

Contents

1	Introduction	1
1.1	Research Questions	1
1.2	Firm Researched	2
1.3	Products, Production Volume Ratios, and Production Lines	3
1.4	Research Debates	7
2	The Mother Plant in Japan and Its Transplant in the United States	11
2.1	Research Questions	11
2.2	Research Method	12
2.3	Overview of Plants Researched	14
2.4	Productivity Differences	17
2.5	The Japanese Mother Plant	19
2.5.1	The Reinforcement of Production Workers' Skills, Supervisors' Control, and Manufacturing Engineers' Roles	19
2.6	The U.S. Transplant	24
2.6.1	The Introduction of Production Expert Positions and the Expansion of Manufacturing Engineers' Roles	24
2.6.2	The Difficulty in Enhancing Employees' Skills and Modifying Their Roles	27
2.7	Summary	29
3	The Transplants in Thailand and China	31
3.1	Research Questions	31
3.2	Research Method	32
3.3	Overview of Plants Researched	33
3.4	Productivity Differences	35

3.5	The Thai Transplant.	35
3.5.1	New Supporting Roles of Thai Manufacturing Engineers in Other ASEAN Transplants.	35
3.5.2	Employees' Skills and Roles on Traditional Assembly Lines	36
3.6	The Chinese Transplant	41
3.6.1	Productivity Goals of the Thai Transplant	41
3.7	Summary	44
4	Conclusion	45
4.1	Limited Convergence Among the Four Plants	45
4.1.1	Productivity, Production Workers' Skills, and Assistant First-Line Supervisors' Control	47
4.1.2	Manufacturing Engineers' Roles	49
4.2	Causes of Differences Among the Four Plants.	52
4.3	Implications for Future Research	55
	References	57

Explaining Productivity Differences
Comparative Analysis of Automotive Plants in Japan, the
United States, Thailand and China

Shibata, H.

2016, XI, 59 p. 1 illus., Softcover

ISBN: 978-981-10-1958-6
