PART I ANALYSIS OF CELLULAR PROCESSES THAT ARE REGULATED BY HDACs

1 Detection of Autophagy Induction After HDAC Inhibitor Treatment in Leukemic Cells.....	3
<i>Anja Göder, Nisinth Mahendrarajah, and Oliver H. Krämer</i>	
2 Assessment of HDACi-Induced Protein Cleavage by Caspases.....	11
<i>Fabian Treude, Tobias Gladbach, Jacqueline Plaster, and Jörg Hartkamp</i>	
3 Assessment of HDACi-Induced Cytotoxicity.....	23
<i>Lisa Marx-Blümel, Christian Marx, Marie Kühne, and Jürgen Sonnemann</i>	
4 Analysis of HDACi-Induced Changes in Chromosomal Passenger Complex Localization.....	47
<i>Britta Unruhe-Knauf and Shirley K. Knauer</i>	
5 Analysis of Histone Deacetylase-Dependent Effects on Cell Migration Using the Stripe Assay.....	61
<i>Sonja Mertsch and Solon Thanos</i>	
6 Using Histone Deacetylase Inhibitors to Analyze the Relevance of HDACs for Translation.....	77
<i>Darren M. Hutt, Daniela Martino Roth, Christelle Marchal, and Marion Bouchecareilh</i>	
7 Effects of HDACi on Immunological Functions.....	93
<i>René Winkler and Christian Kosan</i>	
8 DNA Fiber Spreading Assay to Test HDACi Effects on DNA and Its Replication.....	103
<i>Teodora Nikolova, Anja Göder, Ann Parplys, and Kerstin Borgmann</i>	
9 Assessing the Effect of Class I Histone Deacetylase Activity on DNA Double-Strand Break Repair by Homologous Recombination.....	115
<i>Andrea Krumm and Wynand P. Roos</i>	

PART II PRIMARY CELL SYSTEMS AND IN VIVO MODELS TO ASSESS HDAC FUNCTIONS

10 Establishment and Characterization of Long-Term Cultures Derived from Primary Acute Myeloid Leukemia Cells for HDAC Inhibitor Research.....	127
<i>Annette Romanski and Gesine Bug</i>	
11 Assessing the Histone Deacetylase Activity of SIRT6 in Primary Murine Hepatocytes via Proximity Ligation Assay.....	149
<i>Katharina Wolf and Susanne Strand</i>	

12	Purification and Analysis of Male Germ Cells from Adult Mouse Testis.....	159
	<i>Thierry Buchou, Minjia Tan, Sophie Barral, Anne-Laure Vitte, Sophie Rousseaux, Juan Arechaga, and Saadi Khochbin</i>	
13	Generation of Tissue-Specific Mouse Models to Analyze HDAC Functions	169
	<i>Astrid Hagelkruys, Mirjam A. Moser, and Christian Seiser</i>	
14	Engineering of Conditional Class I <i>Hdac</i> Knockout Mice and Generation of a Time-Spatial Knockout by a Dual Recombination System	193
	<i>Sieglinde Bayer and Matthias Wirth</i>	
15	Xenografting of Cancer Cell Lines for In Vivo Screening of the Therapeutic Potential of HDAC Inhibitors.....	211
	<i>Daniel Nettersheim, Sina Jostes, and Hubert Schorle</i>	
16	Generation of Xenotransplants from Human Cancer Biopsies to Assess Anti-cancer Activities of HDACi.....	217
	<i>Christina Susanne Mullins, Stephanie Bock, Mathias Krohn, and Michael Linnebacher</i>	
PART III ASSESSMENT OF HDAC-DEPENDENT EFFECTS ON SIGNALING CASCADES IN PRIMARY AND PERMANENT CELLS		
17	Phospho-Flow Analysis of Primary Mouse Cells After HDAC Inhibitor Treatment	233
	<i>Dagmar Hildebrand and Katharina F. Kubatzky</i>	
18	Evaluation of Innate Immune Gene Expression Following HDAC Inhibitor Treatment by High Throughput qPCR and PhosFlow Cytometry	245
	<i>David Olagnier, Cindy Chiang, and John Hiscott</i>	
19	Assessing HDAC Function in the Regulation of Signal Transducer and Activator of Transcription 5 (STAT5) Activity Using Chromatin Immunoprecipitation (ChIP)	257
	<i>Sophia Pinz and Anne Rasche</i>	
20	Modulation of STAT1-Driven Transcriptional Activity by Histone Deacetylases	277
	<i>Benjamin Y. Owusu and Lidija Klampfer</i>	
21	Proximity Ligation Assay to Quantify Foxp3 Acetylation in Regulatory T Cells	287
	<i>Jing Jiao, Rongxiang Han, Wayne W. Hancock, and Ulf H. Beier</i>	
PART IV PTMs CONTROLLING ACETYLATION BALANCES AND HDAC FUNCTIONS		
22	Testing the Effects of SIAH Ubiquitin E3 Ligases on Lysine Acetyl Transferases	297
	<i>Jan Hagenbucher, Hilda Stekman, Alfonso Rodriguez-Gil, Michael Kracht, and M. Lienhard Schmitz</i>	
23	Assessment of HDACi-Induced <i>Acetylation</i> of Nonhistone Proteins by Mass Spectrometry	313
	<i>Martin Wieczorek, Karl-Heinz Gührs, and Thorsten Heinzel</i>	

24	Assessing the Role of Paralog-Specific Sumoylation of HDAC1	329
	<i>Simona Citro and Susanna Chiocca</i>	
25	Analysis of Histone Deacetylases Sumoylation by Immunoprecipitation Techniques	339
	<i>Tobias Wagner, Maren Godmann, and Thorsten Heinzel</i>	
PART V IMPROVED, NOVEL, AND SPECIFIC HDACi		
26	How to Distinguish Between the Activity of HDAC1-3 and HDAC6 with Western Blot.....	355
	<i>Mandy Beyer, Nicole Kiweler, Siavosh Mahboobi, and Oliver H. Krämer</i>	
27	Evaluating the Effect of HDAC8 Inhibition in Malignant Peripheral Nerve Sheath Tumors	365
	<i>Gonzalo Lopez and Raphael E. Pollock</i>	
28	Analyzing the Impact of Pan- and Class-Specific HDACi on Differentiation-Associated Factors	375
	<i>Katrin Noack and Oliver H. Krämer</i>	
29	Encapsulation of the HDACi Ex527 into Liposomes and Polymer-Based Particles.....	387
	<i>Dorle Hennig and Diana Imhof</i>	
30	Preparation of Histone Deacetylase Inhibitor Vorinostat-Loaded Poly D, L-Lactide-co-Glycolide Polymeric Nanoparticles by Nanoprecipitation Method	399
	<i>Vilwanathan Ravikumar and Renu Sankar</i>	
31	Generation and Assessment of Fusions Between HDACi and TKi.....	405
	<i>Siavosh Mahboobi, Bernadette Pils, and Andreas Sellmer</i>	
	<i>Index</i>	413

HDAC/HAT Function Assessment and Inhibitor
Development

Methods and Protocols

Krämer, O.H. (Ed.)

2017, XIV, 415 p. 97 illus., 58 illus. in color., Hardcover

ISBN: 978-1-4939-6525-0
