

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Background	1
1.2	Statement of the Problem	3
1.3	Objective of the Study	5
1.4	Literature Review	5
1.4.1	Research on Water Conservation Policy Evaluation	5
1.4.2	Research on Reduction Working Capital Policy Evaluation	6
1.4.3	Research on Membrane Bioreactors (MBRs) Water Treatment Technology Evaluation	7
1.4.4	Research on Sewage Sludge Treatment Assessment	8
1.4.5	Research on Comprehensive Evaluation Model Based on Input–Output Table	9
	References	13
<b>2</b>	<b>Current Situation in the Study Area</b>	<b>17</b>
2.1	History and Relics	17
2.2	Natural Geography	18
2.3	Population and Nationalities	18
2.4	Economic Development	19
2.5	Finance Revenue and Expenditure	21
2.6	Sewage Generation and Treatment	22
2.7	Sewage Sludge Generation and Treatment Capacity	24
2.8	Water Quality	25
2.9	Energy Consumption and GHG Emission	26
2.10	Implications and Conclusions	27
	References	28
<b>3</b>	<b>Comprehensive Evaluation Model of Socio-Economic and Environmental Policies</b>	<b>29</b>
3.1	Concepts of Comprehensive Simulation Model	30
3.1.1	Classification of Water Pollutants	31

3.1.2	Classification of Water Pollutant Sources . . . . .	31
3.1.3	Subregions of Beijing . . . . .	32
3.1.4	Classification of GHG . . . . .	33
3.1.5	Integrated Policy for Water Pollutant Reduction. . . . .	34
3.1.6	New Technology . . . . .	34
3.2	Objective Function . . . . .	35
3.3	Water Pollutants Model . . . . .	36
3.3.1	The Framework of the Water Pollutants Model . . . . .	36
3.3.2	Specific Formulation of Water Pollutants Model . . . . .	37
3.4	Energy Model . . . . .	41
3.4.1	Framework of Energy Model . . . . .	41
3.4.2	Specific Formulation of Energy Model . . . . .	41
3.5	GHG Model . . . . .	45
3.5.1	Framework of GHG Model . . . . .	45
3.5.2	Specific Formulation of Energy Model . . . . .	45
3.6	Economic Model . . . . .	48
3.6.1	Policy Treatment for Nonpoint Sources. . . . .	48
3.6.2	Policy Treatment for Production Generation Sources . . . . .	48
3.6.3	Policy Treatment for New Sewage Plant Construction . . . . .	49
3.6.4	Policy Treatment for Sewage Sludge Construction . . . . .	51
3.6.5	Market Balance . . . . .	53
3.7	Case Setting . . . . .	54
	References . . . . .	55
<b>4</b>	<b>Comprehensive Simulation Results Analysis . . . . .</b>	<b>57</b>
4.1	Economic Effects . . . . .	57
4.1.1	Objective Function . . . . .	57
4.1.2	Change in GRP from 2010 to 2020 . . . . .	57
4.1.3	The Economic Impact of Technology Investment . . . . .	59
4.2	Environmental Impact. . . . .	59
4.2.1	Load of Water Pollutants . . . . .	59
4.2.2	GHG Emission Impact . . . . .	61
4.3	Energy Impact . . . . .	63
4.3.1	Energy Consumption Intensity . . . . .	63
4.3.2	Energy Consumption and Generation of Sewage Sludge Treatment . . . . .	64
4.4	Optimal Case Selection. . . . .	64
4.5	Regional Analysis . . . . .	66
4.5.1	Economic Development . . . . .	66
4.5.2	Water Pollutant Intensity. . . . .	66
4.5.3	Energy Consumption Intensity for Every Subregion in 2020. . . . .	68
4.5.4	GHG Emission Intensity for Every Subregion in 2020. . . . .	70

4.5.5	Optimal Subsidy for Every Subregion. . . . .	71
4.5.6	New Sewage and Sewage Sludge Plants Construction Plan. . . . .	72
4.5.7	Sewage and Sewage Sludge Treatment Trend for Every Subregions . . . . .	73
4.5.8	Potential for Sustainable Development . . . . .	75
4.6	Discussion and Conclusions . . . . .	75
	References . . . . .	77
<b>5</b>	<b>Conclusion.</b> . . . . .	<b>79</b>
5.1	Summary of Findings . . . . .	79
5.1.1	Analysis of Current Situation. . . . .	79
5.1.2	Comprehensive Evaluation of Socio-Economic and Environmental Policies with Using Advanced Technology for Sewage Sludge Treatment. . . . .	80
5.2	Potential Use of This Study for Policy-Making . . . . .	80
5.3	Suggestion for Further Work . . . . .	81
	<b>Appendix A</b> . . . . .	<b>83</b>
	<b>Appendix B</b> . . . . .	<b>87</b>
	<b>Appendix C</b> . . . . .	<b>89</b>

Environmental and Social-economic Impacts of Sewage  
Sludge Treatment

The Evidence of Beijing

Zhang, G.

2016, XVI, 90 p. 33 illus., 5 illus. in color., Softcover

ISBN: 978-981-287-947-9
