

Contents

Requirement and Model

An Analysis Pattern Driven Analytical Requirements Modeling Method.	3
<i>Jingjing Ji and Rong Peng</i>	
An Extended TASM-Based Requirements Modeling Approach for Real-Time Embedded Software: An Industrial Case Study.	19
<i>Jin-Hui Shan, Hai-Yan Zhao, Jin-Bo Wang, Rui-Xue Wang, Cheng-Lin Ruan, and Zhe-Xi Yao</i>	
A Simulation Approach for SIGNAL Time Model Concern on Multi-clock System.	35
<i>Zi Wang, GuoHua Shen, ZhiQiu Huang, Jia Si, and Cheng Pan</i>	
Improving Automatic Identification of Outdated Requirements by Using Closeness Analysis Based on Source Code Changes	52
<i>Hongyu Kuang, Jia Nie, Hao Hu, and Jian Lü</i>	
User Query Optimisation: A Creative Computing Approach	68
<i>Xuan Wang and Hongji Yang</i>	

Analysis and Testing

An Abstract Domain Based on Two-Interval Difference-Bound Matrices	81
<i>Zewen Ding, Zhiqiu Huang, and Chi Zhang</i>	
Analysis and Optimization of a Joint Redundancy and Inspection-Based Maintenance Strategy.	94
<i>Pan He, Gang Liu, Chun Tan, and Yue Yuan</i>	
An Efficient Algorithm to Identify Minimal Failure-Causing Schemas from Combinatorial Test Suite	109
<i>Qi Wang, Yuanchao Qi, Ziyuan Wang, and Chiya Xu</i>	
Evaluating Human-Assessed Software Maintainability Metrics	120
<i>Celia Chen, Reem Alfayez, Kamonphop Srisopha, Lin Shi, and Barry Boehm</i>	
Precise Heap Differentiating Using Access Path and Execution Index	133
<i>Tianxiao Gu, Ruiqi Liu, Xiaoxing Ma, and Zelin Zhao</i>	

Framework and System

A Developer Recommendation Framework in Software Crowdsourcing Development	151
<i>Wei Shao, Xiaoning Wang, and Wenpin Jiao</i>	
Festra: A Feature Based Microscopic Sandstone Images Classification Method Using Transfer Learning.	165
<i>Na Li, Danru Wang, Qing Gu, Huizhen Hao, and Daoxu Chen</i>	
HDID: An Efficient Hybrid Docker Image Distribution System for Datacenters	179
<i>Mingyuan Liang, Siqi Shen, Dongsheng Li, Haibo Mi, and Feng Liu</i>	
RMP: An Element-Level and Graph-Level Combined Ontology Matching Framework.	195
<i>Yiting Zhang, Cheng Xie, Haojian Zhong, Lihong Jiang, and Hongming Cai</i>	
Temporal Test Generation for Embedded System Based on Correlation Analysis of Timing Constraints.	211
<i>Bo Wang, Xiaoying Bai, Wenguang Chen, and Xiaoyu Song</i>	
Author Index	227

Software Engineering and Methodology for Emerging
Domains

15th National Software Application Conference, NASAC
2016, Kunming, Yunnan, November 3-5, 2016,
Proceedings

Zhang, L.; Xu, C. (Eds.)

2016, XII, 227 p. 74 illus., Softcover

ISBN: 978-981-10-3481-7
