Contents

Part I FMEA and Its Improvements

1 FMEA 3
1.1 The Traditional FMEA 3
1.2 The Procedure of FMEA. 5
1.3 The Terminology in FMEA. 9
1.4 Shortcomings of the Traditional FMEA 10
References 11

2 FMEA Using Uncertainty Theories and MCDM Methods 13
2.1 Research Methodology 13
2.2 MCDM Methods for FMEA 15
2.2.1 Distance-Based MCDM Methods 15
2.2.2 Compromise Ranking MCDM Methods 16
2.2.3 Outranking MCDM Methods. 17
2.2.4 Pairwise Comparison MCDM Methods. 17
2.2.5 Other MCDM Methods. 18
2.2.6 Hybrid MCDM Methods. 20
2.3 Bibliometric Analysis 20
References 24

Part II FMEA Based on Distance-Based MCDM Methods

3 FMEA Using Intuitionistic Fuzzy Hybrid Weighted Euclidean Distance Operator 31
3.1 Preliminaries 31
3.1.1 Intuitionistic Fuzzy Sets 31
3.1.2 The IFWA Operator 33
3.1.3 The OWA Operator 33
3.1.4 The IFWED and the IFOWED Operators 34
3.1.5 The IFHWED Operator. 35
3.2 The Proposed FMEA Approach 36

3.3 An Illustrative Example 40
3.3.1 Implementation 40
3.3.2 Sensitivity Analysis 42
3.3.3 Comparisons and Discussion 43
References 45

4 FMEA Using Interval 2-Tuple Hybrid Weighted Distance Measure 47
4.1 Preliminaries 47
4.1.1 2-Tuple Linguistic Variables 47
4.1.2 Interval 2-Tuple Linguistic Variables 48
4.2 Interval 2-Tuple Linguistic Hybrid Weighted Distance Measure 50
4.3 The Proposed FMEA Model 52
4.4 An Illustrative Example 55
4.4.1 Implementation 55
4.4.2 Sensitivity Analysis 61
4.4.3 Comparison and Discussion 62
References 64

5 FMEA Using Fuzzy Evidential Reasoning and GRA Method 67
5.1 Fuzzy Evidential Reasoning Approach 67
5.2 The GRA Method 73
5.3 An Illustrative Example 75
References 80

6 FMEA Using D Numbers and Grey Relational Projection Method 83
6.1 D Numbers 83
6.2 The Proposed Model for FMEA 86
6.3 An Illustrative Example 92
6.3.1 Implementation 92
6.3.2 Comparisons and Discussion 95
References 96

Part III FMEA Based on Compromise Ranking MCDM Methods

7 FMEA Using Fuzzy VIKOR Method 101
7.1 Fuzzy Set Theory and VIKOR Method 101
7.1.1 Fuzzy Set Theory 101
7.1.2 The VIKOR Method 105
7.2 The Proposed FMEA Model 107
7.3 An Illustrative Example 109
7.3.1 Application 109

7.3.2 Comparisons and Discussion . . . 111
7.3.3 Model Verification . . . 115
References . . . 116

8 FMEA Using Intuitionistic Fuzzy Hybrid TOPSIS Approach . . . 117
8.1 Preliminaries . . . 117
8.2 The Proposed FMEA Approach . . . 117
8.3 An Illustrative Example . . . 121
8.3.1 Implementation . . . 121
8.3.2 Sensitivity Analysis . . . 124
8.3.3 Comparisons and Discussion . . . 127
References . . . 130

Part IV FMEA Based on Other MCDM Methods

9 FMEA Using Fuzzy DEMATEL Technique . . . 133
9.1 Fuzzy Sets and Fuzzy DEMATEL . . . 133
9.1.1 Fuzzy Sets . . . 133
9.1.2 Fuzzy DEMATEL . . . 135
9.2 The Proposed FMEA Model . . . 137
9.3 An Illustrative Example . . . 140
9.3.1 Implementation . . . 140
9.3.2 Comparisons and Discussion . . . 147
References . . . 149

10 FMEA Using Fuzzy Digraph and Matrix Approach . . . 151
10.1 Fuzzy Sets . . . 151
10.2 Risk Factor Fuzzy Digraph and Matrix Representation . . . 152
10.3 The Proposed Model for FMEA . . . 153
10.4 An Illustrative Example . . . 158
10.4.1 Implementation . . . 158
10.4.2 Comparisons and Discussion . . . 162
References . . . 164

11 FMEA Using Fuzzy MULTIMOORA Method . . . 165
11.1 Fuzzy Set Theory and MULTIMOORA Method . . . 165
11.1.1 Fuzzy Set Theory . . . 165
11.1.2 The MULTIMOORA Method . . . 166
11.2 The Proposed Model for FMEA . . . 167
11.3 An Illustrative Example . . . 171
11.3.1 Implementation . . . 171
11.3.2 Sensitivity Analysis . . . 174
11.3.3 Comparisons and Discussion . . . 175
References . . . 179

Part V FMEA Based on Hybrid MCDM Methods

12 FMEA Using Combination Weighting and Fuzzy VIKOR Method 183
12.1 Preliminaries 183
12.1.1 Fuzzy Set Theory 183
12.1.2 Fuzzy AHP Method 184
12.1.3 Shannon Entropy 186
12.1.4 Fuzzy VIKOR Method 187
12.2 The Proposed FMEA Approach 189
12.3 An Illustrative Example 191
12.3.1 Implementation 192
12.3.2 Sensitivity Analysis 195
12.3.3 Comparisons and Discussion 196
References 198

13 FMEA Combining VIKOR, DEMATEL, and AHP Methods 199
13.1 The Proposed FMEA Model 199
13.1.1 The VIKOR Method for Determining Failure Effects 200
13.1.2 The DEMATEL Technique for Building IRM 202
13.1.3 The AHP Approach for Ranking Failure Modes 204
13.2 An Illustrative Example 205
13.2.1 Implementation 205
13.2.2 Comparisons and Discussion 211
References 212
