

Contents

1	Introduction	1
1.1	Skeletal Transformation	2
1.1.1	Thermal Cage Rearrangement	2
1.1.2	Deboronation	2
1.1.3	Reductive Cage Opening	3
1.2	Boron Substitution	4
1.2.1	Electrophilic Substitution	4
1.2.2	Nucleophilic Substitution	4
1.2.3	Direct B–H Bond Functionalization	5
1.2.4	Carbene/Carbenoid Insertion of B–H Bond	5
1.3	Carbon Substitution	6
1.3.1	Nucleophilic Substitution	6
1.3.2	Transmetalation	6
1.3.3	Lithium–Halogen Exchange	7
1.4	Dehydrogenation to <i>o</i> -Carboryne	7
1.4.1	Generation and Trapping of <i>o</i> -Carborynes	8
1.4.2	Reactivity	10
1.4.3	Transition Metal–Carboryne Complexes	19
1.4.4	Bonding and Structure	20
1.5	Research Objectives	21
	References	21
2	Regioselective Insertion of <i>o</i>-Carborynes into α-C–H Bond of Tertiary Amines	29
2.1	Introduction	29
2.2	Reaction of <i>o</i> -Carborynes with Tertiary Amines	30
2.3	Mechanistic Studies on α -Carboranylation of Amines	34
2.4	DFT Calculations on α -Carboranylation of Amines	37
2.5	Summary	43
	References	43

3	Synthesis of Carborane-Functionalized Heterocycles: Dearomative [2 + 2] Cycloaddition and sp^2 C–H Insertion	
	Reaction	47
3.1	Introduction	47
3.2	Reaction of <i>o</i> -Carboryne with <i>N</i> -TMS Indoles.	49
3.3	Effects of <i>N</i> -Substituents	50
3.4	Reaction of <i>o</i> -Carborynes with <i>N</i> -Methyl Indoles	53
3.5	Reaction of <i>o</i> -Carboryne with Other <i>N</i> -Heterocycles	53
3.6	Transformation of [2 + 2] Cycloadducts	54
3.7	Mechanistic Study	56
3.8	Summary	62
	References	70
4	Reaction of <i>o</i>-Carboryne with Nitrones: A Formal [5 + 2] Cycloaddition	73
4.1	Introduction	73
4.2	Reaction of <i>o</i> -Carboryne with Nitrones	74
4.3	Mechanistic Studies	79
4.4	Summary	82
	References	83
5	1,3-Dehydro-<i>o</i>-Carborane: Generation and Reaction with Arenes	87
5.1	Introduction	87
5.2	Generation of 1,3-Dehydro- <i>o</i> -Carborane: Precursor Design	89
5.3	3-($\text{N}_2^+\text{BF}_4^-$)- <i>o</i> -C ₂ B ₁₀ H ₁₁ : A More Efficient Precursor	90
5.4	Reactivity of 1,3-Dehydro- <i>o</i> -Carborane Toward Arenes	91
5.5	Thermal Rearrangement	94
5.6	Summary	100
	References	100
6	Ene Reaction of 1,3-Dehydro-<i>o</i>-Carborane	103
6.1	Introduction	103
6.2	Ene Reaction of 1,3-Dehydro- <i>o</i> -Carborane: Reactivity Toward Alkenes	105
6.3	Ene Reaction of 1,3-Dehydro- <i>o</i> -Carborane: Reactivity Toward Alkynes	109
6.4	Mechanistic Study	109
6.5	Summary	113
	References	113
7	Cage Boron Arylation of <i>o</i>-Carborane via Metal-Free, Visible-Light-Mediated Radical Coupling	117
7.1	Introduction	117
7.2	B(3)-Arylation of <i>o</i> -Carborane: A Radical Approach	118

7.3 Mechanistic Study	121
7.4 Summary	123
References	124
8 Conclusion	127
Experimental Section	131

Functionalization of Carborane via Carboryne
Intermediates

Zhao, D.

2016, XVII, 170 p. 126 illus., 5 illus. in color., Hardcover

ISBN: 978-981-10-1568-7
