

# Contents

<b>1</b>	<b>Asset Price Dynamics and Stochastic Processes</b>	<b>1</b>
1.1	Asset Price Dynamics	1
1.2	Information and Data	3
1.2.1	Times Series Data	4
1.2.2	Cross-Sectional Data	4
1.2.3	Panel Data	5
1.3	Volatility	6
1.4	Trading Mechanisms	7
1.4.1	Limit Order Markets	7
1.4.2	Floor Markets	8
1.4.3	Dealer Markets	9
1.4.4	Auctions as Clearing Mechanisms	9
1.5	Price Prediction	10
1.5.1	Transparency	12
1.5.2	Liquidity	12
1.6	Prices and Returns	13
1.7	Analysis and Forecast Models	18
1.7.1	Regression Analysis	20
1.7.2	Analysis of Time Series	38
1.7.3	Random Walk	43
<b>2</b>	<b>Stylized Facts of Financial Markets and Bubbles</b>	<b>53</b>
2.1	Introduction to Stylized Facts	53
2.1.1	Definition	53
2.1.2	Asymptotic and Convergence	55

2.1.3	Modes of Convergence of Random Variables	57
2.2	Stylized Facts of Financial Markets	60
2.2.1	Introduction	60
2.2.2	Statistics of Financial Time Series	63
2.2.3	Returns	64
2.3	Stylized Facts of Bubbles	66
2.3.1	Introduction	66
2.3.2	Relationships Between Stylized Facts	68
<b>3</b>	<b>Introduction to Contagion and Bubbles</b>	<b>71</b>
3.1	Rational Choice Theory and Bayesian Learning Tools	75
3.1.1	Utility Maximization	78
3.1.2	Binary Prediction Tasks by Humans	79
3.1.3	Probability	80
3.2	Kolmogorov's Probability Calculus	82
3.2.1	Objectivism Versus Subjectivism	89
3.2.2	Frequentist Versus Bayesian Probability	89
3.2.3	Bayesian Inference	90
3.2.4	Bayes' Simple Form	94
3.2.5	Extended Form	96
3.2.6	Bayes' Theorem for Continuous Random Variables	97
3.3	Continuous Uniform Probability Spaces	98
3.3.1	Simple Form	99
3.3.2	Extended Form	100
3.3.3	Odds Form	100
<b>4</b>	<b>Rational Social Learning</b>	<b>103</b>
4.1	Introduction	103
4.1.1	The Binary Model	108
4.1.2	The Gaussian Model	111
4.2	Rational Social Learning—Opinion Creating	114
4.2.1	Martingales and Convergence of Beliefs	114
4.2.2	Rational and Non-rational Learning	117
4.2.3	Lux (2008) Work on Kirman's 1993 Model of Opinion Formation and Speculation	117
4.2.4	Youngsters and Old Timers in a Gaussian Model	124

<b>5</b>	<b>Bubbles</b>	129
5.1	Introduction to Bubbles	129
5.1.1	Present Value Review	132
5.1.2	Rational Bubbles: Simple Characterization	136
5.1.3	Stochastic Bubbles	138
5.2	Bubbles, Rational Expectations, and Financial Markets	140
5.2.1	The Birth of Rational Bubbles	140
5.2.2	The Variance of $p$	145
5.2.3	Stock Prices and Changes in Dividends	146
5.2.4	Fat Tails and Runs	148
5.3	Rational Bubbles: Rational Expectations Equilibrium (REE)	150
5.3.1	Speculation Under Rational Expectations	152
5.3.2	Diverse Information	153
5.3.3	Static Rational Expectations Equilibrium (REE)	153
5.3.4	Dynamic Speculation: Stock Market with Heterogeneous Information	154
5.3.5	Bubbles in Myopic REE Market with Heterogeneous Information	155
5.3.6	Fully Dynamic REE	156
5.4	The “No-Trade” Theorem Under Rational Expectations	157
5.4.1	Definition of REE	158
5.4.2	Proposition of a No-Trade Theorem	158
5.4.3	Asset Bubbles and Overlapping Generations	159
5.4.4	Bubbles and Fads in Asset Prices	160
5.4.5	Stock Prices and Social Dynamics	162
5.5	The Efficient Markets Hypothesis	163
5.6	The Theory of Rational Bubbles in Stock Prices	168
5.7	Explosive Rational Bubbles in Stock Prices	172
5.7.1	Empirical Evidence on Rational Bubbles	172
5.7.2	Market Inefficiencies: Noise Trader Risk	176
5.7.3	The Limits to Arbitrage	180
5.7.4	The Overpricing Hypothesis	183
5.7.5	Market Inefficiencies: Noise Trader Risk	184
5.8	Market Inefficiencies: Financial Intermediation	191
5.8.1	A Model for Credit	191

<b>xvi</b>	<b>Contents</b>	
5.9	Bubbles, Financial Instability and Financial Fragility	196
5.9.1	Equilibrium	196
5.9.2	Heterogeneous Beliefs: Static Model	198
5.9.3	Heterogeneous Beliefs: Dynamic Model in Discrete Time, Dynamic Speculation in Discrete-Time (Harrison and Kreps, 1978)	200
5.9.4	Heterogeneous Beliefs: Overconfidence and Speculative Bubbles	203
5.9.5	Asset Price Bubbles in Complete Markets	208
5.10	No Free Lunch with Vanishing Risk (NFLVR) Holds	215
5.10.1	No Free Lunch Vanishing Risk (NFLVR) and Full Theorem of Asset Pricing (FTAP)	217
5.11	Bubbles in Complete Markets	218
5.11.1	No Dominance	218
5.11.2	Fundamental Value in Complete Markets, the Framework for Modeling Bubbles	218
5.11.3	Bubbles in Complete Markets	219
5.11.4	Bubbles Decomposition Theorem	219
<b>6</b>	<b>Fundamental Versus Contagion Variables to Explain Returns</b>	<b>231</b>
6.1	Data and Methodology	240
6.2	Methodology	243
6.2.1	Pooled OLS Estimation	245
6.2.2	Random and Fixed Effects Estimation	246
6.2.3	Quantile Regression	248
6.3	Results	249
6.4	Conclusion	256
<b>Index</b>		<b>259</b>

Bubbles and Contagion in Financial Markets, Volume 2  
Models and Mathematics

Porras, E.

2017, XXI, 266 p. 30 illus., Hardcover

ISBN: 978-1-137-52441-6

A product of Palgrave Macmillan UK
