

Contents

- Preface** v
- Introduction** vii
- Acknowledgements** xiii
- Part I Value of Information Sharing**
 - 1 Modeling and Measuring the Bullwhip Effect** 3
 - Li Chen and Hau L. Lee
 - 1.1 Introduction 3
 - 1.2 Survey of Empirical Findings 6
 - 1.3 Modeling the Bullwhip Effect 10
 - 1.3.1 Overview and Model Setup 11
 - 1.3.2 AR(1) Demand Process 12
 - 1.3.3 IMA(0,1,1) Demand Process 14
 - 1.3.4 General MMFE Demand Process 15
 - 1.4 Measuring the Bullwhip Effect 17
 - 1.4.1 Seasonality 18
 - 1.4.2 Time Aggregation 19
 - 1.4.3 Product and Location Aggregation 20
 - 1.4.4 Material Flow Data 21
 - 1.5 Future Research Opportunities 22
 - References 24
 - 2 Empirical Studies in Information Sharing** 27
 - Z. Justin Ren
 - 2.1 Introduction 27
 - 2.1.1 Types of Information in a Supply Chain 27
 - 2.1.2 Key Questions for Empirical Research 29
 - 2.2 Value of Demand Information 29

2.3	Value of Advance Orders Information	30
2.4	Sharing Forecast Information	31
2.5	Incentives and Contracts in Sharing Forecast Information	31
2.6	Value of Inventory Information	33
2.7	Value of Sharing Order Status Information	34
2.8	Sharing Information About Product Development	34
2.9	Sharing Inaccurate Information	35
2.10	Summary	36
	References	36
3	Collaborative Forecasting in Retail Supply Chains	39
	Mümin Kurtuluş	
3.1	Introduction	39
3.2	Value of CF When Supply Chain Members are Cooperative	44
3.2.1	Value of CF Relative to Decentralized Forecasting	45
3.2.2	Value of CF Relative to Vendor Managed Inventory (VMI)	47
3.2.3	Value of CF Due to Inventory, Production Smoothing, and Adherence-to-Plans	49
3.3	Value of CF When Supply Chain Members are Strategic	52
3.3.1	Incentives for Sharing Forecasts and Value of CF Due to Better Pricing	53
3.3.2	Value of CF When the Forecasting Investments are Endogenous	55
3.4	Conclusions and Future Research Directions	57
3.4.1	Future Research Directions	59
	References	59
Part II Contracting and Information		
4	Reliability or Inventory? An Analysis of Performance-Based Contracts for Product Support Services	65
	Sang-Hyun Kim, Morris A. Cohen, and Serguei Netessine	
4.1	Introduction	66
4.2	Related Literature	68
4.3	Model	70
4.3.1	Repair Process and Performance Measurement	71
4.3.2	Cost Structure	71
4.3.3	Contracts	72
4.4	Analysis	74
4.4.1	The First-Best Benchmark	74
4.4.2	Resource-Based Contract	75
4.4.3	Performance-Based Contract	76
4.4.4	Comparisons of the Contracts	78

4.5	Conclusion	80
	Appendix 1: Mathematical Preliminaries	81
	Appendix 2: Proofs of the Main Results	82
	References	87
5	Project Contracting Strategies for Managing Team Dynamics	89
	George Georgiadis and Christopher S. Tang	
5.1	Introduction	90
5.1.1	Related Literature	92
5.2	The Model	93
5.3	Agents' Problem	94
5.3.1	Preliminaries	94
5.3.2	Markov Perfect Equilibrium (MPE)	95
5.3.3	Comparative Statics	97
5.4	Manager's Problem	98
5.5	Project Design with and Without Commitment	100
5.5.1	Full Commitment	101
5.5.2	No Commitment	101
5.5.3	Optimal Delegation	102
5.6	Concluding Remarks	103
	References	104
6	Time-Related Incentive Contracts for Managing Projects with Uncertain Completion Time	107
	Christopher S. Tang, Kairen Zhang, and Sean X. Zhou	
6.1	Introduction	108
6.2	Model Preliminaries	111
6.3	The Combined Contract	112
6.3.1	Bidding Equilibrium	112
6.3.2	Optimal Combined Contracts	115
6.4	An Extension: Delaying Work Rate Decision	116
6.4.1	Bidding Equilibrium	117
6.4.2	Optimal Combined Contracts	119
6.5	Conclusion	121
	References	122
7	Contracting for New Product Development	123
	Sameer Hasija and Shantanu Bhattacharya	
7.1	Introduction	123
7.1.1	Notation and General Model	125
7.2	Internal Incentives for NPD	128
7.3	Contracts for External NPD	133
7.3.1	Management of Contractual Collaborations for External NPD	133
7.3.2	Contests for Contracting on External NPD by Freelance Innovators	140

7.4	Conclusions and Future Research	142
	References	143
8	Supply Disruptions and Procurement Contracting	145
	Volodymyr Babich and Zhibin (Ben) Yang	
8.1	Introduction	145
8.2	Practice: Supply Chain Risk Management and Contracting	147
8.3	Research: Standard Assumptions to be Reexamined in the Presence of Supply Risk	151
8.4	Insights on Contracting Under Asymmetric Information in the Presence of Supply Risk	154
8.4.1	Benchmark: Screening for Supplier Cost	155
8.4.2	Equivalent Model with Risk: What Assumptions are Necessary?	157
8.4.3	Screening for Supplier Risk: Why the Model and the Insights are Different?	158
8.4.4	Risk Management Tools and the Value of Information	161
8.5	Multiple Dimensions of Asymmetric Information	165
8.6	Future Research Opportunities	166
	References	168
9	Contracting for Information Acquisition	171
	Guoming Lai and Wenqiang Xiao	
9.1	Introduction	171
9.2	Literature	173
9.3	The Model	175
9.4	The First-Best Solution	177
9.5	The Menu of Linear Contracts	178
9.6	The Forecast-Based Contract	182
9.7	Conclusions	185
	References	185
Part III Information Signaling and Cheap Talk		
10	A Tale of Two Information Asymmetries in Competitive Supply Chains	189
	Mehmet Gümüs	
10.1	Introduction	189
10.2	Related Literature	194
10.3	Model Framework	196
10.4	Symmetric Information Case	199
10.5	Asymmetric Demand Information	201
10.6	Asymmetric Capacity Information	206
10.7	Conclusions, and Future Research Opportunities	208
	References	211

11 Supply Chain Information Signaling and Capital Market	215
Guoming Lai and Wenqiang Xiao	
11.1 Introduction	215
11.2 Literature	218
11.3 Model	219
11.4 Analysis	221
11.4.1 The Single Contract Case	221
11.4.2 Restoring Efficiency with Operational Mechanism	226
11.5 Other Studies	229
11.5.1 Capacity Constraint and Equilibrium Refinement	229
11.5.2 Characteristics of Information Asymmetry	230
11.5.3 Sales Channel Stuffing	231
11.6 Conclusion	231
References	232
12 Buying from the Babbling Retailer? The Impact of Availability Information on Customer Behavior	235
Gad Allon and Achal Bassamboo	
12.1 Introduction	236
12.1.1 Literature Review	239
12.1.2 Classical Cheap Talk Game	240
12.2 Model	241
12.3 Providing No Information	243
12.4 Cheap Talk Equilibrium	244
12.4.1 Main Result	245
12.5 Multiple Customer Classes	247
12.6 Multiple Channels of Information	253
12.7 Concluding Remarks and Future Directions	256
Appendix: Proofs	257
References	261
13 Incentives for Forecast Information Sharing Under Simple Pricing Mechanisms	263
Noam Shamir and Hyoduk Shin	
13.1 Introduction	263
13.2 Information Sharing with Multiple Decisions	266
13.2.1 The Basic Model	266
13.2.2 Two-Point Distribution	267
13.2.3 General Distribution	270
13.3 Competition Between Supply-Chains	274
13.3.1 The Model	274
13.3.2 Benchmark	275
13.3.3 Public Forecast Sharing	277
13.4 Concluding Remarks	282
References	283

Part IV Incentives for Information Sharing

14	Establishing Trust and Trustworthiness for Supply Chain Information Sharing	287
	Özalp Özer and Yanchong Zheng	
14.1	Introduction	287
14.2	Personal Values and Norms	291
14.3	Market Environment	294
14.4	Business Infrastructure	298
	14.4.1 Culture and Institutions	298
	14.4.2 Social Networks	301
14.5	Business Process Design	303
	14.5.1 Information Exchange, Advice, or Delegation	303
	14.5.2 Process-Driven Information Exchange	306
	14.5.3 Engineering Reputation Information	307
14.6	Conclusion	308
	References	309
15	Information Leakage in Supply Chains	313
	Guangwen Kong, Sampath Rajagopalan, and Hao Zhang	
15.1	Introduction	314
	15.1.1 Basic Framework	316
15.2	Ex-Ante Information Sharing Arrangement	319
	15.2.1 Li (2002) and Zhang (2002)	320
	15.2.2 Li and Zhang (2008)	321
	15.2.3 Jain et al. (2011)	323
	15.2.4 Gal-Or et al. (2008)	324
	15.2.5 Jain and Sohoni (2015)	325
	15.2.6 Shin and Tunca (2010)	325
	15.2.7 Shamir (2012)	327
15.3	Ex-Post Information Sharing Arrangement	328
	15.3.1 Anand and Goyal (2009)	328
	15.3.2 Kong et al. (2013)	329
	15.3.3 Shamir (2015)	331
15.4	Other Dimensions	332
	15.4.1 Uncertain Costs	332
	15.4.2 Auction	333
	15.4.3 Competing Supply Chains	334
15.5	Discussion and Future Research	335
	15.5.1 Discussion of the Existing Literature	335
	15.5.2 Other Supply Chain Structures	337
	15.5.3 Other Types of Contracts	338
	15.5.4 Long-Term Relationship	339
	References	340

16	Bilateral Information Sharing and Pricing Incentives in a Retail Channel	343
	Anthony Dukes, Esther Gal-Or, and Tansev Geylani	
16.1	Introduction	343
16.2	Modeling Framework	346
16.3	Single Retailer	348
16.3.1	No Sharing and Downward Sharing	348
16.3.2	Bilateral (Full) Sharing	353
16.3.3	The Sharing Decision	355
16.4	Competing Retailers	355
16.5	Conclusions and Directions for Future Research	358
	Appendix	359
	References	366
17	Sharing Demand Information Under Simple Wholesale Pricing	369
	Albert Y. Ha and Hongtao Zhang	
17.1	Introduction	369
17.2	Single Supply Chain	371
17.2.1	Linear Production Cost	372
17.2.2	Production Diseconomies of Scale	374
17.2.3	Production Economies of Scale	376
17.2.4	Make-to-Stock	378
17.3	Two Supply Chains Competing in Price	380
17.4	Two Supply Chains Competing in Quantity	384
17.5	One-to-Many Supply Chain	387
17.6	Two-to-One Supply Chain	388
17.7	Concluding Remarks	389
	References	390

Handbook of Information Exchange in Supply Chain
Management

Ha, A.Y.; Tang, C.S. (Eds.)

2017, XXI, 390 p. 43 illus., 13 illus. in color., Hardcover

ISBN: 978-3-319-32439-5
