

Contents

| | |
|--|----|
| 1 Storing Electricity | 1 |
| 1.1 Energy Storage and Flow Batteries | 1 |
| 1.2 Current Status of Zn/Br Systems | 2 |
| 1.3 The Future of Zn/Br RFB Research | 4 |
| 1.4 Organization of this Book | 5 |
| References | 5 |
| 2 Description of the Zn/Br RFB System | 11 |
| 2.1 Physical Architecture | 11 |
| 2.2 Electrolyte Composition | 12 |
| 2.3 Zn/Br Electrode Reactions | 17 |
| 2.4 Bromine Storage, Treatment and Toxicity | 19 |
| 2.5 Membrane Separator | 20 |
| 2.6 Accurate Determination of SoC | 21 |
| 2.7 Maximizing Practical Specific Energy of the System | 24 |
| 2.8 Moving from Bench Scale to Large/Utility Scale | 24 |
| References | 25 |
| 3 Revisiting Zinc-Side Electrochemistry | 29 |
| 3.1 The Case for Carbon-Based Electrodes | 29 |
| 3.2 Zinc-Side Electrode Kinetics and Mechanisms | 34 |
| 3.3 Boosting Electrode Processes Via Catalysis | 39 |
| References | 41 |
| 4 Zinc Electrodeposition Morphology | 45 |
| 4.1 Battery Performance Issues Due to Dendrite Formation | 45 |
| 4.2 Organic Additives as Functional Zinc Electroplating Agents | 50 |
| 4.3 Alternative Dendrite Control Strategies | 57 |
| References | 59 |

| | | |
|----------|---|----|
| 5 | Bromine-Side Electrode Functionality | 63 |
| 5.1 | Br ₂ /Br ⁻ Electrode Kinetics and Mechanisms | 63 |
| 5.2 | Redox Catalysis and Electrode Functionalization | 70 |
| | References | 77 |
| 6 | Strategies for Studying and Improving the Zn/Br RFB | 81 |
| 6.1 | Studies of Fundamental Physical and Electrochemical Processes | 81 |
| 6.2 | Roles and Suitability of EIS as a Tool for Studying and Improving the ZBB | 85 |
| 6.3 | Development of “Smart” Multifunctional Electrodes. | 87 |
| 6.4 | Addressing Non-uniformity of Zinc Deposition and De-plating. | 90 |
| 6.5 | Utilizing Maximum Energy Storage Capacity of Zn/Br Systems. | 91 |
| 6.6 | Conclusions and Outlook for Zn/Br RFB Technology | 94 |
| | References | 95 |

The Zinc/Bromine Flow Battery

Materials Challenges and Practical Solutions for
Technology Advancement

Rajaratnam, G.P.; Vassallo, A.M.

2016, XXI, 97 p. 31 illus., 26 illus. in color., Softcover

ISBN: 978-981-287-645-4
