Preface	vii
1 Introduction to Ice Drilling Technology	1
1.1 Ice Drilling Targets and Aims	1
1.2 Structure of Ice Sheets and Glaciers	4
1.3 Classification of Ice Drilling Methods	6
References.	7
2 Yearly History of Ice Drilling from Nineteenth to the First Half of Twentieth Century	9
References.	13
3 Direct-Push Drilling	15
3.1 Drive Sampling	15
3.1.1 Basic Principles	15
3.1.2 Mt. Rose Sampler	16
3.1.3 Utah Snow Sampler	17
3.1.4 Federal Snow Sampler	17
3.1.5 Bowman Sampler	18
3.1.6 Rosen Sampler	18
3.1.7 Large Diameter Snow Samplers	19
3.1.8 Vibratory Drill	19
3.2 Penetrative Testing	20
3.2.1 Ski Pole Penetrometer	20
3.2.2 Ram Penetrometer	20
3.2.3 Snow Resistograph	21
3.2.4 Digital Thermo-Resistograph	22
3.2.5 Snow Micro-Penetrometer	22
3.2.6 SABRE Probe	22
3.2.7 Cone Penetrometer Testing	23
3.3 Summary	24
References.	24
4 Hand- and Power-Driven Portable Drills	27
4.1 Noncoring Augers.	27
4.1.1 SFFEL Noncoring Auger	27
4.1.2 SIPRE/CRREL Ice Thickness Kit	27
4.1.3 Kovacs Ice Thickness Kit.	30
4.1.4 AARI Portable Sled-Mounted Drilling Rig	30
4.1.5 Handheld Coal-Boring Augers	30
4.1.6 Ice Augers for Winter Fishing	31
4.2 Noncoring “Piston” Drills	34

4.3	Core Augers.	34
4.3.1	General Principles.	34
4.3.2	SFFEL Auger.	35
4.3.3	SIPRE Auger	37
4.3.4	CRREL Auger	39
4.3.5	Rand Auger	39
4.3.6	Big John 12" Auger	40
4.3.7	PICO Lightweight Auger	40
4.3.8	Kovacs Auger.	41
4.3.9	IGAS Hand Auger	42
4.3.10	Swiss Hand Auger	42
4.3.11	UCPH Hand Auger	42
4.3.12	"Prairie Dog" Auger	43
4.3.13	"Sidewinder"	44
4.3.14	IDDO Hand Auger	44
4.4	Core Drills with Teeth and Annular Bits	45
4.4.1	Taku Glacier Hand Drill	46
4.4.2	Canadian Portable Ice Drill	46
4.4.3	Tsykin's Hand Drill	46
4.4.4	5th CAE Drill.	48
4.4.5	Ice Core Drill with Annular Bit PI-8	48
4.5	Mini Drills.	50
4.5.1	Livingston Island Mini Drill.	50
4.5.2	Chipmunk Drill	50
4.6	Summary	50
	References.	51
5	Percussion Drills.	53
5.1	Cable-Tool Drill Rigs	53
5.1.1	IGAS Cable-Tool Rig	53
5.1.2	Cable-Tool of California Institute of Technology	54
5.1.3	Star Iron Works Cable-Tool	55
5.2	Pneumatic Drills	56
5.3	Rotary-Percussion Drills	56
5.4	Summary	56
	References.	56
6	Conventional Machine-Driven Rotary Drill Rigs	59
6.1	Dry Drilling	59
6.1.1	Expéditions Polaires Françaises in Greenland	59
6.1.2	Baffin Island Expedition	62
6.1.3	Norwegian-British-Swedish Antarctic Expedition	63
6.1.4	Mirny Station, Antarctica	64
6.2	Auger Drilling	64
6.2.1	Mirny Station, Antarctica	64
6.2.2	McMurdo Station, Antarctica	65
6.2.3	Amundsen-Scott Station, South Pole	67
6.2.4	Subglacial Lake Ellsworth Camp.	68
6.3	Commercial Drill Rigs for Ice Fishing	68
6.4	Air Rotary Drilling	71
6.4.1	Mirny, Antarctica	71
6.4.2	Site 2, Greenland	72

6.4.3	Byrd Station, Antarctica	74
6.4.4	Little America V, Antarctica	75
6.4.5	Franz Josef Land, Russian Arctic	76
6.4.6	Base Roi Baudouin, Antarctica	76
6.5	Rotary Drilling with Fluid Circulation	77
6.5.1	Taku Glacier, Alaska	77
6.5.2	Mer de Glace, French Alps	78
6.5.3	South Leduc Glacier, British Columbia	78
6.5.4	McMurdo Station, Antarctica	79
6.6	Wire-Line Drills	79
6.6.1	International Antarctic Glaciological Project, East Antarctica . . .	80
6.6.2	Ross Ice Shelf Project	80
6.6.3	Base Druzhnaya, Antarctica	82
6.6.4	Black Rapids Glacier, Alaska	83
6.6.5	Isua Greenstone Belt, Southwestern Greenland	84
6.6.6	Foremore Glacier, British Columbia, Western Canada	85
6.6.7	Rapid Access Ice Drill (RAID)	86
6.6.8	Agile Sub-ice Geological (ASIG) Drill	88
6.7	Drilling in Rock Glaciers	88
6.7.1	Overview of Projects Using Conventional Drilling Equipment	89
6.7.2	Koci Drill	95
6.8	Summary	97
	References	97
7	Flexible Drill-Stem Drill Rigs	101
7.1	Rapid Shallow Drill Rigs	101
7.2	Rapid-Access Drill Rigs	103
7.2.1	Thermomechanical Drill	103
7.2.2	Coiled-Tubing Drill Rigs	103
7.2.3	RADIX	104
7.2.4	SUBGLACIOR Drilling Probe	105
7.3	Summary	107
	References	107
8	Cable-Suspended Electromechanical Auger Drills	109
8.1	Basic Principles	109
8.2	University of Iceland (UI) Drill	111
8.3	University of Bern (UB) Drills	116
8.3.1	Rufli Drill	116
8.3.2	Further Improved UB Drills	118
8.4	CRREL Drill	122
8.5	Institute of Low Temperature Science (ILTS) Drills	124
8.5.1	First Prototypes	124
8.5.2	ID-140 Drill	125
8.5.3	ILTS-140 Drill	125
8.5.4	MID-140 Drill	126
8.5.5	Portable ILTS-130 and -100 Drills	127
8.5.6	ILTS-130E(F) and ILTS-150 Drills	128
8.5.7	New Portable ILTS Drill	128

8.6	University of Copenhagen (UCPH) Drill	129
8.7	Laboratoire de Glaciologie et Géophysique de l'Environnement (LGGE) Drills	132
8.8	National Hydrology Research Institute (NHRI) Drill	134
8.9	Polar Ice Coring Office (PICO) 4" Drill.	137
8.10	Alfred-Wegener Institute (AWI) Drills.	141
8.11	Australian National Antarctic Research Expedition (ANARE) Drill	144
8.12	BZXJ Drills	145
8.13	Geo Tecs Drills	148
8.13.1	Geo Tecs Prototype Shallow Drill.	148
8.13.2	Further Improvements	148
8.13.3	Field Testing and Operations	150
8.14	Hilda/Simon/Eclipse Drills	154
8.14.1	Hilda/Simon Drills	154
8.14.2	Eclipse Drill.	155
8.14.3	Field Testing and Coring	157
8.14.4	Badger-Eclipse Drill	158
8.15	Byrd Polar Research Center (BPRC) Drills	158
8.16	British Antarctic Survey (BAS) Drills	165
8.16.1	BAS/IMAU Drill	165
8.16.2	Rapid-Access Isotope Drill.	166
8.17	FELICS Drills	167
8.17.1	3" Drill	167
8.17.2	"Backpack Drill"	169
8.18	Blue Ice Drill (BID)	170
8.18.1	BID General Description	170
8.18.2	Operation and Performance	172
8.18.3	BID-Deep System	173
8.19	Summary	173
	References.	175
9	Cable-Suspended Electromechanical Drills with Bottom-Hole Circulation. . .	179
9.1	CRREL Electromechanical Drill	179
9.1.1	Drilling Equipment	179
9.1.2	Camp Century, Greenland	183
9.1.3	Byrd Station, Antarctica.	184
9.2	ISTUK Drill.	187
9.2.1	Drill System.	187
9.2.2	Dye 3, Greenland (GISP).	188
9.2.3	Summit, Greenland (GRIP)	189
9.2.4	Law Dome, Antarctica.	192
9.3	LGGE Electromechanical Drills	193
9.4	PICO-5.2" Electromechanical Drill	194
9.4.1	Drill System.	194
9.4.2	Summit, Greenland (GISP2).	197
9.4.3	Taylor Dome, Antarctica	201
9.4.4	Siple Dome, Antarctica	201
9.5	KEMS Electromechanical Drill.	202
9.5.1	Drill System.	202
9.5.2	Severnaya Zemlya, Russian Arctic	203
9.5.3	Vostok Station, Antarctica	205
9.6	JARE Electromechanical Drill	209

9.6.1	Drill System	209
9.6.2	Preliminary Tests	210
9.6.3	First Deep Ice Coring Project at Dome F, Antarctica	211
9.6.4	Second Deep Ice Coring Project at Dome F, Antarctica	214
9.6.5	Kunlun Station (Dome A), Antarctica	215
9.7	Hans Tausen (HT) Electromechanical Drill and Its Modifications	215
9.7.1	Basic Drill System	215
9.7.2	Hans Tausen Ice Cap, Greenland	218
9.7.3	NorthGRIP, Greenland.	218
9.7.4	EPICA Dome C, Antarctica	222
9.7.5	EPICA-DML, Kohnen Station, Antarctica	226
9.7.6	Berkner Island, Antarctica	228
9.7.7	Talos Dome, Antarctica (TALDICE)	230
9.7.8	Flade Isblink Ice Cap, Greenland	230
9.7.9	NEEM Deep Ice Core Drilling, Greenland	231
9.7.10	James Ross Island, Antarctica	234
9.7.11	Fletcher Promontory, Antarctica	235
9.7.12	Roosevelt Island, Antarctica	236
9.7.13	NEEM, Greenland (UCPH Intermediate-Depth Ice Core Drilling System)	237
9.7.14	Aurora Basin North, Antarctica.	238
9.7.15	Renland Ice Cap, Greenland	240
9.7.16	Summit, Greenland (IDDO Intermediate-Depth Drill)	241
9.7.17	South Pole, Antarctica (SPICE).	243
9.8	IDRA Drill	244
9.9	DISC Electromechanical Drill.	245
9.9.1	Drill System.	245
9.9.2	Field Testing at Summit, Greenland	246
9.9.3	WAIS Divide, Antarctica	247
9.9.4	Replicate Coring, WAIS Divide, Antarctica	249
9.10	IBED Drill.	251
9.11	Summary	252
	References.	254
10	Drilling Challenges and Perspectives for Future Development.	259
10.1	Low-Temperature Drilling Fluids	259
10.1.1	Drilling Fluid Compositions	259
10.1.2	ESTISOL™ 240/COASOL™ Drilling Fluid.	260
10.1.3	ESTISOL™ 140 Drilling Fluid.	262
10.1.4	Low-Molecular Weight Dimethyl Siloxane Oils	262
10.1.5	Low-Molecular Weight Esters.	262
10.1.6	Kerosene-Based Drilling Fluids Mixed with Fourth-Generation Foam-Expansion Agents.	263
10.2	Ice Drilling Under Complicated Conditions	263
10.2.1	Permeable Snow-Firm	263
10.2.2	Brittle Ice Zone	265
10.2.3	Warm Ice.	266
10.2.4	Debris-Containing Ice	269
10.2.5	Bedrock.	270
10.2.6	Elimination of Sticking Drills.	271
10.3	Advanced Drilling Systems	273

10.3.1	Rapid-Access Ice Drilling Systems for Subglacial Bedrock Drilling	273
10.3.2	Sidewall Drilling	276
10.3.3	Automated Drilling Systems	277
	References	277
Appendix A: Records of Mechanical Drilling in Ice		281
Appendix B: Abbreviations of Institutes, Organizations, and Projects		283

Mechanical Ice Drilling Technology
