

Contents

Part I Materials for Piezoelectric MEMS Resonators

1	AlN Thin Film Processing and Basic Properties	3
	Paul Muralt	
2	Lead Zirconate Titanate (PZT) for M/NEMS	39
	Ronald G. Polcawich and Jeffrey S. Pulskamp	
3	Gallium Nitride for M/NEMS	73
	Mina Rais-Zadeh and Dana Weinstein	
4	Lithium Niobate for M/NEMS Resonators	99
	Songbin Gong	

Part II Design of Piezoelectric MEMS Resonators

5	Quality Factor and Coupling in Piezoelectric MEMS Resonators	133
	Reza Abdolvand, Hedy Fatemi, and Sina Moradian	
6	Flexural Piezoelectric Resonators	153
	David Horsley, Yipeng Lu, and Ofer Rozen	
7	Laterally Vibrating Piezoelectric MEMS Resonators	175
	Matteo Rinaldi	
8	BAW Piezoelectric Resonators	203
	Ken-ya Hashimoto	
9	Shear Piezoelectric MEMS Resonators	221
	D.T. Chang and D.J. Kirby	
10	Temperature Compensation of Piezo-MEMS Resonators	243
	Wanling Pan	
11	Computational Modeling Challenges.....	257
	Mattan Kamon	

**Part III Manufacturing and Reliability of Piezoelectric
MEMS Resonators**

12 Fabrication Process Flows for Implementation of Piezoelectric MEMS Resonators	283
Roozbeh Tabrizian	
13 Reliability and Quality Assessment (Stability and Packages)	299
Robert Gubser	
14 Large Volume Testing and Calibration.....	311
Minfan Pai	

Part IV Real World Implementations

15 High Frequency Oscillators for Mobile Devices.....	335
Jan H. Kuypers	
16 BAW Filters and Duplexers for Mobile Communication.....	387
Robert Aigner	
Index.....	415

Piezoelectric MEMS Resonators

Bhugra, H.; Piazza, G. (Eds.)

2017, XII, 424 p. 231 illus., 127 illus. in color.,

Hardcover

ISBN: 978-3-319-28686-0
