<i>Preface</i>	<i>v</i>
<i>Contributors</i>	<i>xi</i>
PART I INTRODUCTION	
1 Historical Perspectives and Current Challenges in Cell Microencapsulation . . . <i>Paul de Vos</i>	3
2 Applications of Cell Microencapsulation <i>Emmanuel C. Opara</i>	23
PART II APPROACHES TO CELL MICROENCAPSULATION	
3 Cell Microencapsulation: Dripping Methods <i>A. Bidoret, E. Martins, B. Poncelet De Smet, and D. Poncelet</i>	43
4 Field Effect Microparticle Generation for Cell Microencapsulation <i>Brend Ray-Sea Hsu and Shin-Huei Fu</i>	57
5 Microfluidic Approach to Cell Microencapsulation <i>Varna Sharma, Michael Hunckler, Melur K. Ramasubramanian, Emmanuel C. Opara, and Kalyan C. Katuri</i>	71
PART III BIOMATERIALS AND ENABLING TECHNOLOGIES IN CELL MICROENCAPSULATION	
6 Polymeric Materials for Cell Microencapsulation <i>A. Aijaz, D. Perera, and Ronke M. Olabisi</i>	79
7 Polymeric Materials for Perm-Selective Coating of Alginate Microbeads <i>William F. Kendall Jr. and Emmanuel C. Opara</i>	95
8 Determination of the Mechanical Strength of Microcapsules <i>Marcus D. Darabbie and Emmanuel C. Opara</i>	111
9 The Diffusive Properties of Hydrogel Microcapsules for Cell Encapsulation. . . <i>D.M. Lavin, B.E. Bintz, and C.G. Thanos</i>	119
10 Methods for Incorporating Oxygen-Generating Biomaterials into Cell Culture and Microcapsule Systems <i>John Patrick McQuilling and Emmanuel C. Opara</i>	135
11 Noninvasive Tracking of Alginate-Microencapsulated Cells <i>Genaro A. Paredes-Juarez, Brad P. Barnett, and Jeff W.M. Bulte</i>	143
12 Retrieval of Microencapsulated Islet Grafts for Post-transplant Evaluation <i>John Patrick McQuilling, Sivanandane Sittadjody, Rajesh Pareta, Samuel Pendergraft, Clancy J. Clark, Alan C. Farney, and Emmanuel C. Opara</i>	157

PART IV ISOLATION OF CELLS FOR MICROENCAPSULATION

13	A Method of Porcine Pancreatic Islet Isolation for Microencapsulation	175
	<i>William F. Kendall Jr. and Emmanuel C. Opара</i>	
14	Selective Osmotic Shock (SOS)-Based Islet Isolation for Microencapsulation	191
	<i>Kevin Enck, John Patrick McQuilling, Giuseppe Orlando, Riccardo Tamburrini, Sittadjody Sivanandane, and Emmanuel C. Opара</i>	
15	Preparation and Characterization of Alginate–Chitosan Microcapsule for Hepatocyte Culture	199
	<i>Lanjuan Li, Yanhong Zhang, and Xiaoping Pan</i>	
16	Use of Flow Focusing Technique for Microencapsulation of Myoblasts	207
	<i>J. Ciriza, L. Saenz del Burgo, R.M. Hernández, G. Orive, and J.L. Pedraz</i>	
17	Alginate Microbeads for Cell and Protein Delivery	217
	<i>Sami I. Somo, Omaditya Khanna, and Eric M. Brey</i>	
18	Compartmentalization of Two Cell Types in Multilayered Alginate Microcapsules	225
	<i>Sivanandane Sittadjody, Justin M. Saul, and Emmanuel C. Opара</i>	
19	Primary Choroid Plexus Tissue for Use in Cellular Therapy	237
	<i>M.A. Sandrof, D.F. Emerich, and Chris G. Thanos</i>	
20	Microencapsulation of Stem Cells for Therapy	251
	<i>Shirae K. Leslie, Ramsey C. Kinney, Zvi Schwartz, and Barbara D. Boyan</i>	
21	Microencapsulated Cells for Cancer Therapy	261
	<i>L. Saenz del Burgo, J. Ciriza, R.M. Hernández, G. Orive, and J.L. Pedraz</i>	
22	Microencapsulation of Bacterial Cells by Emulsion Technique for Probiotic Application	273
	<i>Surajit Mandal and Subrota Hati</i>	

PART V CELL MICROENCAPSULATION IN CLINICAL APPLICATIONS

23	Microencapsulation of Islets for the Treatment of Type 1 Diabetes Mellitus (T1D)	283
	<i>Riccardo Calafiore, Giuseppe Basta, and Pia Montanucci</i>	
24	Immunological Challenges Facing Translation of Alginate Encapsulated Porcine Islet Xenotransplantation to Human Clinical Trials	305
	<i>Rahul Krishnan, David Ko, Clarence E. Foster III, Wendy Liu, A.M. Smink, Bart de Haan, Paul De Vos, and Jonathan R.T. Lakey</i>	
25	Microencapsulation in Clinical Islet Xenotransplantation	335
	<i>Masayuki Shimoda and Shinichi Matsumoto</i>	

26	Methods for Microencapsulated Porcine Islet Production	347
	<i>Masayuki Shimoda and Shinichi Matsumoto</i>	
27	Microencapsulation of Parathyroid Cells for the Treatment of Hypoparathyroidism	357
	<i>Patricio Cabané Toledo, Ricardo L. Rossi, and Pablo Caviedes</i>	
	<i>Index</i>	365

Cell Microencapsulation

Methods and Protocols

Opara, E.C. (Ed.)

2017, XIV, 366 p. 97 illus., 80 illus. in color., Hardcover

ISBN: 978-1-4939-6362-1
