

Contents

1	An Overview of the Indian Agriculture.	1
1.1	Introduction	1
1.2	Objectives and Scheme of the Book.	6
	References	7
2	Technological Change and Productivity Growth in Agriculture	9
2.1	Introduction	9
2.2	Major Issues of Technological Change in Agriculture.	12
2.2.1	The Adoption of a New Technology	12
2.2.2	Uncertainty in Production	13
2.2.3	Uncertainties, Learning and Adoption of a New Technology.	15
2.2.4	Farm Size, Risk Aversion and the Adoption of a Modern Technology	16
2.2.5	Adoption of Interrelated Technologies in Agriculture	17
2.2.6	Education and Human Capital in the Adoption of a Risky Technology	17
2.2.7	Role of Price in the Adoption of a New Technology	18
2.2.8	Diffusion of a New Technology.	18
2.2.9	Tenurial Arrangement and Technological Change in Agriculture	20
2.2.10	The Role of the Government.	20
2.2.11	The Distribution of Gains from Technological Change.	21
2.2.12	Evidences from Empirical Studies	21
2.2.13	The Indian Experience	23
2.2.14	Summary	24

2.3	Modern Technology, Input Related Risk and Estimation of Production Functions	26
2.3.1	The Estimation Procedure	27
2.3.2	The Empirical Estimation of Production Functions	29
2.3.3	Source of Data	30
2.3.4	Methodology of Data Collection	31
2.3.5	Summary Statistics.	32
2.3.6	Estimation of Production Functions for HYV Paddy in the Dry and Rainy Seasons	33
2.3.7	Estimation of Production Functions for HYV Paddy Under Different Irrigation Systems in the Dry Season	36
2.3.8	Estimation of Production Function for Aman (Traditional) Paddy in the Rainy Season	39
2.3.9	Summary	40
2.4	Uncertainty in Production, Risk Preference and Adoption of a New Technology in Agriculture—A Theoretical Framework	40
2.4.1	The Optimal Allocation of Land and Risk-Aversion	43
2.4.2	The Relation Between Farm Size and Adoption of a New Technology.	44
2.4.3	Extension of the Result.	47
2.4.4	The Credit Constraint and the Optimal Allocation of Land to Modern Cultivation	47
2.4.5	An Extension	48
2.4.6	Irrigation and Adoption of a New Technology in Agriculture	49
2.4.7	Adoption of High-Yielding Variety (HYV) Technology—The Indian Experience	52
2.4.8	Explanations for the Adoption of High-Yielding Variety Technology in the Dry Season	53
2.4.9	Explanations for Adoption of High-Yielding Variety in Paddy Cultivation in the Rainy Season	57
2.4.10	Irrigation and the Adoption of HYV Technology at the National Level—A Time Series Analysis	58
2.4.11	Methodology of Analysis	59
2.4.12	Summary	62
2.5	Technological Change and Productivity Growth in Indian Agriculture	63
2.5.1	Technological Change and Productivity Growth—A Time Series Analysis	65
2.5.2	Summary	70
2.6	Technological Change, Productivity Growth and Resource Degradation	70
	References	74

3 Use of Water Resource and Sustainability of Growth in Agriculture	79
3.1 Introduction	79
3.2 Excess Depletion of Ground Water and Supply of Water as a Limiting Factor to Future Growth	80
3.2.1 Introduction	80
3.2.2 Extraction of Ground Water and Agricultural Growth.	82
3.3 Crop-Diversification for Water Conservation and Agricultural Growth.	91
3.3.1 Introduction	91
3.3.2 Agricultural Growth with Crop-Diversification and Ground Water Extraction	93
3.4 Role of Price in the Conservation of Water Resource in Agriculture: A Comparative Dynamic Analysis	104
3.4.1 Introduction	104
3.4.2 Ground Water Extraction for Agricultural Growth	106
3.5 Rain Water Harvest and Sustainable Agricultural Growth	117
3.5.1 Introduction	117
3.5.2 Over Exploitation of Ground Water and Unsustainable Agricultural Growth.	119
3.5.3 Summary	130
Appendix 1	131
Appendix 2	131
Appendix 3	132
Appendix 4	133
Appendix 5	133
Appendix 6	133
Appendix 7	134
Appendix 8	134
Appendix 9	135
Appendix 10	136
Appendix 11	136
Appendix 12	137
References	137
4 Soil Health and Sustainable Growth in Agriculture	141
4.1 Introduction	141
4.2 Intensive Cultivation, Land Degradation and the Problem of Sustainable Growth in Agriculture	142
4.2.1 Introduction	142
4.2.2 Agricultural Growth Using Chemical Inputs	146
4.2.3 Soil Degradation and Unsustainable Growth	149
4.2.4 Policy Intervention and Sustainable Growth	150
4.2.5 Summary	152

4.3	Public Intervention, Soil Treatment and Sustainable Agricultural Growth	152
4.3.1	Introduction	152
4.3.2	Soil Degradation and Unsustainable Agricultural Growth.	156
4.3.3	Policy Intervention, Soil Treatment and Sustainable Agricultural Growth	159
4.3.4	Comparative Statics	164
4.3.5	Stability of the Steady-State Equilibrium.	165
4.3.6	Empirical Verification.	167
4.3.7	Simulation on the Role of Organic Manure in Agricultural Growth	173
4.3.8	The Effects of Change in the Value of α and β on G_Q	174
4.3.9	Summary	176
	Appendix 1	176
	Appendix 2	177
	Appendix 3	177
	Appendix 4	177
	References	178
5	Uses of Land, Agricultural Price and Food Security	181
5.1	Introduction	181
5.2	Land Use and Food Security in a Two-Sector General Equilibrium Model.	182
5.2.1	Introduction	182
5.2.2	Production of Food in a Two-Sector General Equilibrium Framework	184
5.2.3	Effect on Food Security	187
5.2.4	Technological Change in the Food Sector.	189
5.2.5	Capital Intensive Food Sector	191
5.2.6	Specific Factor Trade Model and Effect on Factor Income.	192
5.2.7	Summary	194
5.3	Public Investment and Production of Foodgrains in India	195
5.3.1	Introduction	195
5.3.2	Public Investment and Agricultural Production—A Theoretical Note	196
5.3.3	Empirical Evidences.	197
5.3.4	Time Series Analysis	199
5.3.5	Summary	202
5.4	Food Price, Food Security and the Poor	203
5.4.1	Introduction	203
5.4.2	Agricultural Price in a Two-Sector General Equilibrium Model—A Theoretical Framework	205

5.4.3	Empirical Evidences and Econometric Results	209
5.4.4	Time Series Analysis	214
5.4.5	Consumption of Food and the Poor	220
5.4.6	The Effect of Price on Food Security— A Theoretical Exposition	221
5.5	Policy Intervention and Managing the Food Economy	224
5.5.1	Introduction	224
5.5.2	Agricultural Prices—An Analytical Framework	226
5.5.3	Empirical Evidences.	228
5.5.4	Time Series Analysis	228
5.5.5	Summary	232
	Appendix	233
	References	234
6	Frontiers of Technology, Natural Resources and Sustainable Growth	237
6.1	Introduction	237
6.2	Future Potential of Ground Water Irrigation in India	239
6.3	Scope for Utilizing Surface Water	241
6.4	Technology for Increasing Productivity of Water— A Theoretical Exposition	242
6.5	Reference of Some Important Studies.	243
6.6	Summary	246
	References	246
7	Summary and Conclusions.	249
7.1	Objectives and Scheme.	249
7.2	Analysis and the Findings.	253
7.3	Conclusions	261
	Index	263

Resources, Technology and Sustainability
An Analytical Perspective on Indian Agriculture

Sasmal, J.

2016, XXIII, 269 p. 32 illus., Hardcover

ISBN: 978-981-10-0894-8
