

Contents

1	Introduction	1
1.1	Climate and Weather	1
1.2	Climate Change	2
1.3	Impact of Climate Change in Global Context	3
1.4	Impact of Climate Change on Agriculture	4
1.5	Climatological Parameters Affecting Crop Yeild	5
1.5.1	Maximum and Minimum Temperature	5
1.5.2	Relative Humidity	5
1.5.3	Wind Speed	6
1.5.4	Sunshine Hours	6
1.6	Downscaling	6
1.6.1	Uncertainty	8
1.7	Downscaling Techniques and Their Application	9
1.7.1	Dynamical Downscaling	9
1.7.2	Statistical Downscaling	11
1.7.3	Statistical–Dynamical Downscaling	12
1.8	Multiple Linear Regression	15
1.9	Principal Component Analysis (PCA)	15
1.10	Objectives	15
2	Principal Component Analysis in Transfer Function	17
2.1	Transfer Function/Regression Method	17
2.2	Types of Regressions	19
2.2.1	The Simple Linear Regression Model	19
2.2.2	The Multiple Linear Regression Model	19
2.2.3	Polynomial Regression Models	20
2.2.4	Nonlinear Regression	20
2.3	Principal Component Analysis (PCA)	20
2.3.1	Advantages and Disadvantages of PCA	21
2.3.2	Applications of Principal Components	22

2.4	Principal Component Regression (PCR)	23
2.4.1	Calculating Principal Components	23
2.4.2	Rules for Retaining Principal Components	24
2.4.3	Development of Principal Component Regression (PCR)	25
3	Review of Literature	27
3.1	Review of Works on Climate Change.	27
3.2	Review of Works on Downscaling Techniques	28
3.3	Review of Works on Multiple Linear Regressions	33
3.4	Review of Works on Principal Component Analysis and Principal Component Regression	33
4	Study Area and Data Collection	39
4.1	Agroclimatic Zones by the Planning Commission	39
4.2	Subagroclimatic Zones of Gujarat	39
4.2.1	Southern Hills.	41
4.2.2	Southern Gujarat	41
4.2.3	Middle Gujarat	42
4.2.4	North Gujarat	42
4.2.5	Northwest Arid	42
4.2.6	North Saurashtra	42
4.2.7	South Saurashtra	42
4.3	Study Area	43
4.4	Data Collection	44
5	Methodology	45
5.1	Multiple Linear Regression Model	45
5.2	Principal Component Regression Model	46
5.3	Performance Indices	47
5.3.1	Root Mean Squared Error (RMSE)	47
5.3.2	Correlation Coefficient (r).	47
5.3.3	Coefficient of Determination (R^2)	48
5.3.4	Discrepancy Ratio (D.R.)	48
5.4	Analysis of MLR and PCR Models	49
6	Results and Analysis	51
6.1	MLR Model During Training and Validation	51
6.1.1	Multiple Linear Regression During Training	51
6.1.2	Multiple Linear Regression During Validation.	52
6.2	PCR Model During Training and Validation	55
6.2.1	Principal Component Regression During Training	58
6.2.2	PCR During Validation	58
6.3	Comparison of MLR and PCR Models Using Performance Indices	60
6.4	Analysis of MLR and PCR Models Developed	61

Contents	xi
7 Conclusions	63
7.1 Conclusions Based on the Study	63
References	65

Principal Component Regression for Crop Yield
Estimation

Suryanarayana, T.M.V.; Mistry, P.B.

2016, XVII, 67 p. 12 illus. in color., Softcover

ISBN: 978-981-10-0662-3
