Distribution 215
5.12.4 The Power Function Distribution 217
5.12.5 The General Class of Inverted Distributions 219
5.13 Relationship Between GOS and Dual GOS 221

6 Some Uses of Ordered Random Variables 223
6.1 Introduction 223
6.2 Concomitants of Ordered Random Variables 223
6.2.1 Concomitants of Generalized Order Statistics 224
6.2.2 Concomitants of Order Statistics 228
6.2.3 Concomitants of Upper Record Values 231
6.2.4 Concomitants of Dual GOS 233
6.3 Ordered Random Variables in Statistical Inference 238
6.3.1 Maximum Likelihood Estimation 238
6.3.2 The L-Moment Estimation 240
6.3.3 Ordered Least Square Estimation 244
6.3.4 Bayes Estimation Using Ordered Variables 249

7 Characterizations of Distribution 253
7.1 Introduction 253
7.2 Characterization of Distributions by Order Statistics 253
7.2.1 Characterization of Distributions by Conditional Expectations 253
7.2.2 Characterization by Identical Distribution 256
7.2.3 Characterization by Independence Property 258
7.3 Characterization of Distributions by Record Values 260
7.3.1 Characterization Using Conditional Expectations 260
7.3.2 Characterization Based on Identical Distribution 267
7.4 Characterization of Distributions by Generalized Order Statistics 270

8 Extreme Value Distributions 273
8.1 Introduction 273
8.2 The PDF's of the Extreme Value Distributions of $X_{n,n}$ 274
8.2.1 Type 1 Extreme Value Distribution 274
8.2.2 Type 2 Extreme Value Distribution 275
8.2.3 Type 3 Extreme Value Distribution 275
8.3 Domain of Attraction of $X_{n,n}$ 276
8.3.1 Domain of Attraction of Type I Extreme Value Distribution 277
8.3.2 Domain of Attraction of Type 2 Extreme Value Distribution 278
8.3.3 Domain of Attraction of Type 3 Extreme Value Distribution 279
8.4 The PDF's of Extreme Value Distributions for $X_{1:n}$ 282
8.5 Domain of Attractions for $X_{1:n}$ 284
8.5.1 Domain of Attraction for Type 1 Extreme Value Distribution for $X_{1:n}$ 284
8.5.2 Domain of Attraction of Type 2 Distribution for $X_{1:n}$ 284
8.5.3 Domain of Attraction of Type 3 Extreme Value Distribution 285
