1	Mass Customization in the Building and Construction Industry.....	1
	Kim Noergaard Jensen, Kjeld Nielsen, Thomas Ditlev Brunoe, and Søren Munch Lindhard	
2	Reconfiguring Variety, Profitability, and Postponement for Product Customization with Global Supply Chains.....	13
	Martin Bonev, Anna Myrodia, and Lars Hvam	
3	Mass Customization Challenges of Engineer-to-Order Manufacturing.....	27
	Maria K. Thomassen and Erlend Alfnes	
4	An Open-Source Model of Collaboration and Customization in Architecture.....	41
	Carlo Carbone and Basem Eid Mohamed	
5	Information-Driven Customization: A Profile-Matching Model.....	59
	Basem Eid Mohamed and Carlo Carbone	
6	The Potential of Product Customization Using Technologies of Additive Manufacturing.....	71
	Roland Lachmayer, Paul Christoph Gembarski, Philipp Gottwald, and R. Bastian Lippert	
7	Conceptual Model for Developing Platform-Centric Production Architectures.....	83
	Jacob Bossen, Thomas Ditlev Brunoe, Mads Bejlegaard, and Kjeld Nielsen	
8	From ETO to Mass Customization: A Two-Horizon ETO Enabling Process	99
	Aldo Duchi, Filippo Tamburini, Daniele Parisi, Omid Maghazei, and Paul Schönsleben	

9 Utilization of Mass Customization in Construction and Building Industry.....	115
Kjeld Nielsen, Thomas Ditlev Brunoe, Kim Noergaard Jensen, and Ann-Louise Andersen	
10 Challenges in Choice Navigation for SMEs.....	127
Kjeld Nielsen, Thomas Ditlev Brunoe, Lars Skjelstad, and Maria Thomassen	
11 Machine-Part Formation Enabling Reconfigurable Manufacturing Systems Configuration Design: Line Balancing Problem for Low Volume and High Variety.....	139
Mads Bejlegaard, Thomas Ditlev Brunoe, Kjeld Nielsen, and Jacob Bossen	
12 Engineering Change Management and Transition Towards Mass Customization.....	147
Simon Haahr Storbjerg, Thomas Ditlev Brunoe, and Kjeld Nielsen	
13 The Evolutionary Process of Product Configurators	161
