1	Introduction	1
	References	11
2	Ambiguity, Robustness, and Contract Design	15
2.1	A Model of Ambiguity Aversion	18
2.2	Equilibrium Theory and Ambiguity	20
2.3	Ambiguity Aversion and the Myerson-Satterthwaite Theorem	23
2.4	Ambiguity Aversion, Moral Hazard, and Contractual Incompleteness	26
2.5	Some Other Economic Effects of Pessimism	29
2.5.1	Robustness and Linear Contracts: Uncertainty Over Agent's Actions	30
2.5.2	Monetary Equilibria with Wary Agents	31
2.6	Concluding Remarks	32
	References	33
3	Evolution of Preferences, Social Norms, and Decision Rules	35
3.1	Evolution of Preferences	35
3.1.1	Evolution of Optimal Preferences Under Bounded Rationality	37
3.2	Evolution of Decision Rules	38
3.3	Evolution of Social Norms	41
3.3.1	Evolution of Conventions with Mobile Players and Spatially Homogeneous Payoffs	43
3.4	On Coevolution of Preferences, Social Norms, and Decision Rules	53
	References	55
4	Complexity Constraints and Optimal Contracts	57
4.1	A Model of Computational Complexity	58
4.1.1	A Formal Model	59
4.2	A Model of Linguistic Complexity	62

4.3	Complexity as the Number of Unforeseen Contingencies	64
4.4	Complexity and Economics: A Summary	67
	References	68
5	Probabilistic Choice and Optimal Contracts	69
5.1	Trembling Hands and Optimal Screening	69
5.2	Nonlinear Pricing Under Bounded Rationality	72
5.2.1	Mussa and Rosen Model Revisited	73
5.2.2	Introducing Bounded Rationality in the Mussa and Rosen Model	75
5.3	Bounded Rationality and the Revelation Principle	81
5.3.1	A Model of Boundedly Rational Behavior	84
5.3.2	The Optimal Menu of Contracts and a Comparison with Some Other Mechanisms	85
5.4	Oligopoly, Bounded Rationality, and Optimal Obfuscation	88
5.4.1	The Bertrand Model with Boundedly Rational Consumers	90
5.5	Emotional Temperature and the Power of Optimal Incentives	93
5.5.1	Optimal Emotional Temperature	95
5.5.2	Effect of Emotional Temperature on the Power of Optimal Incentives.	98
5.6	All-Pay Auctions with Boundedly Rational Bidders	102
	References	105
6	Bounded Rationality, Learning, and Optimal Contracts	107
	References	116
7	Social Norms and Optimal Contracts	119
7.1	A Model of Reciprocal Wage Setting.	121
7.1.1	An Evolutionary Model of Reciprocity	124
7.2	When to Hire a Local?	128
7.3	Optimal Contracting Model in a Social Environment and Trust-Related Psychological Costs	132
7.4	High-Performance Work Systems and Interaction-Based Approach to Socioeconomic Behavior	137
7.5	Social Norms and Incentives: What Have We Learned?	144
	References	145
8	Miscellaneous Models	147
8.1	Monopoly Pricing with Viscous Demand and Customer Turnover	149
8.1.1	A Model of Viscous Demand	150
8.1.2	The Customer Turnover Rate and the Monopolist's Profits	154
8.2	Auctions with Opportunistic Experts	155
8.2.1	The Model	157

8.3	A Model of Boundedly Rational Addiction	159
8.3.1	The Model	160
8.3.2	Unique Asymptotically Stable Steady State	162
8.3.3	The Run-Away Regime	162
8.3.4	Multiple Steady States	163
8.3.5	Discussion of Empirical Evidence	163
8.3.6	Switching Regimes and Policy Applications	164
	References	166
9	Conclusions and Directions for Further Research	169
	References	175
