## Part I Engineering

|          |                                                                                                                                          |           |
|----------|------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>1</b> | <b>Strength Properties of Lightweight Foamed Concrete Incorporating Waste Paper Sludge Ash and Recycled Concrete Aggregate . . . . .</b> | <b>3</b>  |
|          | Siti Shahidah Sharipudin, Ahmad Ruslan Mohd Ridzuan,<br>Raja Nor Husna Raja Mohd Noor and Asmawati Che Hassan                            |           |
| <b>2</b> | <b>Investigation of Cutting Edge Radius Effect in Macro-machining and Micro-machining. . . . .</b>                                       | <b>17</b> |
|          | Juri Saedon, Noor Aniza Norrdin, Mohd Azman Yahaya,<br>Mohd Shahir Kasim and NorHafiez Mohamad Nor                                       |           |
| <b>3</b> | <b>Clay Stabilization Using OPC and Bottom Ash as Additives . . . . .</b>                                                                | <b>27</b> |
|          | Juhaizad Ahmad, Kamaruzzaman Mohamed,<br>Abdul Samad Abdul Rahman, Mohd Ikmal Fazlan Rosli<br>and Assrul Reedza Zulkifli                 |           |
| <b>4</b> | <b>On the Use of Spectral Feature Fusions for Enhanced Performance of Malaysian English Accents Classification . . . . .</b>             | <b>35</b> |
|          | Mohd Ali Yusnita, Murugesu Pandiyan Paulraj, Sazali Yaacob,<br>Abu Bakar Shahrman, Rihana Yusuf and Shahilah Nordin                      |           |
| <b>5</b> | <b>Robustness Analysis of Feature Extractors for Ethnic Identification of Malaysian English Accents Database. . . . .</b>                | <b>47</b> |
|          | Mohd Ali Yusnita, Murugesu Pandiyan Paulraj, Sazali Yaacob,<br>Abu Bakar Shahrman, Rihana Yusuf and Mokhtar Nor Fadzilah                 |           |
| <b>6</b> | <b>Effect of Heat Treatment on Timbers—A Review. . . . .</b>                                                                             | <b>57</b> |
|          | Nur Ilya Farhana Md. Noh, Zakiah Ahmad<br>and Nur Kamaliah Mustaffa                                                                      |           |

|           |                                                                                                                                                                                              |            |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>7</b>  | <b>Driver Behaviour and Compliance at Signalised Intersection . . . .</b>                                                                                                                    | <b>69</b>  |
|           | Li-Sian Tey, Muhamad Kasimi Abd Khalil<br>and Fairus Azwan Azizan                                                                                                                            |            |
| <b>8</b>  | <b>Enhancement of Thermophilic (<i>Geobacillus stearothermophilus</i>)<br/>Cement–Sand Mortar Properties . . . . .</b>                                                                       | <b>79</b>  |
|           | Raden Maizatul Aimi Mohd Azam, Hamidah Mohd Saman,<br>Kartini Kamaruddin and Noor Hana Hussain                                                                                               |            |
| <b>9</b>  | <b>A Congestion Control Optimal Model Design Perspectives<br/>of Non-safety Applications on Vehicular Ad Hoc Networks:<br/>A Survey of Requirements, Protocols, and Challenges . . . . .</b> | <b>93</b>  |
|           | Shamsul Jamel Elias, Mohd Nazri Mohd Warip,<br>Badlishah Ahmad and Aznor Abd Halim                                                                                                           |            |
| <b>10</b> | <b>Pollutant Removal Efficiency for Wetland (PREWet)<br/>Stormwater Quality Model Performance for Constructed<br/>Wetlands in Tropical Climate . . . . .</b>                                 | <b>103</b> |
|           | Nur Asmaliza Mohd Noor, Asmidar Alias, Kamisah Ariffin<br>and Lariyah Mohd Sidek                                                                                                             |            |
| <b>11</b> | <b>An Idealized Model of Meandering Tidal River . . . . .</b>                                                                                                                                | <b>113</b> |
|           | Wei-Koon Lee and Irma Noorazurah Mohamad                                                                                                                                                     |            |
| <b>12</b> | <b>Track Cyclist Performance Monitoring System<br/>Using Wireless Sensor Network . . . . .</b>                                                                                               | <b>123</b> |
|           | Sukhairi Sudin, Ali Yeon Md Shakaff, Fezri Aziz,<br>Fathinul Syahir Ahmad Saad, Ammar Zakaria<br>and Ahmad Faizal Salleh                                                                     |            |
| <b>13</b> | <b>Evaluation of Material Properties of Cold-formed Steel<br/>Channel Section with Different Thickness . . . . .</b>                                                                         | <b>133</b> |
|           | Mohd Syahrul Hisyam Mohd Sani, Fadhluhartini Muftah,<br>Ahmad Rasidi Osman, Mohd Azran Razlan and Cher Siang Tan                                                                             |            |
| <b>14</b> | <b>Characterization and Development of Geldart’s Fluidizing<br/>Velocity Profile of Sand Particles for the Application<br/>in Fluidized Bed Combustor (FBC) . . . . .</b>                    | <b>147</b> |
|           | Ahmmad Shukrie, Shahrani Anuar and Azri Alias                                                                                                                                                |            |
| <b>15</b> | <b>High Aspect Ratio Micro-EDM Drilling with Nano<br/>Surface Finish . . . . .</b>                                                                                                           | <b>157</b> |
|           | Mohammad Yeakub Ali, Mohamed Abd Rahman,<br>Asfana Banu, Shakira Adnan and Fatin Nadia                                                                                                       |            |
| <b>16</b> | <b>Dumbbell-Shaped Inline Mach–Zehnder Interferometer<br/>for Glucose Detection . . . . .</b>                                                                                                | <b>165</b> |
|           | Asiah Lokman, Hamzah Arof and Sulaiman Wadi Harun                                                                                                                                            |            |

## Part II Robotics

- 17 Novel Rehab Devices' Feature Extraction Analysis Using EMG Signal via Self-Organizing Maps (SOM) . . . . . 175**  
 Zul Hasrizal Bohari, Mohd Hafiz Jali, Tarmizi Ahmad Izzuddin  
 and Mohamad Na'im Mohd Nasir

## Part III Architecture

- 18 Town of Karai: The Only Coal Mining Site in the State of Perak and Its Contribution to the Urban Development. . . . . 187**  
 Mohd Hasrol Haffiz Aliasak, Mhd. Nor Osman,  
 Siti Rahayu Zakaria, Mohd Farid Sa'ad  
 and Nur Lesya Firsya Johaimi Ling
- 19 Determination of New Bank Branch Location Using GIS Approach. . . . . 201**  
 Noorsazwan Ahmad Pugi, Halmi Zainol  
 and Azlizan Adila Mohamad
- 20 Application of Sustainable Site Planning and Management (SM) Criterion in Green Building Index (GBI) Assessment for Hill Land Development in Penang—A Case Study . . . . . 209**  
 Nadira Ahzahar, Intan Bayani Zakaria and Siti Ismahani Ismail

## Part IV Mathematics and Statistics

- 21 Secure Key Authentication Scheme Based on Discrete Logarithm and Factoring Problems . . . . . 221**  
 Azimah Suparlan, Asyura Abd Nassir, Nazihah Ismail,  
 Fairuz Shohaimay and Eddie Shahril Ismail
- 22 Jaccard Ranking Index with Algebraic Product  $t$ -Norm Based on Second Function Principle in Handling Fuzzy Risk Analysis Problem . . . . . 231**  
 Nazirah Ramli, Norhuda Mohammed and Fairuz Shohaimay
- 23 Analysis of Forensic Ballistic Specimens for Firearm Identification Using Supervised Naive Bayes and Decision Tree Classification Technique . . . . . 241**  
 Muhamad Hasbullah Mohd Razali and Balkiah Moktar
- 24 Fuzzy Spatial Forecasting Model of Rainfall Distribution for Flood Early Warning . . . . . 251**  
 Mahmud Othman, Siti Nor Fathihah Azahari  
 and Noor Atiqah Abu Massuut

|                                                                                                                                                           |            |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>25 Applications of Travelling Salesman Problem in Optimizing Tourist Destinations Visit in Langkawi . . . . .</b>                                      | <b>265</b> |
| Zakiah Hashim and Wan Rosmanira Ismail                                                                                                                    |            |
| <b>26 Digraph Representations of Machine Vision Workspace for Monitoring Worker's Behavior . . . . .</b>                                                  | <b>275</b> |
| Ahmad Yusairi Bani Hashim, Nur Sufiah Akmala Ramdan,<br>Seri Rahayu Kamat and Siti Azirah Asmai                                                           |            |
| <b>27 Mango Size Classification Using RGB Color Sensor and Fuzzy Logic Technique. . . . .</b>                                                             | <b>287</b> |
| Ab Razak Mansor, Mahmod Othman, Mohd Nazari Abu Bakar,<br>Khairul Adilah Ahmad and Tajul Rosli Razak                                                      |            |
| <b>28 Performance Analysis of 2-Point Explicit Group (2-EG) Method for Solving Second-Order Composite Closed Newton-Cotes Quadrature System . . . . .</b> | <b>297</b> |
| Mohana Sundaram Muthuvalu, Elayaraja Aruchunan<br>and Jumat Sulaiman                                                                                      |            |
| <b>29 Effect of Inclination on Natural Convection Porous Cavity . . . . .</b>                                                                             | <b>307</b> |
| Mat Salim Selamat and Anis Rosninawati Idayu Abd Rahim                                                                                                    |            |
| <b>30 Dice Index with Algebraic Product and Minimum t-Norm for Ranking Fuzzy Numbers . . . . .</b>                                                        | <b>313</b> |
| Nazirah Ramli, Fairuz Shohaimay and Nurhalijah Bachik                                                                                                     |            |

## **Part V Computer Science/Information Technology**

|                                                                                                                                                                                 |            |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>31 Investigating the Optimise <math>k</math>-Dimensions and Threshold Values of Latent Semantic Indexing Retrieval Performance for Small Malay Language Corpus . . . . .</b> | <b>325</b> |
| Roslan Sadjirin, Noli Maishara Nordin, Mohd Ikhsan Md Raus<br>and Zulazeze Sahri                                                                                                |            |
| <b>32 Critical Review of Measurement for Multipartite Entanglement: Detection and Quantification . . . . .</b>                                                                  | <b>337</b> |
| Siti Munirah Mohd, Bahari Idrus, Muriati Mukhtar<br>and Hishamuddin Zainuddin                                                                                                   |            |
| <b>33 Toward Developing an Enhanced Hough Transform Technique for Circle and Semicircle Detection . . . . .</b>                                                                 | <b>349</b> |
| Ismariani Ismail, Adeline Engkamat<br>and Abang Feizal Abang Ibrahim                                                                                                            |            |

## Part VI Forestry

- 34 Properties of Particleboard from Oil Palm Trunk (*Elaeis guineensis*) and Resam (*Dicranopteris linearis*) . . . . . 359**  
 Nurrohana Ahmad, Jamaludin Kasim, Siti Noorbaini Sarmin,  
 Zaimatul Aqmar Abdullah, Mazlin Kusin and Norhafizah Rosman
- 35 Effect of Tree Portion and Distance from Pith on Specific Gravity, Fiber Properties and Mechanical Properties of Kelampayan (*Neolamarckia cadamba*) Wood . . . . . 367**  
 Jamaludin Kasim, Siti Nadzirah Misfar,  
 Nur Sakinah Mohamed Tamat and Nurfaizah Abd Latib
- 36 Anatomical Properties of Juvenile Latex Timber Clone Rubberwood Trees . . . . . 377**  
 Junaiza Ahmad Zaki, Suhaimi Muhammed,  
 Shaikh Abdul Karim Yamani, Amran Shafie  
 and Wan Daud Wanrosli
- 37 Effect of Tree Portion and Anthraquinone (AQ) on Pulp Properties from Batai (*Paraserianthes falcataria*) . . . . . 385**  
 Muslyza Che Hussin and Jamaludin Kasim
- 38 The Role of Oil Palm (*Elaeis guineensis*) Frond as Filler in Polypropylene Matrix with Relation of Filler Loading and Particle Size Effects . . . . . 393**  
 Nor Farhana Jasmi, Jamaludin Kasim, Mohd Shafie Ansar  
 and Iffah Izzah Maidin
- 39 Effects of Board Density and Resin Content on the Mechanical and Physical Properties of Oil Palm Frond Particleboard . . . . . 405**  
 Nur Farahin Yusoff, Nur Sakinah Mohammed Tamat  
 and Jamaludin Kasim
- 40 Effect of Different Pressing Times on Mechanical and Physical Properties of Phenol Formaldehyde Particleboard Made from Oil Palm Trunk . . . . . 413**  
 Ermadasila Mohamad and Jamaludin Kasim
- 41 Properties of Particleboard from Kelempayan (*Neolamarckia cadamba*) Wood . . . . . 419**  
 Nur Sakinah Mohamed Tamat, Nur Farahin Yusoff,  
 Jamaludin Kasim and Wan Mohd Nazri Wan Abdul Rahman
- 42 Effect of Different Portion on Calorific Value, Ash Content, and Specific Gravity of *Leucaena leucocephala* Wood . . . . . 429**  
 Nur Saidah Nordin, Junaidah Md Sani, Jamaludin Kasim  
 and Wan Mohd Nazri Wan Abdul Rahman

## Part VII Plantation and Agrotechnology

- 43 Composting of Empty Fruit Bunch Treated with Palm Oil Mill Effluent and Decanter Cake . . . . . 437**  
 Salwa Adam, Syed Saiful Nashrizam Syd Ahmad,  
 Nur Masriyah Hamzah and Noor Azimah Darus
- 44 The Effect of Lateral Shoot Number Manipulation on the *Capsicum frutescens* var Centel Growth and Yield . . . . . 447**  
 Yaseer Suhaimi Mohd and Mohamad Abd Manas
- 45 Effects of Light Intensity and Mycorrhiza Association on the Growth Performance of *Capsicum annum* . . . . . 455**  
 Anisah Mohammed and Mohamad Amir Shah Yusop
- 46 Inhibition of Egg Hatching of the Golden Apple Snail by Synthetic Molluscicides. . . . . 463**  
 Mohd Hafezan Sisa, Firdaus Aspani, Rosdiyani Massaguni,  
 Hazmi Awang Damit and Hendry Joseph

## Part VIII Sports Science and Recreation

- 47 Kinematics and Kinetics of High and Low Velocity Resistance Training Equated by Time Under Tension: Implications for Hypertrophy Training . . . . . 475**  
 Nur Ikhwan Mohamad, Kazunori Nosaka and John Cronin
- 48 Relationship Between EMG Activity and Endurance Time of the Biceps Brachii During Isokinetic Contraction . . . . . 487**  
 S.A.M. Matiur Rahman, Nizam Uddin Ahamed, Mahdi Alqahtani,  
 Omar Altwijri, Kenneth Sundaraj and N. Ahmed
- 49 The Effects of Eight Weeks Consecutive Swimming Exercise and Estrogen Therapy on Cardiovascular Risk Factors in Ovariectomised Rat Model . . . . . 495**  
 Wan Mohd Norsyam Wan Norman, Asok Kumar Ghosh,  
 Chen Chee Keong and Siti Amrah Sulaiman

## Part IX Health and Medicine

- 50 Differentiating Benign from Malignant Adnexal Masses: Comparison of Two-Dimensional and Three-Dimensional Ultrasound Imaging . . . . . 505**  
 Marlina Tanty Ramli, Anushya Vijayananthan, Gan Gek Choo,  
 Ghana Kumar and Lim Boon Kiong

|           |                                                                                                                              |            |

## Part XII Food Science

- 59 Quality Attributes of Different Purple Sweet Potato Variety and Sensory Evaluation of Purple Sweet Potato Straight Drink . . . . . 587**  
 Nur Izalin Mohamad Zahari, Jeeven Karuppan,  
 Erwan Shah Shaari, Kasmah Mohamad, Rosnah Othman  
 and Yusnita Yaacob
- 60 Quantitative Analysis of Hydrophilic and Lipophilic Antioxidant Components in Palm Puree. . . . . 595**  
 Haswani Maisarah Mustafa, Noriham Abdullah  
 and Zainon Mohd. Noor

## Part XIII Sustainable Development

- 61 Solid Waste Minimization Strategies: The First Step Towards Greening a University Campus . . . . . 611**  
 Noor Rizallinda Ishak and Siti Akhtar Mahayuddin
- 62 Reverse Logistics Network Design for Paper Recycling. . . . . 621**  
 Zurina Hanafi, Dong Li and Shen Cheng

## Part XIV Physics

- 63 Improvement of Insulated Wire Ball Bonding . . . . . 633**  
 Muhammad Faiz, Yap Boon Kar, Hung Yang Leong,  
 Tan Chou Yong, Chin Teck Siong and Tan Lan C
- 64 Eddy Current Thermography Testing on Lack of Fusion (LOF) Defect of Carbon Steel Welded Sample. . . . . 643**  
 Nurliyana Shamimie Rusli, Syamsyir Akmal Senawi,  
 Sidek Abdul Aziz, Ilham Mukriz Zainal Abidin, Azhan Hashim,  
 Azman Kassim, Henry Johann Ridzwan, Liyana Zolkarnain,  
 Nurhana Ilmira Harun and Siti Sumaiyah Sheikh Abdul Aziz

Regional Conference on Science, Technology and  
Social Sciences (RCSTSS 2014)

Science and Technology
