| | | |
|----------|--|-----------|
| 1 | Introduction | 1 |
| 2 | Energy Conservation in Japan | 7 |
| 2.1 | Energy Conservation Policies in Japan | 7 |
| 2.2 | Energy Conservation in the Residential Sector | 10 |
| 2.3 | Security of the Electricity Supply After Fukushima | 13 |
| 2.4 | Conclusion | 16 |
| | References | 17 |
| 3 | Consumer Response to Critical Peak Pricing of Electricity and Conservation Requests | 19 |
| 3.1 | Introduction | 19 |
| 3.2 | Experimental Design and Data | 21 |
| 3.2.1 | CPP Experiments | 22 |
| 3.2.2 | CR Experiments | 24 |
| 3.2.3 | Sample Construction and Randomization Tests | 24 |
| 3.2.4 | Time-of-Day Electricity Consumption | 26 |
| 3.3 | Estimation Results | 29 |
| 3.3.1 | LA/AIDS Model | 29 |
| 3.3.2 | Conservation Effects on Residential Peak Usage of Electricity | 32 |
| 3.4 | Discussion | 38 |
| 3.5 | Conclusion | 39 |
| | Appendix: Estimation of the Elasticity of Total Electricity Demand with Respect to the Electricity Price Index | 40 |
| | References | 42 |
| 4 | Effects of In-home Displays on Residential Electricity Consumption | 45 |
| 4.1 | Introduction | 45 |
| 4.2 | Learning Through Attention in the Presence of Biased Beliefs About Consumption | 48 |

| | | |
|----------|--|-----------|
| 4.3 | Experimental Design and Data | 52 |
| 4.3.1 | IHD Experiments | 52 |
| 4.3.2 | Randomization Tests | 54 |
| 4.3.3 | Information Acquisition and Electricity Consumption. | 57 |
| 4.4 | Estimation Results | 59 |
| 4.4.1 | Econometric Model of Time-of-Day Electricity Consumption | 59 |
| 4.4.2 | Effects of Consumption Salience in the Initial Experiment. | 63 |
| 4.4.3 | Persistence of Consumption Salience and Learning Effects: Evidence from the Second Experiment | 65 |
| 4.4.4 | Heterogeneous Effects of Salience and Learning | 67 |
| 4.5 | Discussion | 70 |
| 4.6 | Conclusion | 72 |
| | Appendix: Additional Estimation Results | 73 |
| | References | 77 |
| 5 | Energy-Saving Effects of Home Energy Reports | 81 |
| 5.1 | Introduction | 81 |
| 5.2 | Experimental Design and Data | 83 |
| 5.3 | Estimation Results | 87 |
| 5.3.1 | Econometric Model of Half-Hourly Electricity Consumption | 87 |
| 5.3.2 | Conservation Effects of HERs. | 88 |
| 5.3.3 | Hourly Effects of HERs | 90 |
| 5.3.4 | Persistence in the Conservation Effects of HERs | 93 |
| 5.4 | Conclusion | 96 |
| | Appendix: Additional Estimation Results | 97 |
| | References | 98 |
| 6 | Regional Impacts of Energy Conservation Policies | 99 |
| 6.1 | Introduction | 99 |
| 6.2 | Methodology and Data. | 101 |
| 6.2.1 | CPP and IHD Scenario | 101 |
| 6.2.2 | HER Scenario. | 103 |
| 6.3 | Regional Impacts of CPP, IHDs, and HERs | 104 |
| 6.4 | Conclusion | 108 |
| | References | 109 |

Consumer Energy Conservation Behavior After
Fukushima

Evidence from Field Experiments

Matsukawa, I.

2016, X, 110 p. 18 illus., 7 illus. in color., Softcover

ISBN: 978-981-10-1096-5
