

# Contents

<b>1 Background and General Introduction . . . . .</b>	<b>1</b>
References . . . . .	3
<b>2 Structure of Lignocellulosic Biomass . . . . .</b>	<b>7</b>
References . . . . .	11
<b>3 Conversion of Biomass to Fuel . . . . .</b>	<b>13</b>
References . . . . .	16
<b>4 Pretreatment of Lignocellulosic Biomass . . . . .</b>	<b>17</b>
4.1 Pretreatment Methods . . . . .	19
4.1.1 Physical Pretreatment . . . . .	19
4.1.2 Physicochemical Pretreatment . . . . .	22
4.1.3 Chemical Pretreatment . . . . .	29
4.1.4 Cellulose Solvent-Based Lignocellulose Pretreatments . . . .	46
4.1.5 Biological Treatment . . . . .	53
4.1.6 Other Methods . . . . .	54
References . . . . .	57
<b>5 Summary of Biomass Pretreatment Methods . . . . .</b>	<b>71</b>
References . . . . .	74
<b>6 Future Perspectives . . . . .</b>	<b>77</b>
References . . . . .	80
<b>Index . . . . .</b>	<b>83</b>

Pretreatment of Lignocellulosic Biomass for Biofuel  
Production

Bajpai, P.

2016, XI, 87 p. 5 illus., 4 illus. in color., Softcover

ISBN: 978-981-10-0686-9
