

Preface

This report is a partial result of ‘China’s Quarterly Macroeconomic Model (CQMM),’ a project of the Center for Macroeconomic Research (CMR) at Xiamen University. The CMR is one of the Key Research Institutes of the Humanity and Social Science of Ministry of Education of China. We are much appreciated to foundations that have provided financial support to us, including National Social Science Foundation of China (13&ZD029), the Key Project of China’s Ministry of Education in Philosophy and Social Sciences (14JZD011), the Key Research Project of the Key Research Institutions of Humanities and Social Sciences of China’s Ministry of Education (14JJD790007, 13JJD790026, 13JJD790025), the Youth Project of National Social Science Foundation of China (15BJL008, 13CJL017, 11CJY073), the Project of China’s Postdoctoral Science Foundation (2014M560526), as well as the support from the Fundamental Research Funds for the Central Universities (20720151037). We have released 18 forecast reports on China’s Macroeconomic Performance, with nine reports on Annual Macroeconomic Analysis published. This is the 19th forecast report, which is a summary of the forecast results to be released at the ‘CQMM (Autumn) Press Conference on Macroeconomic Projections for 2015–2016 and Kobe-Xiamen 2nd International Conference in Economics,’ which is jointly organized by Center for Macroeconomic Research, Xiamen University, Graduate School of Economics, Kobe University, and Economic Information Daily of Xinhua News Agency in Kobe, Japan, on September 8–9, 2015.
