Requirements Traceability and Prioritization

Ensuring Traceability in Modeling Requirement Using Ontology Based Approach	3
<i>Theresia Ratih Dewi Saputri and Seok-Won Lee</i>	
Situation-Oriented Evaluation and Prioritization of Requirements	18
<i>Nimanthi L. Atukorala, Carl K. Chang, and Katsunori Oyama</i>	
Requirements Prioritization Decision Rule Improvement for Software Product Line Evolution	34
<i>Mari Inoki and Takayuki Kitagawa</i>	

Requirements Modeling and Process for Quality

Incorporating Sustainability Design in Requirements Engineering Process: A Preliminary Study	53
<i>Theresia Ratih Dewi Saputri and Seok-Won Lee</i>	
MOYA: Model-Oriented Methodology for Your Awareness	68
<i>Jun Hagiwara and Shinobu Saito</i>	
2-dip-dfs: Algorithm to Detect Conflict Between Two Goal Selection Criteria	79
<i>Shin'ichi Sato</i>	

Requirements Validation

Automated Support to Capture and Validate Security Requirements for Mobile Apps	97
<i>Noorrezam Yusop, Massila Kamalrudin, Safiah Sidek, and John Grundy</i>	
A Template-Based Test-Authoring Tool to Write Quality Tests for Requirements Validation	113
<i>Nor Aiza Moketar, Massila Kamalrudin, Safiah Sidek, Suriati Akmal, and Mark Robinson</i>	

Requirements Analysis

A Digital Business Analysis Method: A Business Requirements Engineering Process by the Cooperation of Management, Business Operation and IT Department 123
Ichiro Yamaguchi, Masanobu Furukawa, Mikio Aoyama, and Yasuhiro Kikushima

Integrated Framework for Software Requirements Analysis and Its Support Tool 132
Andre Rusli and Osamu Shigo

Author Index 141

Requirements Engineering Toward Sustainable World
Third Asia-Pacific Symposium, APRES 2016, Nagoya,
Japan, November 10-12, 2016, Proceedings
Lee, S.-W.; Nakatani, T. (Eds.)
2016, XXIV, 141 p. 66 illus., Softcover
ISBN: 978-981-10-3255-4
