<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Look Back on Optical Digital Data Storage	3
1.1.1	Progress of Digital Data Storage	3
1.1.2	From VCD to Blu-Ray Disc	10
1.2	Research and Development of Optical Storage in China	16
1.2.1	Multi-wavelength and Multilevel Storage	18
1.2.2	Volume Holographic Storage	21
1.2.3	Near-Field Optical Storage	23
1.2.4	Big Data Storage System Integration	25
1.2.5	New Storage Materials and Medium	29
1.2.6	Chinese Blue High Density Disc	31
1.3	The Advanced Efforts for Multi-dimension Optical Storage	31
1.3.1	3-Dimension (3D) Optical Storage	31
1.3.2	5-Dimensional Optical Storage	32
1.3.3	Negative Refraction Index Materials Application to SIL 3-Dimensional Storage	33
1.3.4	The Higher Order Radially Polarized Beams Application in SIL	35
1.3.5	Other Schemes for Multi-value Optical Storage	36
1.4	Frontier Science and Technologies Related to Optical Storage	38
1.4.1	Ultraviolet Optical Storage	40
1.4.2	Plasmonic Optical Storage	40
1.4.3	X-Ray Storage	41
1.4.4	Nanoprobe and Molecular Polymer Storage	42
1.4.5	Molecular Polymer Storage	42
1.4.6	Persistent Spectral Holeburning	43
1.4.7	Coherent Transient Memory	44
1.4.8	Molecular Storage	45
1.4.9	All-Optical Magnetic Recording	45
1.4.10	Electronic Quantum Holography	46
1.4.11	Scanning Electron Beam Record	47

1.4.12	3D Integration Solid State Memory . . . . .	47
1.4.13	Spintronics Data Storage . . . . .	49
1.4.14	Two-Photon 3D Optical Memory. . . . .	50
1.4.15	Macromolecular Data Storage . . . . .	51
1.4.16	3D Micron Ships Phase-Change Memory . . . . .	52
1.4.17	Compositive Application of the Different Principles . . . . .	54
1.5	Big Data Storage and Application . . . . .	55
1.5.1	Cloud Storing . . . . .	56
1.5.2	EB-Scale Distributed Storage . . . . .	60
1.5.3	Air Traffic Management . . . . .	63
1.5.4	Data Exploitation and Communications (DEC) . . . . .	65
1.5.5	China Knowledge Resource Integrated Database . . . . .	67
