1	Overview	1
1.1	Introduction	1
1.2	Background of the Problem	2
1.3	Statement of the Problem	3
1.4	Research Questions	3
1.5	Research Objectives	4
1.6	Methodology	4
1.7	Scope of Research	5
1.8	Significance of the Research	6
1.9	Structure of the Study	6
	References	8
2	The Energy Sector in Nigeria	9
2.1	A Brief History on the Nigerian Power Sector	9
2.2	The Nigerian Energy Resources	11
2.2.1	Conventional Energy Resources	12
2.2.2	Non-conventional Energy Resources (Renewable Energy)	26
2.3	Primary Energy Supply in Nigeria	40
2.4	Primary Energy Consumption	41
2.5	Relevant Government Ministries, Parastatals and Agencies in the Nigerian Energy Sector and Their Roles	44
2.5.1	The Energy Commission of Nigeria (ECN)	44
2.5.2	Federal Ministry of Environment (FME)	45
2.5.3	Federal Ministry of Lands, Housing, and Urban Development (FMLHUD)	46
2.5.4	Federal Ministry of Power (FMP)	47
2.5.5	Federal Ministry of Water Resources (FMWR)	47
2.5.6	National Power Training Institute of Nigeria (NAPTIN)	47
2.5.7	Nigerian Bulk Electricity Trading Plc. (NBET)	48
2.5.8	Nigerian Electricity Regulatory Commission (NERC)	48

2.5.9	Nigerian National Petroleum Corporation (NNPC)	48
2.5.10	Presidential Taskforce on Power (PTFP)	49
2.5.11	Rural Electrification Agency of Nigeria (REA)	49
2.5.12	Standards Organization of Nigeria (SON)	50
2.5.13	Council for Renewable Energy in Nigeria (CREN)	50
2.5.14	Green Building Council of Nigeria (GBCN)	51
2.6	Nigerian Energy Policies and Strategies	51
2.6.1	National Electric Power Policy (NEPP), 2001	51
2.6.2	National Energy Policy (NEP) (2003), (2006), (2013)	52
2.6.3	National Economic Empowerment and Development Strategy (NEEDS) (2004)	53
2.6.4	National Power Sector Reform Act (EPSRA), 2005	53
2.6.5	Renewable Electricity Policy Guidelines (REPG) 2006	54
2.6.6	Renewable Electricity Action Programme (REAP) (2006)	55
2.6.7	Nigerian Biofuel Policy and Incentives (NBPI) (2007)	55
2.6.8	Nigerian Gas Master Plan (NGMP) 2008	56
2.6.9	Roadmap for Power Sector Reform (A Customer-Driven Sector-Wide Plan to Achieve Stable Power Supply 2010) and (Revision 1, 2013).	57
2.6.10	Renewable Energy Master Plan (REMP) (2005), (2012)	58
2.6.11	National Renewable Energy and Energy Efficiency Policy (NREEEP) (2014)	58
2.6.12	Multi-year Tariff Order (MYTO), 2008 and 2012	60
2.6.13	Draft Rural Electrification Strategy and Implementation Plan (RESIP) (2014).	61

6	Conclusion and Policy Recommendations	187
6.1	Conclusion	187
6.2	Policy Recommendations.	188
6.3	Limitations and Suggestions for Further Study	191

Appendix A: Projections	193
Appendix B: Datasets Used in the Development of Nigeria LEAP Model	201
Appendix C: Sectorial Energy Demand by Scenarios	217
Appendix D: Primary and Secondary Energy Supply by Scenarios	233
Appendix E: Total Electricity Supply by Scenarios	237
Appendix F: Total Electricity Demand, Supply and Primary Resources Requirements by Scenarios	241
Appendix G: Green House Gas (GHG) Emissions by Scenarios	243
Appendix H: Energy Balance by Scenarios	247
Appendix I: Results for Least-Cost Electricity Generation	253
Index	265

Energy Policies for Sustainable Development Strategies

The Case of Nigeria

Emodi, N.V.

2016, XVII, 265 p. 85 illus., Hardcover

ISBN: 978-981-10-0973-0
